

HORRIBLE CONFESSION OF WHOLESALE MURDER IS MADE BY A PRISONER TO CHICAGO POLICE

Harry Spencer Claims That He Has Been Responsible for
Twenty Violent Deaths Within the Past Few Years,
and He Forgets How Many More

Was Arrested for the Murder of a Dancing-Mistress, Whose
Body Was Found on Railway Track Near an Indiana
Town a Week Ago, Bullet-Riddled

Chicago, Oct. 6.—The police began today their investigation of the most unparalleled confession last night of Harry Spencer that he had committed twenty murders. Possessing evidence to support his admission that he killed Mrs. Mildred Allison-Rexroat, the dancing instructor, on September 25, the authorities are convinced that they will in a short time confirm Spencer's guilt as to many, if not all, the crimes.

After his arrest last night for the Rexroat murder, detectives went to Spencer's room where they found the rattle suitcase which the tango dancer had taken with her on her fatal trip to Wayne, Ill. In the suitcase was part of her clothing and in the room was the revolver with which Spencer ended her life.

En route to the detective bureau Spencer admitted to Chief of Detectives John J. Halpin that "You've got the goods on me. I know I'll swing for this." Then began his extraordinary confession. Spencer asserted he had sent the following to their graves:

One of two farmers, shot near Zion City, Ill. in the spring of 1903. Peter Wilmer, one of the car barn bandits who afterwards was hanged, killed the other, he said. Obtained \$500.

Policeman Timothy Deane and Charles Pennell, shot in August, 1912, when they surprised Spencer and a man named Murphy breaking into house.

Fannie Thompson, whose body was found January 1, 1908, gagged and bound in bed in a rooming house in Waukegan, Ont., robbed of diamonds worth \$1,200.

Former wife, near Fort Montgomery, N. Y. beaten to death in the woods. Robbed of \$300 and diamonds worth \$200. Formerly maid to Helen Gould.

Aged man in Washington Park last spring, shot and thrown into lagoon. Got \$200 in cash.

Two girls at Delavan Lake, Wis., in June. Killed with hammer and bodies thrown in the lake.

Woman in house near Cook county

CHINA'S FIRST PRESIDENT

YUAN SHI KAI

Who to-day was elected as president of the Chinese republic, getting a large majority on the third ballot.

whether he "beat them on the head with a hammer" or "shot them to death" his memory was better. He also remembers approximately how much money or jewelry he generally got from his victims.

He said he did not drink nor smoke, except opium. He repeatedly asserted that he had not "touched a pill" for two days, and a physician who examined him declared he was not under the influence of the drug.

"My head is as clear as a bell," Spencer said. "You have got me dead to rights on the Rexroat murder, and I know that I shall be hanged in a couple of months. That's why I want to tell you everything else and get it out of the way. I wanted to tell all and then be treated decently until they pull the rope."

"I have been in and out of prisons since I was a boy. I have been hunted and wanted all my life. I am now on the world. My own life doesn't amount to much. Nobody's life has meant much to me."

The proceeds of Spencer's crimes have amounted to more than \$10,000, and the last year, according to his confession, he has spent the money in the Twenty-second street district, where he said he has been a big spender in the cafes.

"I killed Mrs. Rexroat because she

(Continued on page 22.)

YUAN SHI KAI IS FIRST PRESIDENT

Elected as Head of the Chinese Republic on Third Ballot

LEADER IN MOVEMENT
FROM ITS INCEPTION

In Full Vigor of Mental Powers,
He Has Had Long Training
as Administrator

TERM OF OFFICE IS
TO BE FIVE YEARS

Peking, Oct. 6.—Yuan Shi Kai was elected to-day president of the Chinese republic for a term of five years. He received the necessary two-thirds vote of the united houses of parliament on the third ballot.

On the first ballot Yuan Shi Kai failed to receive a two-thirds vote of the united houses, the vote standing: Yuan Shi Kai, 471; Tsai Yuan Hong, 153. The remainder of the 729 ballots were scattered among twenty other candidates. The casting of a second ballot was ordered at once.

Yuan Shi Kai, first president of the Chinese republic, is 54 years old. He was born in the province of Ho Nan in 1859. During most of his adult life he has been in official life. At the age of 34 he was sent with a Chinese detachment to Korea, and three years afterwards became imperial resident at Seoul. He remained there 12 years until he was expelled during the Chinese-Japanese war. On his return to China he occupied various provincial posts until 1902, when he became consulting minister to the government.

Yuan Shi Kai took a prominent part in the reorganization of the Chinese on modern lines and in the closing years of the Empire became its most influential and powerful statesman. He was always thoroughly practical in his methods of administration, and by this means worked his way up to the premiership in 1911.

Early in 1912 it was he who was given full power to arrange the terms of abdication from the throne, and to organize a republican government. Shortly afterwards, in February, he was elected provisional president of the republic by the national council at Nanking and took the oath of office on March 10.

CHANCERY TAKES HAND IN THE SLINGSBY CASE

British Consul at the Golden Gate to
Take Evidence on Substitution Charge.

San Francisco, Oct. 6.—The famous Slingsby baby substitution case is to be re-opened. A. Carnegie Ross, British consul at San Francisco, has been appointed by the high court of chancery in England to take the evidence on commission of witnesses and upon the result will depend the determination of the large Slingsby estate in Yorkshire, yielding an income of \$50,000 a year.

Lieut. and Mrs. Charles Henry Raymond Slingsby, who claim the infant as their own, are said to be on their way from Victoria, B. C., to San Francisco to testify.

The Slingsby case came into international prominence more than a year ago, when the husband, a lieutenant in the British army, began a fight for the family fortune. He was opposed by his brother, who declared that the child was not the offspring of Mrs. Slingsby, but that of a California school-girl, which was substituted for the dead babe of Mrs. Slingsby.

Among the witnesses whose depositions will be taken are Mrs. Hattie Bain, Mrs. Slingsby's nurse; Dr. W. W. Fraser, who issued the birth certificate in the case; and Dr. W. F. Snow, secretary of the state board of health, who investigated the circumstances of the alleged substitution.

DISTASTE FOR WATER IS BLAMED FOR RAIN

Berlin, Oct. 6.—A telegram from St. Petersburg to the Tagblatt says that in the village of Walliso, near Loda, the peasants held a meeting to discover the cause of the heavy rain, which rendered the harvest prospect most unfavorable. They decided it was an affliction from Heaven on account of the intemperate habits of the local innkeeper, one named Zalchou.

A deputation remonstrated with the innkeeper, but he refused to mend his ways, and the rain did not stop, so the peasants held a court in the field before which Zalchou was brought and sentenced him to death. The peasants carried off the sentence on the spot by beating the innkeeper to death.

MINISTER VISITOR TO PRISON CELLS

Hon. C. J. Doherty is Believer
in Reformative Rather Than
Punitive Methods

WILL BE IN VICTORIA
WITHIN DAY OR TWO

He is Satisfied That in the
Thaw Case He Acted With-
in His Rights.

ADVOCATES FEDERAL
BAR ASSOCIATION

Vancouver, Oct. 6.—Hon. Charles J. Doherty, minister of justice, arrived yesterday on a visit of general inspection and investigation of penal institutions. He will remain on the coast until Friday, when he must start on his return journey to Ottawa. After visiting Victoria and before returning eastward he will visit the prison at New Westminster. The prisons of Canada, in the minister's opinion, offer a wide range for improvement, and he advocates making the prison a reformative institution instead of a punitive one.

With the knowledge of penal institutions he will gain on this trip, the minister will be better able to understand the penitentiary commission's report when it is submitted to him. It was with a view of gathering suggestions and information for prospective reforms that the minister appointed a commission to investigate these institutions.

During his present trip also the minister is advocating a Canadian Bar Association. "Not that this would be any more legal than the provincial association," he explained, "but I think it all were affiliated under the name of the Canadian Bar they could do much good toward legal assistance of one another. The American Bar Association in the United States is a powerful organization of legal men, and has done great good for the country. I would like to see something similar in Canada as a Dominion organization."

With regard to the Thaw episode, which he brought to a close by getting that individual out of the country, Hon. Mr. Doherty said he knew that as soon as the matter came into the courts his actions would be determined to have been perfectly within his rights, and not, as it was termed by some, "flying in the face of justice."

"I am more than pleased with the result generally," Mr. Doherty said. "From what I am able to judge business conditions are improving—at least everybody seems optimistic—and that is a condition of mind which bodes well. I am sorry I cannot remain longer. I have been pleased to hear that our appointment of the two new judges for British Columbia has been satisfactory."

CONSERVATIVE DEMANDS FOR REMOVAL OF DUTY ON WHEAT

Reciprocity for the Benefit of the Western Grain-Grower is
Advocated by a Leading Tory Newspaper and is En-
dorsed by Biggest Grain Merchant in Canada, Who
Fought Laurier-Flelding Agreement
Two Years Ago

Toronto, Ont., Oct. 6.—The Toronto World, radical Conservative, is vigorously advocating the removal of the Canadian duty on wheat, so that western wheat may enter the United States duty free. This morning it says:

"Here are some interesting facts which the World presents to the Canadian people:

"The price of wheat at the close of our western wheat is higher in the States than in Canada. James Carruthers, our leading grain dealer, is only one of our authorities on that point.

"Freight rates on wheat are lower in the United States than in Canada. 'With free entry into the United States—and we can get it by withdrawing out duty on wheat—our farmers will get higher prices and lower freight.

"Cut out the duty and the Canadian Pacific railway has got to give such freight reductions as will let Canadian buyers give American prices for wheat to Canadian farmers and at the same time secure for Canadians American freight rates.

"The Canadian Pacific octopus has got to surrender and to surrender quickly."

"The public men of Canada and the press of Canada have remained absolutely mum on these points. Why?"

Montreal, Oct. 6.—Speaking on Saturday of the coming into effect of the new United States tariff schedules, James Carruthers, head of the greatest grain house in Canada, and a prominent Conservative, said:

"We should agree to reciprocity in wheat, more especially as the quantity of American wheat that would be shipped into Canada under such an agreement would practically amount to nothing. Reciprocity in wheat between Canada and the United States, I believe, would raise the price of our Manitoba wheat and bring Chicago and Winnipeg prices closer together."

Seattle, Oct. 6.—Before the fire in the basement of the Times building was under control while it was battling the efforts of the firemen, in fact, and before any possible opportunity had been offered to investigate it and trace its origin—Judge John R. Humphries took it upon himself to call up a local newspaper by telephone and charge the fire upon the Socialists and so-called "reds" who have been figuring in his court in contempt proceedings for some weeks past.

His unsolicited statement over the telephone was so extraordinary as to be scarcely credible when reduced to writing, and he was asked to verify it later in the afternoon when the excitement was over. This he did, in somewhat modified but still remarkable language, as follows:

"It has happened just as I tried to warn Seattle. In my opinion those persons who signed the petition of defiance to my court are guilty of the fire in the Times building, just as I warned them they would be.

"The anarchists in Chicago were held guilty of the murders at the Haymarket riots because they incited these disorders. In the same way those persons who have defied the court are guilty of this fire.

"If the prosecuting attorney would take the initiative and file information against these people they can be convicted of arson. There is no doubt in my mind of this.

"This is the result of that conspiracy in Cowan Park that I tried to warn the people about. I warned Col. Blithen, but he said: 'I've got three armed men guarding the place, and they can't do it.'"

"I've tried to warn these Socialists and reds. I told them that if their buildings were burned or persons lost their lives after their defiance of the court they would be held responsible in both civil and criminal action for the fire, and for murder if lives were lost. I can take no initiative in this matter. It is the duty of the prosecuting attorney to file the information, and the cases would come before Judge Ronald, not before me, unless they were referred to me; but I am an expert on conspiracy and I say the signers of the petition are guilty, and no other evidence than the signing of that petition is needed to convict them of arson."

"Such an astounding statement never emanated from a court other than Judge Humphries', but it is in keeping with his remarks from the bench, which have attracted wide attention and which led to a severe arraignment of him by the president of the Illinois Lawyers' Association on Saturday.

The Cowan Park "conspiracy" of which Judge Humphries says this fire is a sequel, was a weird story of a plot which the police department investigated fully and decided was wholly visionary and mythical.

Chief Bannick said last night that repeated fires in the Times building certainly called for thorough investigation, and the detective department was now actively searching for evidence of incendiaries. He knew of no facts, however, implicating any of the defendants in the contempt proceedings in Judge Humphries' court.

The fire marshal believes the fire was the result of a gas explosion. A statement could not be obtained from Prosecuting Attorney Murphy, whom Humphries calls upon to do his duty.

CARBOLIC USED BY TWO TIRED OF LIFE

Suicides in Vancouver Use the Burn-
ing Acid to End Their
Existence.

Vancouver, Oct. 6.—Two suicides through the agency of carbolic acid were carried out on Saturday night, one in Vancouver and the other in Burnaby. The victims were Victor Terryberry, of 248 Union street, Vancouver, and Mrs. Sarah Kilby, of Thirteenth avenue, East Burnaby. In both cases the dose proved fatal in spite of prompt medical assistance.

The case of Victor Terryberry took place about 8 o'clock on Saturday night when, answering a hurry call, the police and Dr. Petersky rushed to Cabin Six, Union street, and found a man prostrate on the floor. When the doctor was called he had told the person over the telephone to administer the whites of eggs until his arrival. When he reached the hut, however, he discovered that mustard had been given the man instead. Dr. Petersky worked over him for some time but to no avail.

In the case of Mrs. Kilby there is no cause known for the suicide. An inquest will be held in New Westminster at 2.30 this afternoon. It is alleged that a quarrel with his wife was the man's taking his life.

FIRE DAMAGED PRESSES OF SEATTLE TIMES AND RUINED MOTORS YESTERDAY

Owners Believe That Incendiaries Are to Blame But It is Gen-
eral Impression That There Was an Explosion of Gas;
Loss Will Be About \$75,000; Firemen Injured

Seattle, Oct. 6.—Fire yesterday damaged four large presses and destroyed thirty-three motors in the pressroom of the Seattle Times, in the basement of the Times building, causing a loss of \$75,000, chiefly insured.

The presses were damaged by water and steam, but were not burned and can be fully restored in a short time.

The fire was discovered at 11 a. m. and originated in the coatroom of the stereotyping department.

Owing to the stifling smoke the firemen had difficulty in working, and just when a number of men had established themselves and were getting the flames under control an explosion of gas injured eight of them, two being rendered unconscious. All will recover. Three of them are still in the hospital but are in no danger.

The fire gutted that portion of the building which was spared by last February's fire. The candy store of the Shull & Company, on the ground floor

of the Times building, suffered a loss of \$5,000. This was the only damage except in the basement.

Col. Alden J. Blithen, editor of the Times, and Clarence B. Blithen, managing editor, said they were convinced the fire was of incendiary origin.

Although the chief of the fire department, after a thorough investigation, could find no traces of a mechanical device used to start the fire, Col. Blithen and his son based their opinion on a statement of a stereotyper, who said the flames burst forth from a locker which had not been opened for twelve hours.

Further investigation results in the general acceptance of the theory that the fire was caused by an explosion of leaking gas. Unless the presses are more seriously damaged than now appears, the loss will not exceed \$75,000.

The Times is issuing all its editions as usual, none of its plant except the presses and stereotyping room having been damaged. The presses of the Post-Intelligencer are being used.

JAPAN TO NEGOTIATE CALIFORNIA TROUBLE

Tokio, Oct. 6.—The newspaper Jiji Shimpo says that negotiations shortly are to be re-opened with the United States in regard to the California alien land act.

"Japan," says the paper, "desiring to reach a fundamental solution of the California question and finding the acquisition of naturalization for Japanese in California most difficult, is about to propose a new treaty with the United States."

THAW GETS HIS ANSWER.
Washington, D. C., Oct. 6.—None of Harry K. Thaw's treaty rights as an American citizen were violated when Canadian immigration authorities forcibly deported him a few weeks ago. That was the ruling to-day of Solicitor-general Joseph W. Falk, of the state department.

MINOR POET WILL HAVE TO WORK FOR A WHILE

Beat His Way Across Atlantic as a
Stowaway; Deportation to
Follow.

Southampton, Eng., Oct. 6.—A sentence of twenty-one days' hard labor was pronounced to-day on Harry Kemp, the American verse writer, who was charged with stowing himself away on board the steamship Oceanic on her last voyage from New York. The magistrate sent a recommendation to the home office that Kemp should be deported after he had served his term of imprisonment.

Harry Kemp, an American who writes poetry and who once eloped with the wife of Upton Sinclair, was arraigned on the charge of stowing away on the steamer Oceanic. The Oceanic arrived here Saturday. The poet made his way aboard the Oceanic as a stowaway prior to the steamer's departure from New York. He was without money, but, as he remarked, he had an irresistible desire to visit England. He had tried in vain for an opportunity to work his way across on a cattle ship, and so walked aboard the Oceanic.

He sent a note to the captain confessing that he was without funds and was put to work as an assistant steward. Kemp tried to land at Plymouth, but the captain ordered him under arrest and appeared against him in court.

AUSTRALIAN HEARTS

THRILL WITH PRIDE

Thousands Watch Their Own Home Fleet as It Steams Between Sydney Heads

Sydney, N. S. W., Oct. 6.—The arrival of the Australian fleet in the Sydney home waters on Saturday, marks another epoch in Australian history, and what is highly satisfactory is the fact that the fleet which anchored today is quite free of debt. The cost so far has been \$16,000,000 and the full price has been paid.

The welcome extended was one that will live in the memory of the vast multitude who witnessed it, not only as a spectacle of the home-coming of the fleet, but as an object lesson of the aspirations of Australia.

Crowds lined the coast for miles and every point of vantage was a mass of humanity, while the coasts and harbor were thronged with sightseers.

The scene on the water was animated, every description of craft joining in the welcome as the Australia steamed through Sydney Heads a mighty roar proclaimed the home-coming, but it was not the spectacle that stirred most, rather the rejoicing over the fact that Australia was celebrating her coming of age.

For a full week the city will be given over to festivities. The flagship is the largest and most up-to-date vessel ever to enter Sydney Heads. Dense crowds thronged the shore from daylight till midnight. At night the illuminated fleet and the harbor presented a scene of great brilliance.

"SHUN THE TEAPOT" SAYS IRISH BISHOP

Dr. Mangan Warns People of Kerry Against Indulgence in Cup That Cheers

Dublin, Oct. 6.—For the last ten years or so a number of Irish doctors interested in mental diseases have been trying to locate the causes of widespread lunacy in County Kerry. It has remained for an eminent ecclesiastic actually to fix it.

Most Rev. Dr. Mangan, the Roman Catholic Bishop of Kerry diocese, attributes this sad mental state to a far too wide indulgence in the use of tea among young people. As a consequence, he has issued a warning to mothers to be more sparing in the supply of that popular beverage to their children.

"Before the teapot," says his grace, became such a common domestic utensil, Kerry homes produced a race of men and women that was the admiration of Europe. Instead of degenerate muscular development we have now a population of stunted growth exhibiting systems of mental degeneracy. I beg of you all, therefore, to shun the teapot."

Dr. Mangan is by no means an isolated instance of a public man condemning the steadily growing practice of tea-drinking in Ireland. There are others who do not hesitate to say that the modern tendency to abandon "simple life" for a luxurious tea-table is responsible for the marked increase of lunacy among the peasantry.

CHATEAUGUAY CONTEST STRAIGHT PARTY ONE

Hon. Sydney A. Fisher and James Morris Will Contest the Seat.

St. Martin, Que., Oct. 5.—Saturday was nomination day in Chateauguay county. The bye-election, which up to the present is the warmest campaign in Dominion politics this year, is to fill the vacancy caused by the death of the long-time Liberal member, James Pollock Brown.

It will be an straight party line, with only two candidates, the rumored dark horse, J. C. Dubois, having failed to turn up.

The candidates are Hon. Sydney A. Fisher, farmer, of the township of Brome, Liberal, and James Morris, farmer, of the parish of St. Jean Chrysostome, Conservative.

AERONAUT IS DROWNED.

Alpena, Mich., Oct. 5.—Ernest Kemp, 27, an aeronaut, was drowned here yesterday in Thunder Bay River. He made a balloon ascension from the county fair grounds. When he dropped from the balloon his parachute fell into the water, he became entangled in the ropes and was unable to extricate himself. He leaves a widow and three children.

AWAY WITH THE SWORD.

Berlin, Oct. 5.—The sword, the soldier's proverbial weapon since the early days of history, seems on the way to disappearance in the German army. The six cavalry regiments provided for by the army increase law, passed this year, will be without sabres, being armed instead with carbines equipped with the short infantry bayonet. The change is made experimentally.

BRAKEMAN SHOTS BARTENDER

London, Ont., Oct. 6.—Thomas Reilly, Grand Trunk brakeman, who probably mortally wounded George Blackburn, bartender at the Hotel Cecil, by shooting him through the lung, was caught by detectives while attempting to board a westbound freight on Saturday. He appeared in court and was remanded for a week.

DYNAMITING IN HUNGARY.

Plum, Oct. 5.—A dynamite bomb was exploded in the governor's palace here last night. It caused great damage to the archives room, where documents in reference to elections are kept. It is supposed this was the object of the perpetrators of the outrage. No one was hurt.

CARSON CONCLUDES

TOUR OF NORTHEAST

Reviews the Unionist "Troops"—T. P. O'Connor on Conservative Dilemma

London, Oct. 6.—What has proved a strenuous week in political circles, as a result of the Home Rule agitation, closed with a final demonstration at Belfast on Saturday, when Sir Edward Carson, the leader of the Northeast Ulster opponents of the government of Ireland bill, concluded his tour, which lasted a fortnight, during which he reviewed the "troops" in the north.

Now Ulster will resume its ordinary business, though the Duke of Abercorn will, it is stated, have three hundred men camped upon his estate at Harcourt. It is reported that Sir Edward Carson and F. E. Smith are returning to London immediately.

The average Englishman is just a little humiliated by the long-drawn-out wrangle and refuses to believe that a solution is beyond the resources of combined British statesmanship. They confidently await the action of Premier Asquith and his government. Carson's sympathizers declare that the Winnipeg movement is admirably calculated to awake Englishmen to the "imperial peril" involved in the attempt to drive loyal Ulstermen to extremities.

Montreal, Oct. 6.—Coming from the Old Country, T. P. O'Connor, M. P., says: "It becomes more evident every day that the English Conservatives are greatly frightened by Sir Edmund Carson's open appeal for civil war and are looking eagerly for any means of escape. Their present plan is to invite a conference on the basis that the four Ulster counties should be given the option, by plebiscite, to exclude themselves from the control of the Dublin parliament."

"My impression is, that no conference is likely at the present moment, but that as the final moment approaches with the certainty of Home Rule bill passing, the Conservatives will make a further attempt on a more rational basis to settle the question."

NEW GUINEA CANNIBALS WILL PAY FOR CRIMES

Melbourne, Aus., Oct. 5.—Eight ringleaders of the cannibals who recently murdered John Henry Werne, a German-American mining engineer, while he was the head of an expedition searching for diamonds in unexplored region of New Guinea, have been arrested by a patrol, according to a dispatch received here today from Papua. The patrol, meeting resistance, shot four natives dead and wounded a number of others.

GOOD SAMARITANS FORFEIT THEIR LIVES

Cobalt, Ont., Oct. 5.—A tragedy has just come to light in the dressing at Bell river, 180 miles east of Cobalt, on the transcontinental railway, of Mrs. Matt, aged 30; Lieut. Sheppard, aged 25; and Henry Deaulieu. Deaulieu, with Joe Savard and Florence Proulx, aged 15, left Porcupine some time ago for Bell river and on the way the girl gave birth to a child. Deaulieu paddled to the home of Mrs. Matt to ask for aid and she and Sheppard responded. They found the baby dead but ministered to the girl and left next day for home. Their canoe was found on the river two days later.

MACKENZIE OFF TO ENGLAND.

Toronto, Ont., Oct. 5.—Sir William MacKenzie has left for England, and from here to Bristol he travels exclusively over railway and steamship lines of which he has the control. He rode to Ottawa over the new Toronto-Ottawa line, which has not yet been opened for passenger traffic, and thence to Quebec over the Canadian Northern Quebec, and across the Atlantic by the Royal Edward. It is thought that Western Canadian interests claim his attention in the Old Country.

ASKING FOR COMMUTATION.

Toronto, Ont., Oct. 6.—Seven hundred copies of petitions for the commutation of the death sentence on young Gibson, sentenced to be hanged on Thursday, are being circulated here and it is estimated that at least 15,000 names have already been obtained. In many churches yesterday petitions were placed for signature. Among the petitioners is Archbishop McNeill, of Toronto.

MARITIME REPRESENTATION.

Ottawa, Ont., Oct. 5.—The inter-provincial conference commencing here on the 27th inst. will discuss various matters, but the one of outstanding importance will be that of Maritime Province parliamentary representation. As a result of the last census the eastern provinces stand to lose four or five members. They will ask that the present basis of representation be permanent.

DIED AT THE THROTTLE.

Lindsay, Ont., Oct. 5.—David Murray, Canadian Northern engineer running between Toronto and Port Hope, died at the throttle yesterday while running his engine just after the train had left Best's station. His fireman saw him suddenly fall and himself ran the engine to Lindsay. Murray, who was 44 years old, had been in the best of health.

WILL RECOGNIZE REPUBLIC.

St. Petersburg, Oct. 5.—The Russian government has agreed to join with the other powers in recognizing the Chinese republic on October 10.

DON'T BAKE AT HOME

The day when it was necessary to bake your own bread is past. No more muss and fuss in the hot kitchen; no more sitting up late to attend to the carefully-watched batch; no more worry over temperature. Make

Bread your regular bread and you will find that it is quite as good as the best that even you can make. It never varies in quality, because it is made from laboratory-tested flour. It is made fresh daily in a modern, sanitary, spotless bakery. Costs just what ordinary breads cost and is much superior.

Include it in Your Grocery Order To-day, or Phone 5018

TARIFF CONUNDRUM

FOUND BY OFFICIALS

Rebate on Goods Carried in
American Vessels Means
Heavy Loss

Washington, D. C., Oct. 5.—Under advice from the state department the treasury department is about to instruct collectors of customs to assess duties against imports from Germany, Canada and Mexico and other countries not having special treaty arrangements to the contrary, at the full rates laid down in the Underwood tariff act, unless they were imported into the United States in ships of American registry, in which case they would be entitled to a differential of 5 per cent. The maximum duties will not apply to goods from Prussia, because of the continuance of the old treaty with that country, but goods from all other parts of Germany would have to pay the additional 5 per cent. Likewise, Canadian shipping on the lakes will be charged full rates for their cargoes imported into the United States, while similar goods brought across the lakes in American ships will enjoy the 5 per cent remission.

The officials are seeking an answer to the questions as to whether rates will apply to the enormous stores of goods now held in bond in New York for entry under the new tariff laws. The immediate effect of this would be the part of the government is expected to be hasty applications from the

SIR WM. MEREDITH

While Chief Justice Sir William Meredith, of the Ontario High Court, was hearing a case he was disturbed by a young man who kept moving about in the rear of the room. "Young man," called out the Chief Justice, "you are making a great deal of unnecessary noise. What are you about?"

"Your Honor," replied the young man, "I have lost my overcoat and I am trying to find it."

"Well," said the venerable Justice, "people often lose whole suits in here without making all that disturbance."

countries adversely affected for a revision of existing treaties with the United States. Russia also will be obliged to negotiate a completely new treaty to replace that denounced last year if she wishes to secure the favored treatment for her exports in Russian ships.

Officials of the treasury department are, however, at sea to know what Congress actually meant by the provision.

Literally interpreted it is declared to give a 5 per cent decrease to American ships, and automatically grant the same privilege to the ships of the many nations whose treaties with the United States guarantee no discrimination between their vessels and those of America.

This construction, which would be a horizontal reduction of 5 per cent in the tariff for importations from most of the great countries of the world, involves probably \$10,000,000 in revenue for the government, creating a deficit instead of a surplus in the treasury, as has been estimated by the tariff framers. The question undoubtedly will be referred to President Wilson and Attorney-General McReynolds, and ultimately will reach the United States supreme court.

The countries which thus will be charged the full Underwood duties in any event are Brazil, Chile, China, Dominican Republic, Ecuador, France, German Empire (except several German states), Greece, Guatemala, Hayti, Mexico, Nicaragua, Panama, Persia, Peru, Portugal, Russia, Salvador, Siam, Turkey, Uruguay and Venezuela. Also the treaty with Great Britain does not guarantee equality of treatment for vessels of her overseas dominions, such as Canada and Australia.

To the Lover of the Beautiful—To the Admirer of the Exclusive—To the Seeker of Incomparable Values

"Campbell's," the Fashion Centre of Ladies' and
Misses' Ready-to-Wear, Is the Logical
Shop to Go to

Autumn is here—the leaves of the trees are reflecting the vivid reds, yellows and browns, and there is that feeling in the air which whispers of the cooler days to come when Cloth Suits and Coats will be most welcome. A few weeks ago we were in a position to show a few advanced models; now we are displaying further shipments of the very latest ideas in

Suits, Coats, Dresses, Wraps and Gowns for Afternoon and Evening Wear

We know full well that the most profligate and glittering advertisement in the world cannot command confidence unless that which is advertised is backed up by the garments shown in the store—garments that must be faultless in style, perfect in tailoring, and above all, represent INCOMPARABLE VALUES—such are the garments you find at "Campbell's."

Unusual Range of Prices

Suits from \$15.50 to \$125. Afternoon Dresses from \$7.50.
Evening Gowns from \$16.50 Coats from \$9.50 to \$90.
to \$225. Evening Coats from \$20 to \$175.

Exclusive Importations of Beaded Coat Effects and Tunics
For Evening Gowns

Glorious things in all black, all white, lovely shades of
green, blue, also black and white, old rose and maize.

THE COST OF EXCLUSIVENESS

In buying a gown, a suit, a coat or a waist, as in buying jewelry or furniture, the cost of EXCLUSIVENESS is discrimination, thought, taste. EXCLUSIVENESS does not necessarily add to the money cost of a garment. "Campbell's" garments are selected individually and carefully—the commonplace is barred. This is equally true of our lowest priced garments as of our highest.

FREE CIVIC SPIRIT PLEASES STATESMAN

Rt. Hon. H. L. Samuel Impressed With
the People and the Cities
of the West.

Toronto, Ont., Oct. 5.—Rt. Hon. Herbert L. Samuel, postmaster-general of Great Britain, addressed the Canadian Club on Saturday, dealing with questions of Imperial and Colonial relationship.

Speaking after a trip through the West, he had been impressed, he said, with the vast expanse of prairies and coast province and the inflow of population, but most of all with the great developments in the last three or four years in the cities of Winnipeg, Regina, Calgary, Edmonton, Saskatoon, Vancouver and Victoria, which had reached a far higher stage of civic life than was suspected in England.

This was not merely in material things, but in free and vigorous civic spirit of the people and in their interest in schools and the new universities, the beauty of their sites, the dignity of their public buildings and charm of their parks.

He could not make such a generalization as to say that on the whole Canada was less commercialized than American civilization south of the boundary line, but if it were true, in essence, then that was a precious distinction. "Cherish it always," he advised.

TORONTO RINK DESTROYED.

Toronto, Ont., Oct. 5.—Damage amounting to \$36,000 was caused by fire to the old Granite Rink, in Church street, occupied by the Gibson Electric Company. A big gasoline tank underneath the sidewalk escaped the fire.

PRETTY PARLOR FURNITURE

Our stock of pretty Parlor Furniture is most complete, including many handsome pieces fit for any parlor. EXPENDITURE GROWS FASTER THAN INCOME

Dominion Outlay in Six Months
Shows Three Times Increase
of Revenue.

Ottawa, Oct. 5.—The financial statement of the Dominion for the first half of the fiscal year, as shown by the returns furnished to the finance department up to the end of September, shows that the expenditure on consolidated fund account, representing the ordinary cost of administration, totalled \$48,697,691, an increase of \$4,765,552 over the first half of the last fiscal year. The capital expenditure for the six months

was \$24,187,853, an increase of \$12,465,870. The total expenditure increase was \$17,231,422.

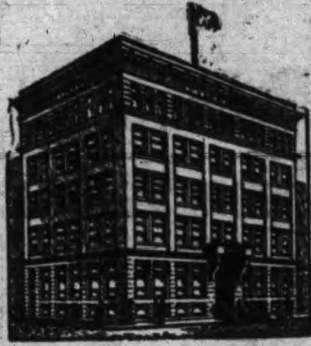

Revenue for the half year totalled \$58,777,716, an increase of \$5,099,045. Customs revenue increased by \$1,399,481, excise by \$552,612, and post office by \$990,090. The total custom revenue for the past month is given at \$9,678,181. The net public debt at the end of September was \$229,587,276, a decrease of \$2169,429 during the month.

WILL OPEN ON TIME.

San Francisco, Cal., Oct. 5.—President Charles C. Moore has emphasized his former statement that the Panama-Pacific Exposition will be opened on time, February 20, 1915.

MR. BREWSTER'S "OMISSION"

The Provincial Liberal leader is criticized because he omitted to applaud the McBride administration for the prosperity which has prevailed in British Columbia in the last decade, a prosperity in which, it is alleged, he and his political friends had no share. Mr. Brewster had abundant justification for the omission in the simple fact that the contention of his critics is not true. If it be true that the administration was the source of the bounteous blessings this province has enjoyed during its regime, it must be equally true that to the same source we can attribute the undesirable condition which now exists. Our friends cannot have it both ways.

To what, then, does British Columbia owe the prosperity which has existed here? To nothing more nor less than the wonderful development of the Northwest, in which, we may say, Sir Richard and his friends, either here or at Ottawa, had no share. When the government of Sir Wilfrid Laurier took office in 1896, the vast domain from the international boundary line to a point a hundred miles north of Edmonton and from the boundary of Manitoba to the Rocky Mountains, was locked up in railway reserves. The population of the whole area—including Manitoba—did not exceed 200,000. Less than four thousand settlers a year were taking up the land that was available. In what is now Saskatchewan and Alberta, there was practically no settlement at all, because until the railways had selected the 35,000,000 acres of land given to them by the Conservative party, colonization could not be carried on. The railway companies did not desire to choose their acreage, for the excellent reason, to them, that it would hasten the time when they would have to pay taxes on it, and the federal administration of that day was so thoroughly dominated by the railways that it did not dare to insist upon them doing so.

The Laurier government, however, caused this selection to be made and then adopted that policy of organized development—the campaigns of advertisement and immigration, special excursions, the encouragement of home-steading—which in a few years made Canada the cynosure of the eyes of the world. The effect of that policy began to be felt all over the Dominion. In 1901 the population of the prairie provinces had almost doubled, although it was not until 1903 that Saskatchewan and Alberta began substantially to forge ahead. It is unnecessary to recite the wonderful expansion of those provinces in the last twelve years, an expansion unparalleled, perhaps, in the history of the world. In that period the population of the two provinces alone has increased from less than two hundred thousand to approximately a million. Calgary, Edmonton and a score of other places have grown from settlements to large cities. The older parts of Canada took up the refrain. Their factories were troubled in capacity to supply the thousands of newcomers with their products. Then, also, came the stimulus to British Columbia's development. The Northwest became our inexhaustible market. The immigration attracted to Canada by the opening of the prairie provinces spread across the Rockies. A glance at the statistics available at the bureau of provincial information, which we commend to Mr. Brewster's critics, shows that our industrial progress is due to the opening up of this new Canada by the policy of the Liberal administration at Ottawa in which, to paraphrase a contemporary's observation—Sir Richard's political friends had no share.

Not with that object lesson of land

colonization and its blessings before it, our own government continued blithely in the application of those methods which, as directed from Ottawa before 1896, had retarded the development of the Northwest. The policy of that day was land for the speculator, Bourbon-like, the Tory administration of British Columbia pursued the same course. Instead of adopting the policy so marvelously successful in Saskatchewan and Alberta, our authorities parcelled out our fertile areas among favorites. They did not want settlers. They ignored the representations of boards of trade and spurned the counsels of candid friends, with the result that to-day, although in our sister provinces the agricultural industry is their backbone, we have practically none at all and a commission is running around the world in the serio-comic attempt to learn the reason of it. Our taxation has increased under this policy to unbearable proportions—including the taxation collected by the customs on the millions of dollars in foodstuffs we have to import because our productive lands have been alienated to speculators. And the government organ in this city fatuously declares its friends have reduced taxation!

It has never been charged by the Liberals that the administration has not carried out good measures. Many of them are due to the counsels of the opposition, whose suggestions the government promptly adopted. The Forestry Bill is a case in point. But they do charge that the government has become the creature of a corrupt machine and grasping private interests, to the injury of the people as a whole. It has become autocratic and contemptuously indifferent to the needs of the many. It has stifled independence and manhood within its own ranks, and none are more dissatisfied with its methods than some of its own supporters. It has outlived its usefulness. It is time for a change.

SPORT, OR WHAT?

The most astonishing thing to our eyes in these latter days is the amount of space newspapers, even the most staid and conservative of newspapers, are giving to this game called golf. And, mind you, the subject is not left entirely in the feeble hands of the sporting editors. It occupies a great deal of the limited space in the editorial page. One of our biggest contemporaries comments upon the fact that there are links (or should we say is a links?) in the neighborhood of the Appian Way, and speculates upon the terrible loss which sustained in living "so soon." If he had only had the good fortune to be a golf player how much more philosophical his philosophies might have been. The next thing probably will be the elevation of this golf into a ritual, with clerics and brasses and drivers and bunkers and foolies and slices constituting essential parts of the ceremonial, and of course "holing out," with caddies acting as acolytes, forming the grand finale. Some one has whispered that there are golfers in Victoria already suitably arrayed for such impressive ceremonial. Furthermore, such a development or culmination would assuredly remove an objection sometimes raised against Sunday golf. At present we are told the members of the Victoria club religiously observe the provisions of the Lord's Day Act. How could it be otherwise with the Attorney-General, who holds the act in the hollow of his hand and squeezes or loosens as the spirit moves him—how, we say, could it be otherwise when the Attorney-General is a most active competitor on the links day in and day out, with the undoubted exception of one day in the seven, against a champion whom it is the cherished ambition of all real golfers to overcome at least once, to-wit: Col. Bogey.

VERY EMBARRASSING.

Strange things come to pass in this vale of tears and party politics. Here is one William McLean, M. P., who claims that his revered sire was the father of the National Policy, plying his little axe vigorously to one of the roots of that very policy which Mr. McLean often has claimed produced all the fruit. Canadians have plucked for the past quarter of a century. The passage of the Underwood Bill is at the bottom of Billy's vigorous outburst. In the Toronto World, of which he is editor and proprietor, Mr. McLean tells the government, of which he is a steadfast supporter when there is any real necessity for his support and a wobbler when he considers it is discreet to display symptoms of independence, that the Canadian duty on wheat must be removed because its removal will give Canadian farmers free access to the markets of the United States. The World argues that the American market will be beneficial to our wheat-growers in various ways. It will not only secure them higher prices for their grain—it will assure them lower freight rates, and consequently the benefits will be cumulative. That is a remarkable admission when we consider that the Tory press generally from the Pacific to the Atlantic has been pointing out that the prices for wheat in Canada have been either higher or equal to prices in the United

States. The movement in the direction of striking the shackles from trade appears to have knocked the feet from under the high protectionists already, although it has only begun to toddle itself. If the effect is as noted upon such a stalwart protectionist advocate as the Toronto World, what will the effect be upon such a notoriously vacillating individual as Premier Borden? The organs of the honorable gentleman have been authorized upon several occasions to announce that parliament would meet in November, with contradictions shortly following that the meeting would not take place till January. The latest intimation is that the estimates are being rushed through against a meeting early in November. The spectacle of one section of his supporters calling for freer trade, with another section (the Canadian Manufacturers' Association) clamoring for higher protection, will, we predict, upset the Premier so completely that he will shortly announce his intention not to face the members until January.

FAT MEN, BEWARE!

The New York Central Railway Company is suing August Fitzner, weight 350 pounds, for the price of a double fare from New York to New Orleans. The company alleges that Fitzner, on account of his huge size, occupied the whole seat of a Pullman car when his ticket only entitled him to half a seat. Fitzner will also have to face a charge of assault for striking the conductor who tried to make him pay the other half.

This case, although before a court in Louisiana, is of the utmost importance to fat men the world over. If the railway company wins it will be the thin edge of the wedge insidiously inserted into the liberties for which fat men have puffed, bled and died. Other transportation companies will readjust their rates for those to whom nature has been generous to the point of recklessness and luckless heavyweights will be penalized for their size. They will have to pay on the basis of measurement and avoid a four-cent per mile rate, while thin people will get off with the regulation two cents per mile.

What right has the New York Central to exact from Fitzner a double fare? He apparently purchased a Pullman ticket for the journey from New York to New Orleans, and no doubt paid the regular rate. The company having sold the purchaser a berth to sleep in at night, he is entitled to that space when the berth is converted into a seat in the day time. The company's demand, on the face of it, seems a species of innocent tyranny, and when Fitzner resented it with a blow in the conductor's face he struck for fair play and equal rights as between the fat and the lean.

Fat people should line up behind the gallant Fitzner to a pound. If they would not be discriminated against they must pray that the company lose. If a precedent of this kind is allowed to pass, it will not be long before they will suffer from unequal usage in all walks of life. They should remember that their traditions are as lofty as those of their lean brothers. There were fat men among the Barons who wrenched Magna Charta from King John (who, by the way, was a lean man.) Fat men played heroic roles in exacting from King Charles further charters of human liberties. It is true that in active pursuits they have not been conspicuous, but they have lent weight, substance and impressiveness to every enterprise. They are not to be despised and downtrodden—not by a long shot. They will fight for fair play to the last gasp. Fat men, stand together!

MR. PRICE'S RECOMMENDATIONS.

Mr. Samuel Price, K. C., has submitted his report to the Minister of Labor on the Vancouver Island coal strike. He makes four recommendations, the first of which is that an unequivocal definition of strike and lock-out be incorporated in the Industrial Disputes Act so as to cover a holiday walk-out by the men and evasions of a lock-out by the companies. He also recommends that collective agreements be given the protection of law; that discrimination against union men by employers be prohibited, and that intimidation, abuse or insult, with a view to influencing the actions of any person in connection with a strike or dispute, be made unlawful.

With regard to the first, the employers and employees will object that its adoption would interfere with their natural rights, that of the one party to dismiss whom it saw fit to do so and that of the other, in like circumstances, to quit work. But there can be no doubt that the spirit of the Industrial Disputes Act is being frequently violated by both employers and employees in that lock-outs and strikes under names not now specially covered by the act take place. It is a pity it is necessary to recommend that collective agreements be given the protection of law, because it implies that either of the two parties to a possible dispute cannot be depended upon to observe the provisions of a contract or treaty. Unfortunately, circumstances on this island and elsewhere have shown the necessity for some measures to prevent disputes

OUR COAL

Is not just Wellington Coal, but the genuine

Jingle Pot Wellington Coal

The fuel which is conceded to be the best house coal mined on the Island. Place your order before the rush.

Kirk & Co.

Phones 212 and 139
618 Yates St. Esquimalt Road

from regarding an agreement as so much waste paper. They have also shown the necessity for the third recommendation, that discrimination against union men be declared unlawful. The fourth recommendation seems to be already covered by the criminal code; in fact, some of the provisions now in process indicate that the existing law as interpreted in certain quarters is as Draconian as the edicts of the Czar.

But Mr. Price's recommendations having received due publicity, the Minister of Labor will now consider the incident as closed. Strikes and labor disputes in this country are not settled by making reports. We maintain a Minister and a Department of Labor at an expense of about a quarter of a million dollars a year for the purpose of dealing with situations of this kind. Mr. Price is not a member of that department. He is a law partner of the Minister in St. Thomas, Ontario. Why on earth he was commissioned to make this report only Providence and the Minister know, unless the opportunity to give him a big fee was too urgent to be overlooked. And, viewing his work in the most favorable light, it merely provides for future emergencies. It in no way affects the present imbroglio.

The truth is that Mr. Crothers, notwithstanding what solid qualities he may have, is not the man for his post. He was never intended for the portfolio in the first place. He simply dropped into it in the scramble which followed the dislocation of the original cabinet slate. He came to this island, remained a few days, and opened negotiations in a manner which showed how poorly equipped he was for dealing with a situation which required tact and a knowledge of industrial conditions. And then he ran away—ran six thousand miles to study labor conditions in Britain, while the blaze on Vancouver Island grew into a conflagration which required the services of a thousand soldiers. His predecessor, Mackenzie King, faced a similar situation in 1903, not only on this island but in the Crow's Nest Pass, and succeeded in bringing about a settlement in a comparatively short time. He did not find it necessary to import an outsider with whom he was in partnership to make a report for future reference. He did what the country expected him to do—he settled the strikes.

An article in a contemporary under the caption "Rising Men of the Unionist party" describes how the Tories at Westminster are literally groaning under the weight of material in the shape of able men. In fact, the writer comments on the difficulty the next Unionist Prime Minister will have in forming a cabinet owing to his embarrassment of riches. One wonders how in these circumstances the party came to select Bonar Law to lead it when its ablest and most distinguished figure, the Right Hon. A. J. Balfour, retired. If Law was the best available the rank and file must be distressingly mediocre, because the present leader is one of the worst the party ever had. His incompetency is admitted by his own party by calling in Mr. Balfour every time a difficult political situation arises.

In the foolish old days when the N. P. was in flower many a windy advocate of protection argued and proved to his own satisfaction and the confusion of some not very clear thinkers that the exporter paid the duty. That is one fallacy which experience has completely exploded. No one in Victoria with his monthly bills before him has any doubt as to who pays the duty—with a not inconsiderable amount thrown in for good or bad measure to the vendor of the dutiable article.

WINNIPEG WATER SUPPLY.
Winnipeg, Man., Oct. 6.—With Engineer S. H. Reynolds, of Victoria, B. C., in the greater Winnipeg waterways undertaking will be associated J. H. Puertes, of New York, one of the experts who reported favorably on the possibility of going to Shoal Lake for a supply. Mr. Puertes was appointed consulting engineer, and W. G. Chase, of the firm of Smith, Kerry & Chase, as chief engineer. The Bank of Montreal will be financial agents of the administration board.

A Large Shipment of Women's Bedroom and Fireside Slippers

Just Opened Up

OUR new season's stock of warm, comfortable and cosy Slippers for women has just been opened up. They are now to be seen in the department on first floor and your inspection is invited. So many are the different styles, qualities and colors, that it's practically impossible for us in an advertisement to convey to your mind the remarkable values these goods represent. We give a few brief particulars.

Quilted Satin Bedroom Slippers with felt soles, well made in a smart style, and come in colors black, brown, pale blue and scarlet. Per pair \$1.00

Warm, Comfortable Coats for Fall and Winter Wear

The very latest styles in Women's Winter Coats are now being shown in the View Street windows. They are certainly the most comfortable and serviceable styles for cold weather needs. They come in the season's new and leading materials, and are to be had in the three-quarter and seven-eighths lengths with cutaway fronts, and most have the convertible collar that can be worn buttoned close to the neck or open as desired. Some models show collars and cuffs with trimmings of fur plush or fancy velvet, while others are entirely without trimmings, this being possible on account of the unusually handsome materials used. All styles and sizes are to be had, and from such a large assortment it should be an easy matter for you to select a garment that will suit you and give you every satisfaction. Prices in this range are from \$25.00 to \$65.00.

Smart Millinery at Popular Prices

NO matter what your position in life may be, you will be able to find a hat that will please you in the assortment that is to be seen in the Millinery Department on first floor. Our buyers are constantly visiting the fashion centres in order to get in touch with all the fashion tendencies, and our stock includes copies of some of the best models produced by Parisian, London and other European artists. If you wish to trim your hat we can supply you with shapes, flowers, ribbons, feathers, ornaments and all other necessary materials at a moderate price consistent with a fine quality.

We aim to please you and try to give you the most distinctive millinery without going to the price extremes that are so prevalent at the opening of the season.

Men's English Overcoats

WE are now showing a splendid line of Men's English Overcoats. They come in heavy chinchillas, Harris tweeds and English and Scotch tweeds, beautifully made up in raglan and plain shoulder styles; others in double-breasted style with two-way collars, and still others with Russian collars. These coats are half lined and the sleeves fully lined with heavy satin. Smart, comfortable coats that will give good service. The prices range from \$25.00 to \$50.00.

Men's Hipponette Coats

A special line of Men's Hipponette Coats in best English make. These coats are especially adapted for street wear, being light and comfortable, half lined and shower proof. You have your choice from the raglan or plain shoulder styles at prices \$10.00, \$12.50 and \$15.00

Boy's Overcoats

Are to be had in the full length with plain and others with two-way collars and belted backs. They are well tailored coats in heavy tweeds, meltons and chevots, and there's a large range of new shapes and patterns to choose from. The prices range from \$5.75 to \$7.50

Small Boys' and Children's Overcoats in Russian style, full length, and in heavy tweeds, with deep cuffs on sleeves. All sizes from 2 to 8 years, at prices ranging from \$4.75 to \$6.75

Telephone 525 or call at Victoria School Board Office for prospectus and registration card.

October 3, 1913.

Sol Duc Hot Springs Hotel

In the Heart of the Olympics Will close on November 1 for the winter season, to re-open again May 15, 1914.

TWENTY-FIVE YEARS AGO TO-DAY

Victoria Times, October 6, 1888.

At the annual meeting of the Agricultural Society, held last evening, W. H. Ladner was elected president by 38 votes to 29 for T. Cunningham. J. T. McIlroy was elected first vice-president, T. Cunningham second vice-president, D. Robinson secretary, and J. S. Clute treasurer. New Westminster was selected as the scene of the next exhibition by 40 votes to 16 for Vancouver.

Mr. John L. Beckwith, of this city, was married a couple of weeks ago to Miss Agnes S. McLeod, a Nova Scotian. The marriage took place in that province and they will arrive here shortly to take up their residence.

Capt. Irving to-day received a cablegram from the captain of the new steamer Islander, which arrived yesterday at St. Vincent, Cape Verde Islands, and will reach here about December 1.

Superintendent Roycroft has presented a number of Indian curios to the provincial museum. He made the collection during his recent visit to the west coast.

Ex-Mayor Fell, at a seance recently held in this city, conversed with the late Henry Ward Beecher and Archbishop Hughes.

Phoenix Beer, \$1.50 per doz. qts.

Prof. E. Claudio's Orchestra will give a sacred concert at the Victoria Theatre every Sunday evening at 8.45 o'clock, commencing October 12, 1913. Admission free.

Herald Street Crossing—Further evidence of the obstruction of the crossing on the Victoria and Sidney railway from Herald street to North Park street was brought to the attention of the Mayor to-day. This is the crossing which he has already brought to the attention of the city council.

Building Permits—Building permits have been issued to C. McLean for a house at 2444 Broadway street costing \$2,000; to A. W. Henderson for a house at 2328 Trent street, costing \$3,600; A. Smith for a house at 341 Richmond avenue costing \$3,500; and to R. C. Smith for alterations to a Government Street store, costing \$1,200, work to be carried out by Williams, Terlie & Williams.

Died From Rifle Wound—The numerous friends of Dr. J. K. Barrett, district inspector of inland revenue, Winnipeg, will regret to learn of the death of his son, a promising young engineer employed in the construction of the Grand Trunk Pacific in this province. Mr. Barrett accidentally received a rifle wound while out hunting near a place called Stella on October 1. He was 21 years of age.

Alleged Obstruction—In the police court this morning a case was commenced against George Martin, on the information of Officer Thomas Elliott. It is alleged that he obstructed the constable in the arrest on October 1 of Thomas Holt, on Quadra street. In order to secure the attendance of another witness for the prosecution the hearing was adjourned till to-morrow morning.

Begged From Officer—William O'Leary, a journeyman painter, who appeared in police court this morning must regret the procedure which puts detectives in plain clothes instead of some distinctive uniform. He arrived in town on Saturday with a few cents, after expending hard-earned wages in Nanaimo in a vain search for work, and having spent his money asked a detective for a night's board. He will be housed at Topaz avenue for one month.

Classes Well Attended—The total membership of the winter classes at the Y. M. C. A. now numbers 76, the largest of the classes being an usual that in arithmetic, which has a membership of 19. Ten students have entered the commercial class in bookkeeping, and quite a number of these are taking the complete commercial course, which means an attendance four times weekly. The foreigner class contains one Russian, one Italian, two Greeks, one Swede and one German. The business men's gymnasium class is about the same size as last year and very enthusiastic. Mr. Beall has a very successful leaders corps of about ten men, who are studying as assistants in gymnasium class leadership.

Asks for Comments—A circular just issued by R. M. Winslow, secretary of the British Columbia Fruit Growers' Association, to the members, says in part: "The shipping season being about concluded, I am instructed by Mr. W. Ricardo, president of this association and chairman of the Transportation Committee, to request all members of the association to lay before the Transportation Committee any grievance or comments they have on transportation matters relating to shipment of fruits and vegetables. It is expected that a meeting of the Transportation Committee will be held early in November to consider the cases presented by you. An immediate reply is therefore advisable in order that, if necessary, the secretary may get further information from you or from others in substantiation of your case. It is the aim of the committee to present nothing to the railway company but what will stand the test of criticism and investigation. It is by observing this rule and investigating carefully all the cases presented to it that this association has been able to secure for you the recent reductions in both freight and express tariffs, which have this year saved the growers an amount estimated at over \$20,000."

Address at Y. M. C. A.—Rev. Dr. Scott spoke yesterday afternoon to a large gathering of Y. M. C. A. men on "What I think of the Bible," the talk being listened to with great interest. Prof. Claudio's orchestra was present and gave an excellent programme of music. A. E. Kochaly, who is staying at the Y. M. C. A. during his visit in the city, spoke last evening at a supper, dealing principally with the opportunities Y. M. C. A. work in his native land, Persia.

Rev. Mr. Hedley, of Nanaimo, to Conduct Meetings at Centennial Church; Large Congregations Present.

A series of revival services, which are to continue throughout the present week and every evening next week saving Saturday, commenced yesterday at the Centennial Methodist Church under the direction of Rev. Mr. Hedley, pastor of Haliburton street Methodist church, Nanaimo, and Rev. Mr. Green, of the Centennial Methodist Church. Large congregations were present at all yesterday's services, and an invitation was extended to residents from any part of the city to attend the meetings to be held every evening, except Saturday, at 7.45, at the same place.

The subject of Mr. Hedley's morning address was "Preparing the Way of the Lord," and of his evening address "The Cure of Doubt and Unbelief." The latter was preceded, as all the services will be, by a song service, Messrs. Sedgeman and Bryant furnishing the solos. After the services in the evening a very successful after-service was held, which took the form of an altar service for members of the church.

The spirit of the meetings was very encouraging to the organizers, the fact being due in part to the fact that during the month of September fifty cottage prayer meetings were held, at which more than a thousand people were present in all.

DOES THE SHOE PINCH?

Used to say—if the shoe pinches, wear it.

Now wise people say—read the advertising in live newspapers like THIS TIMES and see where you can get a better shoe.

There's individuality about shoes. What's comfort to one man is torture to another.

Perhaps the shoes you have been seeking are described in to-day's advertising in the newspaper.

If not to-day—they will be to-morrow.

No sense in making your feet unhappy when some merchant in this town has just dropped a shoe you are looking for.

Read up on shoe lore and patronize the merchant who appeals to your needs.

First?

What has become of the worries of Noah?

What has become of the woes of Job?

What has become of the trials sore hid underneath King Solomon's robe?

Where are the cares of Charles the First?

Where the tears that Niobe shed? Where are the troubles of parching thirst?

Tantalus bore in the ages dead?

Where are the griefs of the long dead yams—Priam's, Ulysses', and Jonah's and all?

Lost in the streams of forgotten tears, Dead, gone, and buried beyond recall!

Gone, O ye Sufferers! Gone for aye, Just as your troubles will fade away!

Peace is eternal, but trial and fear Pass to the vales of the yesteryear!

MEETINGS

Friendly Help—The Friendly Help Society is to meet to-morrow at 11 a. m. at the rooms, Market building.

Ladies of Macabees—Baxter Hive, No. 8, Ladies of the Macabees will hold their review at the A. O. U. W. hall to-morrow evening.

Letter From Lord Roberts—No. 24 Company Imperial Veterans will hold a meeting in the city hall this evening at 8. An interesting letter from Field Marshall Earl Roberts will be read. All ex-soldiers in the city are invited.

To Form Division—A special meeting of the Victoria branch of the Canadian Society of Civil Engineers is to be held to-night at 8 in the Broughton street rooms, when the chairman's report of the Montreal conference will be given and immediate action proposed looking to the formation of a provincial division for British Columbia.

Ball For Orphans—Colonel Currie and the officers of the Fifth Regiment have kindly granted the services of the regiment band for the Protestant Orphanage ball to be held on October 24 at the Alexandra Club, and the supper extras will be provided by Miss Thain. Preparations are well under way, and the function will be made as enjoyable as possible. The following business houses have tickets for sale: Shortt, Hill & Duncan, W. H. Wilkerson, the Williams Drug Store, T. N. Hibben & Co., and Fitzpatrick & O'Connell.

Genuine Imported Humber—Bavaria's finest 10c per glass "at The Kaiserhof."

President Delayed—President J. J. Shallcross of the Victoria Board of Trade, will not be back in time for the quarterly meeting of the Board of Trade this week, as had been anticipated, as he is further delayed in England, according to a cable received to-day.

Open the Season—Tel El Mahuto Temple, No. 185, Dramatic Order Knights of Khorrassan, will hold their fall opening ceremonial this evening at 8 in the Knights of Pythias hall, North Park street. All votaries of the order and visiting brethren are invited to attend. A large number of candidates has been secured. This combined with the work of the various committees promises to make this ceremonial unusually interesting. Fees: \$5.00. Delegates are to be present from Seattle and Vancouver temples.

WE ADD THE STEINWAY TO OUR STOCK

It is an unusual pleasure to us to be able to announce that we have been appointed sole agents on Vancouver Island for the world-famous

Steinway Pianos

In a few days we shall have on display in our showrooms the first shipment of Grands and Uprights.

Thus, we shall now be in a position to offer to the discriminating music-lovers of Vancouver Island one of the most renowned pianos of the world. Steinway tone is recognized as superb around the globe, and there is no limit to the possibilities of Steinway case architecture. The tone and the general excellence of the Steinway have built its reputation.

You who contemplate the purchase of a piano are warmly invited to visit our showrooms late this week and hear and see the splendid new Steinways that will be displayed there.

WOOD CHIP CAUSES SPOKANE ACCIDENT

Steamer Did Not Run Ashore, Open Sea Cock Responsible for Near Disaster

INRUSH OF WATER GIVES VESSEL ENORMOUS LIST

Engineers Worked in Water Up to Arm-Pits; Ship Was Undamaged

Seattle, Oct. 6.—Hard work of Chief Engineer J. Dumett and his assistants in the engine room of the steamship Spokane, of the Pacific Coast Steamship Company, probably saved the vessel from turning turtle from the inrush of water into the hold Friday night in the Gulf of Georgia when a chip of wood caught and held open the seacock.

The Spokane did not run aground at Cape Lazo, Vancouver Island, as was reported. She was fully a mile from shore when the engineer sent word to the bridge that there was trouble in the engine room, six miles south of Cape Mudge and two miles south of Oyster Bay.

The steamship was stopped for the purpose of plugging the tubes in the main condenser, as salt water was pouring into the boilers, and it was not until 10 o'clock when the boat took a violent list to port, that a distress signal was sent out.

Capt. White's Own Story.

"The passengers had finished dinner, and we had passed through Seymour Narrows on a fine, clear night, with a fresh north-west wind, when a leak was discovered in the condenser," said Capt. G. H. White, master of the Spokane. "At 7:30 p. m., we stopped, so that the engineer could make repairs. The ship was beginning to list at 9 o'clock, and at 10 o'clock she had taken a violent list, and the engine room reported that water was coming in through the main discharge.

"A boat was ordered lowered, and an effort was made to get a strip of canvas over the port discharge. This was unsuccessful, and the boat was listing at a dangerous angle. It was then that I ordered the lifeboats to be lowered as a precaution."

Up to Arm-Pits in Water.

In an effort to determine the cause of the trouble the condenser head had been taken off, and when the boat listed and the water entered the engine and fire rooms, the men below made a heroic effort to get the condenser head back in its place. With water up to their arm-pits, the men worked on the tilted floor of the engine room, and at 11 o'clock the cylinder heads were set.

The crew, which had remained on board, were put to work at the pumps, and at 3:30 a. m. Saturday morning the boat was on an even keel.

Four life boats and three life rafts were lowered on the port side at the command from the bridge at 10:30 p. m. It was impossible to get the starboard boats off an account of the list to port. Passengers who arrived here say that a number of Italian firemen jumped into the first life boat. One woman, frightened, jumped overboard from the deck, but was rescued.

Passengers Were on Deck.

The passengers had not gone to their berths after the Spokane stopped her engines, and all were dressed when the lifeboats were put overboard. Two of the boats proceeded to the Latoche, which was standing by a mile away, and two others went ashore at Vancouver Island, mistaking, some say, the lights of the Latoche for a light-house. Passengers on shore built a fire and stayed until morning.

DUMFRIESSHIRE MAY RETURN TO VICTORIA

Capt. Furneaux Writes His Barque May Come to Coast for Lumber

It is quite likely that the big British four-masted barque Dumfriesshire, Capt. Furneaux, will find her way to this coast to load another lumber cargo. This morning W. Beck, of E. B. Marvin & Co., was in receipt of a letter from the well known master of the famous vessel, in which he told of his outward passage from the Royal Roads to Delagoa Bay, South Africa, and also of his future plans. Although bearing in mind the facts that most of the running gear was destroyed while the barque was at the Fraser River mills loading and that his ship grounded in the mouth of the river when towing out, Capt. Furneaux says that there are lots of worse places in the world than the Fraser, and tells Mr. Beck not to be surprised if news is received here that he is on his way to this coast for another cargo of British Columbia fir.

EXPECT VERY HEAVY MOVEMENT OF CEREAL

Portland, Ore., Oct. 6.—Space has been secured on the British steamship Border Knight by Mitsui & Co. for the shipment of 3,000 tons of wheat and 25,000 barrels of flour from Portland to Yokohama, Kobe and Dalm. The vessel is under charter to the Pacific Export Lumber Company, which will fill out her cargo with fir.

Shippers say there will be an unusually heavy movement of grain and flour from Portland to the Far East during the next two or three months in addition to the regular trans-Pacific

THE LAKE STEAMER HURONIC

The recent report that the magnificent lake steamer Huronic had sunk with 200 passengers, inspired largely by the fact that the wireless connections had been broken, happily proved to be without foundation. She safely sailed into

freighters operated by the Royal Mail and Hamburg-American, there will be five Japanese steamers leaving with cereal cargoes. One of the first of these to put in an appearance will be the Hudson Maru, under charter to Balfour Guthrie & Co. She is expected to arrive October 15. Coming to Mitsui & Co. the Senju Maru will reach here about November 1. She sailed from Moll via Muroran for San Francisco September 23. From the Bay city she will proceed to Portland. She will clear with a full cargo of wheat and flour.

Toward the middle of this month the British steamship Monadnock will arrive to load grain, flour and lumber for Yokohama, Kobe and Hongkong. She has been engaged by Waterhouse & Co. to make a trip to the Orient in the Royal Mail service. She left Guayaquil for the north September 23.

The Hamburg-American steamship Uckermark is a few days behind her schedule, but she will be looked for next week. This will be her first trip to Portland.

Isabel Brown Leaves.

Early this morning the Russian barque Isabel Browne, Capt. Erickson, weighed anchor in the Royal Roads and in tow of the tug Lorne proceeded to Vancouver, where she will take on a lumber cargo for South Africa.

Volcanic Ash Covers Ship.

Seattle, Oct. 6.—Reporting that ashes from the volcanic peaks in the Aleutian range covered the rigging and decks of the ship with a ghostlike touch, whitened the ground of the Alaska Peninsula and left a smoky pall over the waters during the summer, the brigantine Harriet G. Captain J. A. McInnes, reached port yesterday. That the mountains in the Aleutian range have belched ashes all summer, with Mount Katmai incessantly sending forth volcanic cinders is the report of the master and crew.

"During the summer we were anchored in Port Heiden, on the peninsula, some 200 miles from Unimak," said Captain McInnes last night, "and the grass on shore was covered with a mantle of ash and the sky was always cloudy from the smoke belched forth from the peaks. Although Unimak Island is usually garbed with perpetual snow, we were surprised on the way down to find the snow black with ashes. On September 18, it appeared by our glasses, which we levelled on the island, that the snow was covered by about three feet of ash."

"For forty miles down the coast the sky was overhung with smoke from the belching peaks."

Uckermark Passes Up.

The Hamburg-American liner Uckermark, which left Liverpool September 27, reached Quebec Saturday morning and Montreal yesterday morning. Victoria passengers are due here October 9.

BROWN HIGH LINER OF WHALING FLEET IN 'FRISCO SERVICE

President May Help Relieve Pressure of Business Out of Victoria

Steamer Which Hunted Out of Sechart Got 121 Mammals

Honors this year for high boat among the whaling fleet, operated in British Columbia waters by the Canadian North Pacific Fisheries, Ltd., go to the Brown, which has just returned to port from the Sechart station. During the season the whaler harpooned no less than 121 mammals, which totals well above the individual catches of the nine other steamers which were out this year. The Brown also compared favorably with the high boats of former years.

The Sechart station, which is expected to have the highest catch of the year, has closed down and both the whalers St. Lawrence and Brown have returned to port, berthing at Point Ellice. With the arrival of these two craft six of the whalers are now moored at the winter quarters leaving but four to steam home, two from Rose Harbor. After the first of October there are few whales flitting about in the vicinity of Sechart and the steamers have been called home. Kyuquot, however, is able to hold out longer, but both the whalers will be heading for Victoria within a week or so. A fine spell of weather off Rose Harbor is helping the whalers there to swell their catches.

As soon as her work of tending to the needs of the four stations is over it is understood that the steamer Gray, Capt. Shadforth, will make several trips south to San Pedro with fertilizer. During the past two years the Gray has taken three cargoes of fertilizer from the different stations to the California port. There is quite a demand in the South for this product of the whale, which is used in the fruit-groves. The fertilizer is

President May Help Relieve Pressure of Business Out of Victoria

Although no official announcement has been made, it is understood that as soon as the new Pacific Coast liner Congress enters the California-Puget Sound service the steamship President, which at present operates out of Seattle, will call at Victoria on her northbound and southbound trips, taking the place of the old City of Puebla. The Congress has been posted to sail from Seattle on October 25 on her first southbound trip replacing the President, which will at once be given an extensive overhaul. After cleaning she will return to the Puget Sound service, making calls at this port.

For some time British Columbians, and especially Victorians, have been agitating for better transportation facilities between here and the Golden Gate. The Umattila and City of Puebla, which maintain a weekly service at present, are old ships. As soon as the Congress arrived it was expected that some relief would be forthcoming. It is almost certain now that the President will come here, which will greatly relieve matters. Victoria contributes a great many passengers to the lists of all the steamships. On each southbound voyage about 50 passengers embark at this port and the northbound ships nearly always bring a similar number.

Called Here Once.

About three years ago both the President and the Governor called here on their northbound trips and Victoria was given a good service. Owing to the great rush of passengers from Seattle to the Golden Gate the Pacific Coast officials cancelled their stops at this port and the Umattila and Puebla were left to maintain the service. Since that time the travel in connection with this port has increased materially.

The President has accommodation for nearly double the number of passengers carried by the Puebla and this will greatly assist the local agents in taking care of all the people who apply for passage to 'Frisco. During the winter season when the great rush of people to the south is on, many applications for tickets in the past have been refused transportation through the fact that the ships were unable to accommodate them. The appearance of the President in the Victoria-'Frisco service before the rush is on in earnest this winter will be greatly welcomed.

GEORGE RUNS INTO HEAVY BANK OF FOG

Delayed Three Hours at Seymour Narrows on Way North

Fog is beginning to interfere considerably with shipping in the inside waters. Heavy rolling banks of mist are enveloping the narrow channels at frequent intervals and very shortly the whole coast will be obscured for some weeks in the blanket. Capt. Donald, master of the G. T. P. steamer Prince George, which berthed here yesterday from Stewart and Prince Rupert, says that he lost three hours at Seymour Narrows going north on the last trip. When he reached the Narrows the weather was so thick as mud and the bows of the ship could not be seen from the bridge. In order to wait for the water to slacken and also for the fog to lift, Capt. Donald turned the George about and lay at anchor for three hours, before proceeding. Fog was met frequently on the run, but no further delays were met.

From Stewart and Prince Rupert the Prince George brought a large list of passengers, there being 93 in the saloon and 42 in steerage. Among the saloon travellers was Capt. Frank Saunders, agent of the marine and fisheries depot at Digby Island, and William Lord, of Vancouver, who was in charge of the construction of the big cannery for the Canadian Fish & Cold Storage Company at Prince Rupert.

With her holds full of freight and quite a number of passengers the Prince George left here this morning for the north. William Cooper and J. A. de Macedo, were among the Victorians who boarded the steamer.

Sophia Due In.

To-morrow morning the G. T. P. steamer Princess Sophia, Capt. Campbell, is due to arrive in port from Skagway and Prince Rupert. To-morrow night the Tees, Capt. Gilliam, of the C. P. R. fleet, clears for Heiberg and other west coast ports.

ANOTHER SUGAR SHIP.

The British steamer Strathairn, Captain Kydd, 2783 tons, has been chartered to bring a cargo of Fiji sugar to Vancouver. The vessel is now at Suva loading and will shortly sail with her cargo, which is consigned to the B. C. Sugar Refinery.

This is the first cargo of Fiji sugar to be brought to this coast for two or three years. The refinery used to get regular shipments from Suva, but dropped this import in favor of Java shipments. Cargoes from British Guiana then came forward, but after five or six shipments this point of supply was dropped and the refinery reverted to Java products. Recently the factory has been importing sugar from Cuba and the steamer Guendesa is now on passage here from Matanzas. She is due on October 15.

Aberdeen, Wash.—Arrived: Steamers Helene and Melville Dollar, San Francisco. Sailed: Schooner Watson A. West, Antofagasta; steamer Nehalem, San Francisco.

PANAMA CANAL CAUSING EXTRAORDINARY ACTIVITY

San Francisco, Oct. 6.—Advices from New York shipping circles to the marine department of the chamber of commerce state that the approaching opening of the Panama canal has stimulated steamship companies, and also that the records show extraordinary activity. Building programmes of magnitude are already arranged by the United Fruit Company, the Royal Mail Steam Packet Company, the North German Lloyd, the Austrian Lloyd and the Hamburg-American Company. Three of these companies—the Royal Mail, North German Lloyd and Hamburg-American—have announced their intention of operating first-class passenger and freight steamers from Europe to San Francisco by way of the big ditch.

Concerning the intentions of the Royal Mail line, it is said that in addition to inaugurating a direct service from England to the Golden Gate, the company will go deeper into the traffic between New York and South America, via the canal. The Royal Mail Company has given orders for the construction of five 20,000-ton fast passenger and freight steamers for this service. Three of the vessels will be ready for operation next May and two in the fall.

51 YEARS OF SERVICE.

Baltimore, Oct. 6.—Capt. William C. Geoghegan, master of the steamer Three Rivers and the dean of the navigators of the Chesapeake, has tendered his resignation to Willard Thompson, general manager of the Maryland, Delaware and Virginia Railway Company.

Capt. Geoghegan gave age and a desire to rest as the reasons for his resignation, which was unexpected, as he has yet the vigorous activity of manhood and the love of his calling.

MORNING STEAMER

Laurentic.... Oct. 25 Megantic.... Nov. 8

"Teutonic" and "Canada" carry one class cabin (1L) and 3rd class only.

Baggage checked through to steamer in hand, no hotel or transfer expenses.

Company's office, 22 Second Ave., Seattle, 5 doors from Cherry Street, or Local Railroad and Steamship Agents.

MORE BOATS VIA PANAMA.

San Francisco, Oct. 6.—The cargo steamships Atlantic and Pacific, now building at the yards of the Fore River Shipbuilding Corporation, will be placed on a run between Boston and this port on the completion of the Panama canal. Later other vessels will be built. The steamships are owned by J. S. Emery & Co., the famous old clipper ship firm.

Each vessel will be 285 feet in length and will have a cargo capacity of 8900 tons. The engines will be placed well aft, in the manner of the Great Lakes steamers, and will be the largest of the type ever constructed.

To the educated and reader, QUALITY OF GOODS is of first importance—price—concessions secondary.

TO \$3.00

Andirons and Hearth Furniture

No. 9589 1/2 has a dull black finish and a neat brass ornament. A superior quality. Per pair \$5.00

No. 9588 is a very neat style, dull black finish, plain and good. Price, per pair\$1.75

Quite a nice assortment of curbs, sets of fireirons and other hearth furniture is now in stock. Please visit the department and we will show to you many inexpensive but attractive lines.

The Colonial Style Grows in Popularity

CONVENIENCE AND DURABILITY COMBINED WITH UNUSUAL BEAUTY

In richly-figured Circassian walnut we have many different designs in the style illustrated here.

In its massiveness and dignity, the Colonial style clearly illustrates the spirit of the period it represents.

Utility and convenience was the first consideration, and the lack of power machinery was the primary cause of the ingenious use of plain lines and simple sweeps.

The beautiful figure and rich color of Circassian walnut adds to the attractiveness of this style.

We would like to quote prices, but as there are so many sizes and styles to choose from, it is impossible to give full details. Call and see the display; it will prove a pleasant trip for you.

SPORTING NEWS

VICTORIA SHOWS UP WELL IN NORTHWESTERN LEAGUE AVERAGES

Swain and Meek Head the Sluggers; Beavers Benefitted by Work of Local Club

One good turn deserves another, and if Bob Brown, the Vancouver baseball magnate will only bear this in mind next year, why the Bees may grab a pennant through the assistance of the Beavers. On the compilation of wins this year by the Victoria club, it will be seen that the locals practically handed the gonfalon to the Terminal. The latter lost but nine games to the Victoria club all season, while the Bees were beaten no fewer than twenty-three times by the Brownies. Victoria also put a big crimp in the aspirations of Seattle and Spokane, by splitting even on the series with these teams, taking fourteen out of twenty-eight from the pair, while they had the better of Spokane, but only secured an even break with the Tacoma team. Vancouver was the best road team, with the Bees fourth. Victoria won fourteen shut-out victories, but dropped thirteen, while the Bees had the toughest luck of any club in one run victories, dropping twenty-seven and winning seventeen.

Batting Averages.

Among the batters over .300 were: Swain, Victoria, .325; Kippert, Vancouver, .325; Claps, Seattle, .309; Jellman, Portland, .305; Strait, Seattle, .299; McCull, Spokane, .298; Spear, Portland, .298; Yohe, Spokane, .290; Eastley, Portland, .290; Powell, Spokane, .289; Brinker, Vancouver, .288; Brooks, Victoria, .288; James, Seattle, .288; Neighbors, Tacoma, .287; Hannah, Spokane, .287; Shultz, Victoria, .286; Frisk, Vancouver, .284; Lynch, Spokane, .283; Pappas, Spokane, .282; West, Tacoma, .282; Wagner, Spokane, .278; Johnson, Spokane, .275; Netzel, Tacoma-Portland, .274; Mahoney, Portland, .270; Schamweber, Vancouver, .270; McIvor, Seattle, .269; Delmas, Victoria, .269; Callahan, Portland, .268; Melchior, Portland, .268; Bennett, Vancouver, .264; Gulgini, Portland, .264; Alberts, Victoria, .263; Fries,

Tacoma, .263; Keller, Tacoma, .263; Rawlings, Victoria, .262; W. Harris, Portland-Tacoma, .260; Cadman, Seattle, .258; Walsh, Vancouver, .258; Kelley, Seattle, .258; Killip, Seattle, .257; Shaw, Seattle, .257; Mohler, Portland, .257; McMurdo, Vancouver-Tacoma, .257; Konnick, Vancouver, .254; Jackson, Seattle, .256; Fitzgerald, Portland-Spokane, .251; P. Morse, Spokane, .250; Nill, Seattle, .248; Brown, Seattle, .247; Millon, Spokane-Tacoma, .247; Williams, Portland, .246; Belford, Tacoma, .246; Fitzsimmons, Spokane, .245; Wally, Seattle, .244; Bancroft, Portland, .244; Ebea, Victoria, .243; Nordyke, Tacoma, .243; Kennedy, Tacoma, .243; W. Wilson, Seattle, .241; Barham, Victoria, .241; Holderman, Tacoma-Seattle, .240; Fullerton, Seattle, .239; Altman, Spokane, .238; McMullin, Tacoma, .236; Harbison, Spokane-Tacoma, .235; Hall, Vancouver, .233; Doty, Vancouver, .233; Lanham, Tacoma, .231; Woffle, Spokane, .229; Webster, Vancouver, .227; H. Harris, Tacoma, .226; Ostler, Spokane, .226; Douglas, Spokane, .222; Hensline, Tacoma, .222; Korfus, Tacoma, .221; Murray, Portland, .220; Crum, Victoria, .220; Dell, Seattle, .219; Broten, Victoria, .218; Auer, Spokane, .214; Lewis, Vancouver, .214; Salsberg, Tacoma, .212; Ingersoll, Vancouver, .211; Felts, Spokane-Tacoma, .209; Fitzgerald, Victoria, .208; Narveson, Victoria, .206; Grindell, Tacoma-Spokane-Vancouver, .205; Clark, Vancouver, .205; Chase, Spokane, .200.

Swain, the doughty slugger of the Victoria Bees, leads the league in the matter of home runs, a total of 24, and he also led in two-baggers, having poked out 42. Wagner of Spokane, topped the list of three-bagging swatters, with a total of 14. It fell to the lot of Rawlings, Victoria, to lead the league in sacrifice hits, posing as the nudge-on blitzer 25 times in 172 games. He outdistanced the league in the matter of stolen bases. He is credited with 47 in 162 games. From the figures it is evident that pitchers throughout the league feared the heavy-hitting Swain. Far and away he led the league in bases on balls. Despite the fact that Swain was given transportation 83 times, the Bee slugger managed to pile up an average of .325.

COBB HAS A BIG LEAD ON SLUGGERS

Chicago, Oct. 6.—Joe Jackson has dropped to third place among American League batters. Cobb still leads, but the Cleveland slugger must have found the pace too swift, for Olaf Henriksen, of Boston, back into the game once more, crowded into second place, close on the heels of the Detroit man. Their unofficial averages are: Cobb, .391; Henriksen, .385; and Jackson, .367.

Speaker, of Boston, is in fourth place with .364. The rest of the men hitting .300 or better are: Collins, Philadelphia, .340; Baker, Philadelphia, .339; Gilbooley, New York, .337; Lajoie, Cleveland, .335; McNinis, Philadelphia, .331; Gandil, Washington, .320; B.

From Hose to Hats

You'll find your needs well catered for here.

Hats in Stiff and Soft Felts, Austrian Velours, smart Caps.

Shirts in nifty new Fall patterns with a tone to them.

Hose of the well-known Hole-proof and other good brands.

AFTER JOE BAYLEY

JACK WHITE

Chicago lightweight, who is seeking a bout with Joe Bayley. Efforts to match the boys at Brighthouse Station have failed because the Arena is closed for the winter.

BARHAM TOPS THE LEAGUE TWIRLERS

Wayne Barham, of the Victoria Bees, who is one of the Northwestern League stars of 1913 to go up to the majors by draft, led the "Pitchers" in Fielder Jones' league during the past season. He worked in ten games and was charged with only three defeats. Todd, of Portland, who worked in three games, and Conway, of Spokane, and Maloney, of Seattle, who pitched one game each, all finished with perfect averages, while Reardon, of Seattle, lost one out of four. Stanley, of Portland, is second among the pitchers who worked ten games or more, winning 16 out of 23. Bert Hall, of the champion Beavers, is third with 22 wins in 25 starts. Averages of the local pitchers are as follows:

	W.	L.	Pct.
Barham	22	3	.700
Kantlehner	23	16	.589
Narveson	21	17	.553
Brown	2	2	.500
Fitzgerald	5	11	.312
Fitchner	4	10	.286
Hardman	2	5	.286
Bordin	2	6	.250
Alberts	0	3	.000

President Dugdale says that there was no longer any doubt that the White Sox and New York Giants would play exhibition games in Seattle November 17 and 18. It has required some tall maneuvering to perfect the arrangements. After the first game all but those who play in the second will go to Vancouver, from which point they sail on the Canadian Pacific steamship Empress of India. Those who remain in Seattle to play the second game will be rushed to Victoria, B. C., on a special steamer, which will be chartered by President Dugdale. In order to make connections the Empress of India will be held in Victoria ten hours.

LINDSAY TO RESIDE HERE PERMANENTLY

Bert Lindsay will again guard the nets of the Victoria hockey club this winter. Lester Patrick received word this morning that Lindsay will be here early and intends bringing his wife and family here, so that it is taken that he will reside here in the future. Manager Frank Patrick, of the Vancouver hockey club, will visit the capital on Wednesday, when a date for the annual league meeting will be set. The clubs plan to stage the first match this week in December.

JOHNSON BEATEN.

Schenectady, Oct. 6.—Walter Johnson, pitching for his all-American team, was beaten 1 to 0 here by the Mohawk Giants (Negroes).

Sydney, Oct. 6.—"Pat" Brown defeated Hughie McEgan here yesterday in 20 rounds on points.

REMARKED ON THE SIDE

Victoria Players Were Well Up.

In the official averages of the Northwestern League, just issued for the 1913 season, the fans of the capital will be gratified at the showing of their favorites. Victoria supplies the first two batters in Meek and Swain. Rawlings leads in sacrifice hits, Kantlehner has the most wins and also strikeouts. The Bees are second in club batting with a mark of .259, just one point below Vancouver. Swain led the distance clouters by a wide margin. The Bees finished in fourth position, greatly improving upon their showing of 1912, and but for poor pitching in the earlier months of the season, Delmas and his band would have been right up with the leaders at the finish. Vancouver led in batting, while their twirlers were also the best, giving Bob Brown's club a decided margin of superiority.

Soccer Season Opens With Great Enthusiasm.

Not for many years has there been such an interest taken in Association football as that marking the present season. The addition of the two new clubs and the reinstatement of the former professionals undoubtedly have revived the game to a considerable extent, and there is every reason to believe that the Wests will meet with serious opposition in their efforts to retain the Okell cup during the next three months. The Wards have gathered together one of the most formidable elevens seen in action in the capital for a number of years and they are out after the title. These rivals won on Saturday, Sam Lorimer's Bays putting over the surprise of the day when they trimmed the newly-formed Rangers. The latter have not yet struck their stride and will be heard from later, but it demonstrates that the Bays will by no means be a back number this year. Next week's clash of the Wests and Wards will be a real test of the calibre of the North Ward eleven, as a win for the blue and white club will put them strictly in the running for the city title.

VICTORIA CLEANS UP Y.M.C.A. MEET

Vancouver Swimmers Out-classed in Exciting Races; Robin Gray Features

A capacity crowd witnessed Saturday night's swimming meet at the Y. M. C. A., when the capital city swimmers carried off every championship in competition with Vancouver and the Island aquatic stars. The events proved highly interesting and the great success that attended the efforts of the local competitors kept the enthusiasm at the highest point. Vancouver could not do better than second in the four championship events, with the Victoria Amateur Swimming Association capturing the relay race. Results:

Lord Desborough Cup life-saving competition—Clarke and Cooper, Victoria Y. M. C. A. Club, first; Harrett and Hollings, Vancouver Y. M. C. A., second. The time of the winners was 3.74 min.

100 yards open—L. K. Godfrey, V. A. S. A., first; C. P. Foster, Vancouver A. S. A., second; A. McKinnon, Vancouver Y. M. C. A., third. Time, 1.14.

100 yards, Junior B. C. championship—Robin Gray, Victoria Y. M. C. A., first; P. McAdam, Victoria Y. M. C. A., second; R. Sproul, Vancouver Y. M. C. A., third. Time, 1.22.

Vancouver Island championship relay—Y. A. S. A. team, composed of Muir, McNeill, Godfrey and Rowell, first; Victoria Y. M. C. A. team, composed of Crompton, Milne, Sutton and Clark, second. Time, 2.47.3-8.

Plate diving competition—O. C. Andrews, Victoria Y. M. C. A., with ten plates out of a possible twelve, first; T. Heyland, Victoria Y. M. C. A., nine plates, second.

220 yards senior championship of B. C.—J. D. McNeill, V. A. S. A., first; C. P. Foster, Vancouver A. S. A., second; R. A. R. Clark, Victoria Y. M. C. A., third. Time, 3.09.2-5.

220 yards Junior British Columbia championship—P. McAdam, Victoria Y. M. C. A., first; R. Gray, Victoria Y. M. C. A., second; Sproul, Vancouver Y. M. C. A., third. Time, 3.45.1-5.

60-yard club handicap—R. A. R. Clark, first; A. C. Sutton, second. Water polo match—Reds defeated Whites by score of 4 to 2.

FINAL GAME OF THE CRICKET SEASON

A very pleasant game was played on the Jubilee hospital ground on Saturday. It was probably the last game of the season, and was played by the presence of a number of Banichon Indians. Mr. Guernsey's team proved victors over Mr. Rosher's eleven. The score was as follows:

Guernsey's Eleven.
C. C. Tuernard, s.l.p. Carrier, b. Dunn, s.l.p. 42.
E. R. Shakespeare, c. Carrier, b. Verral, s.l.p. 10.
A. B. Lawrence, b. Holman, s.l.p. 11.
A. Booth, not out, s.l.p. 38.
F. Robinson, c. Lawrence, b. Rosher, s.l.p. 10.
A. Hudson, not out, s.l.p. 14.
A. Meakin, T. Howland, L. A. Guernsey and H. R. Orr, did not bat.

SPORTING GOSSIP OF THE DAY

Giants are now favorites for the world's series which start at New York to-morrow.

Kantlehner is winding up the season in a blaze of glory, splitting even in a double-header which he twirled for the All-Stars on Saturday.

Not content with fighting with Con. Jones all summer, the New Westminster lacrosse team had to turn upon Referee Lynch.

That Ward soccer eleven is a fast scoring aggregation. Seven goals against the S. O. E. is some shooting.

The Wests intermediates started the season with a victory over last year's champions.

At Wednesday's meeting of the Victoria Rugby Union, the schedule for the Barnard Cup series will be drawn up.

Bert Delmas is head and shoulders over the league short stops in all round work.

Talk about variety in sport; races at the Willows, lacrosse and athletics, Spanish fair, soccer opening, rifle shooting, cricket, swimming at the Y. M. C. A., all on Saturday.

Eastern hockey stars will sit up and take notice of the action that was taken in the Johnson case, which upholds the P. H. S. contracts as binding in every particular.

Cornwall and Montreal are both claiming the N. L. U. championship, but the league has broken away from its amateur claims and is just as much professional as it ever was.

Some of Our High-Grade Hats From Which You Can Choose

There's a big range, including all the best European and American makes.

Austrian Velours head the list because they give a particularly good tone to a man's dress. The colors, rich shades of brown, blue, green and grey, and the blacks have a soft sheen that is striking. Price \$6.00.

Stiff and Soft Felts, made by Peel & Co., of London, Eng., are very smart, well-finished Hats. The Stiff Felts are in the latest blocks and the Soft Felts in all the new shades. Price \$5.00.

John B. Stetson's Hats are well-known to you for their splendid wearing qualities and smart styles. A full line of these in the new colors at \$4.00.

Other makes are the Knox, an American hat of excellent quality, the Fitwell, famous as the \$3.00 Hat, and Borsalinos from Italy. Prices \$3, \$3.50, \$4.50 and \$5. Also the most costly Hat on the market—Roelof's "Smile" Hat at \$20, and well worth the money—100% pure beaver.

COOL WON EASILY OAK BAY HANDICAP

Jockey Stevens Thrown in Last Race on Saturday, New Records at Willows

In Saturday's big feature, the Oak Bay handicap, Cool, the Lawry gelding, went to the post a rank outsider, but he proved himself a real winner. Jockey Hill, however, knew the speed and courage of his mount and by a nice sprint in the stretch, brought him home an easy winner. Swede Sam could not stall off the rush of Cool in the final furling and the winner brought down \$26.00 for a two-dollar ticket.

Stevens Was Thrown.
One of the biggest crowds of the meeting was on hand to witness the eight-race card and the racing was of the highest order. Only one accident marred the programme, Jockey Stevens being thrown from Trocha in the final event on the card, sustaining a broken collar bone. The mishap was an unusual one. Trocha crossing her legs and stumbling when an absolute last and throwing Stevens heavily. The injured boy was rushed to the Jubilee hospital, where his shoulder was attended to. The mare continued and finished fourth, after running wild over the track. She continued to run after the race had finished and covered three miles before finally corralled. In the third race Pontefract stumbled when a couple of lengths in the lead, but Pickens kept his mount on all fours, though it cost him the race.

Claver Again Leads.
Midget Claver led the jockeys with three wins, McMartin being second with a pair of firsts. O'Brien, Hill and Pauley claimed the other wins, while Riddle and Gargah had a couple of mounts to finish in the money. There were no protests and not one case of crowding throughout the afternoon. The judges had Jockey Battiste before them for his poor ride on Sallie O'Day on Friday and the colored boy was told that he would have to tend strictly to business if he was to ride at the Country Club meet.

New Short Course Mark.
Two of the winners established a new mark for the Fraser course, which is but 165 feet short of five furlongs. Laura Clay, in the second race, covered the distance in 58.4-5 seconds, while Big Lumax equalled the Everest mare's time when he defeated such sprinters as Dusky Dave, Mur Buena and Conjury in the fifth event. Laura Clay carried 112 lbs., as did the Bogan colt, and the pair had an easy time out-footing the contenders. Cool also ran a remarkably fast mile and an eighth in winning the Beacon Hill handicap, being clocked in 1.49 for the distance. This is but three-fifths of a second off the track record made by Barney Oldfield. There were a number of surprises for place and show money. Dr. Neuffer paying \$18.40 for place tickets in the first race, while Cool paid \$10.60, with Swede Sam paying \$7 in the feature.

Last Week of Races.
Eight races a day are set as the card for the next six days and the meet is to be brought to a close on Saturday afternoon. A number of horsemen will dispose of their stables and a number of Victoria owners will take advantage of these sales to add to their strings. Meiers, Perry, Fraser and Dr. Richards are all expected to invest in some of the younger animals that will be put up for auction.

Frisco critics are of the opinion that Jimmy Clabby, is another Stanley Ketchell.

ROUGHEST GAME IN HISTORY OF LEAGUE

Referee Lynch Assaulted by New Westminster Players; Royals Retain Minto Cup

New Westminster, Oct. 6.—Alleging that he was unfair in his decisions, Westminster Minto cup holders set upon Referee Fred Lynch, former president of the champions and secretary of the B. C. L. A., and before he was finally rescued by police officials and friends, he was badly battered at the assault took place in the Westminster club's dressing rooms, immediately upon the conclusion of the match. Lynch made it way there to change his clothes and he had no sooner crossed the threshold than he was charged by the players.

No official statement was forthcoming from the club officials. Manager Tommy Gifford was in the dressing room when the trouble occurred, but he so far has made no statement. It is the first time in the history of the game that a home official has been attacked by the players.

V. A. C. held New Westminster down to three goals to five at the Exhibition grounds. The Minto cup holders therefore have successfully defended their trophy by an aggregate of fourteen goals to four.

Summary.
Goal summary—First quarter: Peacock, V. A. C., 106; 2, W. Turnbull, Westminster, 338; Wintemute, Westminster, 1.11. Second quarter: 4, W. Turnbull, Westminster, 9.45. Third quarter: 5, L. Turnbull, Westminster, 10.18. Fourth quarter: 6, W. Turnbull, Westminster, 3.08; 7, Murray, V. A. C., 6.36; 8, Crookall, V. A. C., 8.1.

Penalty summary—First quarter, Howard, Westminster, 5 minutes; Third quarter, G. Spring, Westminster, 5 minutes; McLaren, V. A. C., 10 minutes; H. Gifford, Westminster, 10 minutes; Feeney, Westminster, 10 minutes; Murray, V. A. C., 10 minutes; Donohue, V. A. C., 5 minutes; W. Turnbull, Westminster, 5 minutes; G. Spring, Westminster, 5 minutes. Fourth quarter, L. Turnbull, Westminster, rest of the game, about 17 minutes; G. Spring, Westminster, rest of game, about 16 minutes; W. Turnbull, Westminster, 5 minutes; T. Rennie, Westminster, 5 minutes; Donohue, V. A. C., rest of game, 5 minutes; C. Spring, rest of game, 5 minutes.

ALL-BLACKS WIN.

San Francisco, Oct. 6.—The All-Star New Zealand Blacks defeated the Olympic rugby club team here by a score of 19 to 0.

Their work has shown the visitors to be a fast aggregation with a style of play new to this coast. They pass the ball shoulder high, instead of waist high, thereby permitting the ball to be received where a tackler can not prevent a pass, even if the tackler is stopped dead.

THE more critical a man is in selecting his hat the better worth while our wonderful Stetson assortment is to him. We can give him exactly the model he wants from our stock of Stetsons—with the touch of style that is found at its best only in a Stetson.

RAY AND VARDON
INVITED TO PLAY HERE

There is a possibility that Harry Vardon and Edward Ray, the famous English professional golfers, will play over the Oak Bay links the end of this month. An invitation to visit the capital has been extended to the celebrated duo and their answer is now eagerly awaited. As they have accepted an invitation to play at Seattle on October 24, there is every reason to believe that they will also play here.

Seattle, Oct. 6.—Vardon will play thirty-six holes on the links of the Seattle Golf Club on October 28. No two men from the British side make a stronger claim on the honor.

golf course than Vardon and Ray, the former the greatest stylist known to the history of golf, and his companion, probably the longest driver and most powerful player that ever lived.

Montreal, Oct. 6.—Miss Muriel Dodd, champion woman golfer of England, won the woman's championship by defeating Miss Florence Harvey, of Hamilton, Ont., in the final of the Canadian woman's golf championship, by seven up and six to play.

Chicago, Oct. 6.—Vardon and Ray, English golfers, beat Charles Evans and Warren K. Wood, American, yesterday.

Iron Mask established a new world's record for three-quarters of a mile at Douglas Park, Louisville, covering the distance in 1:16 4-5, last Thursday. Jack Atkins was the former record-holder.

Wards	1	0	2
Empress	1	0	2
Pandoras	0	1	0
Men's Own	0	1	0
Wests	0	1	0

North Wards certainly made a grand start in their fight for the City League soccer title and the O'Kelly cup on Saturday at North Ward Park when they defeated the Sons of England eleven by the one-sided score of 7 to 1.

The victory goes the Wards with the Wests and James Bay clubs, these clubs being the winners in Saturday's opening matches of the Victoria and District Football Association. Splendid weather featured the games, the matches drawing large crowds to the different fields. The Wests' victory was a narrow one over the Thistles, while the James Bay eleven, composed of youngsters, trimmed the Rangers by a single goal, the latter match being a big surprise. From the showing of the teams there will be at least four clubs who will be in the finals for the title as the Wards, Thistles, James Bay and Wests are all in fine shape right now and very evenly matched. Rangers will improve, as they sadly lacked condition against the J. B. A. A. eleven, but the Sons of England will have to be greatly strengthened if they are to prove a factor.

Empire's Huge Total.

In the intermediate division the champions Wards humbled the Victoria West Intermediates by scoring four goals and keeping the West forwards from tallying a single goal. The Wards look good for another win, though the Empires in their match with the Pandoras eleven ran away from their opponents, the final score being 10 to 1. The Empress team played two men short, but even then they were able to win from the Men's Own eleven, scoring two goals, while they blanked their opponents. The Second Division clubs played nice football and the prospects are bright for a big season.

At Wednesday's meeting of the league the schedule will be drawn up for the Junior Division, when it is hoped that at least four clubs will have entered. The Y. M. C. A. and Wests are the only teams at present, but it is expected that the Wards and a couple of the schools will see fit to organize teams and place them in the Junior division.

It is announced that the North Ward Athletic Club will reorganize at a meeting that will be held at Lormera's Billiard Emporium Tuesday night. The Wards have a splendid chance of capturing the city soccer title this season and intend to go right after this honor. Plans will also be laid for the organization of baseball, lacrosse and ice hockey teams and a new board of officers will be chosen.

Saturday's Teams.

Saturday's senior teams were as follows: North Ward: Goal, Baines; full-backs, Newlands and Taylor; half-backs, Davidson, Thomas and Brown; forwards, Wilkie, Nichol, Pearson, Muir and Allan.

S. O. E.: Goal, Munday; full-backs, Hymers and Wylie; half-backs, Martin, Bindell and Beach; forwards, Kerley (P.), Sharrock, Wells, Kerley (A.) and Douglas.

Victoria West: Goal, Robertson; backs, Whyte and Prevost; half-backs, L. MacDonald, Pettigrew and Barber; forwards, Plump, Stewart, M. MacDonald, Youson and Sherrett.

Thistles: Goal, Smart; backs, Sheriff and Maxwell; half-backs, Shearer, Green and Erskine; forwards, Caskie, Howden, McGie, Prall and Coulin.

Rangers: Goal, Dougan; backs, Brain and Jones; halves, Wilson, Niven and Crawford; forwards, Melroy, Gale, Pickering, Eastman and Ingalls.

J. B. A. A.: Goal, Thoburn; backs, Petch and Mossley; halves, Robertson, Roberts, Attwell; forwards, Totty, Norman, Hines, Morrison, Broadwell.

Pickin Gossip.

George Allen, outside left for the Wards, played a grand game Saturday.

Jock Robertson, of the Wests, made two brilliant saves in the first half of the Thistle-West game.

Bob Whyte as usual played a star game for the champions.

The North Ward Intermediates defeated Victoria West 4-0.

Plump, a Victoria West Junior, substituted for Baker Saturday and played a star game.

North Wards defence was too much for the S. O. E. at the Ward Park.

Sam Lorimer's Rays furnished the public with a surprise when they walked the much touted Rangers 1-0.

A nine composed of Empress hotel employees defeated the Men's Own football team by 2 goals to nil.

Hines played a good game for the Rays on the forward line, as did Attwell.

Johnny Peden and Cyril Baker will be back on the West lineup for the next game.

The Pandora football club has vacancies for several good players. Those wishing to join are requested to communicate with the secretary, P. Q. Box 1504.

WHAT'S INDIGESTION? WHO CARES? LISTEN!

"Pape's Diapiesin" Makes
Sour, Gassy Stomachs
Feel Fine at Once

Time! In five minutes all stomach
distress will go. No indigestion, heart-
burn, sourness or belching of gas, acid,
or eruptions of undigested food, no
disinclination, bloating, foul breath or
headache.

Pape's Diapiesin is noted for its
speed in regulating upset stomachs.
It is the surest, quickest and most cer-
tain indigestion remedy in the whole
world, and besides it is harmless.

Millions of men and women now eat
their favorite foods without fear—
they know Pape's Diapiesin will save
them from any stomach misery.

Please, for your sake, get a large
fifty-cent case of Pape's Diapiesin
from any drug store and put your
stomach right. Don't keep on being
miserable—life is too short—you are
not here long, so make your stay
agreeable. Eat what you like and di-
gest it; enjoy it, without dread of
rebellion in the stomach.

Pape's Diapiesin belongs in your
home anyway. Should one of the fam-
ily eat something which don't agree
with them, or in case of an attack of
indigestion, dyspepsia, gastritis or
stomach derangement at daytime or
during the night, it is handy to give
the quickest, surest relief known.

the first Tuesday in November, and
thereafter on the first Tuesday in each
month.

T. P. Elder, defence counsel for the
Nanaimo members of the United Mine
Workers, accused of various offences in
connection with the recent riots in that
city, was in the city over the week-end
to see the prisoners at the Victoria
jail. He is registered at the Domini-
on hotel.

J. H. Ullmann, advertising manager
for the British America Paint Com-
pany, left town this morning on an ad-
vertising tour through Vancouver, Is-
land, Mr. Ullmann is travelling by
motor and will stop at the hotel on the
east coast as far as Campbell River,
and Port Alberni on the west coast, re-
turning to Victoria in about two weeks.

The marriage of Miss Nora Blaine
Gray and Mr. J. Wesley Blackman,
both of Everett, Washington, U. S. A.,
was celebrated on Saturday afternoon
at "Breadalbane," the residence of Rev.
Dr. Campbell, the officiating minister.
The bride wore her smart travelling
suit of navy blue serge with hat to
match. Mr. and Mrs. Blackman, who
are spending their honeymoon in the
city, will make their home at Everett.

R. T. Riley and George V. Haslam,
of Winnipeg, registered at the Empress
hotel yesterday. Mr. Riley is the di-
rector of many important companies in
the middle west, and a vice-president
of the Union Bank. He is an ex-alder-
man and ex-chairman of the city of
Winnipeg, is chairman of the Winni-
peg hospital commission, and has been
on a tour of the West. Mr. Riley and
Mr. Haslam, however, only spent a
few hours in the city, returning to the
mainland.

The series of Saturday evening
dances given by Mrs. Hallward con-
tinues in popularity, and the most re-
cent of these, on October 4, at the Vic-
toria Club, Campbell building, proved
highly enjoyable. Refreshments were
served about an hour before midnight.
The following were among those pre-
sent: Mesdames Moore, Kinlock and
Pethick, and the Misses Peg, Wheat-
ley, Colley, Colvin, Cotsworth, Nash,
Neame, Anderson Reid, and Messrs.
Russell, Neame, Straker, Williams,
King, Horton, Pethick, Hadder, Hogg,
Grooming Hudson Moore, Hoard, Roff
and Harvey. The next dance will take
place at the same hall on Saturday,
October 11.

MISTAKEN IDENTITY.

"Good-morning," quoth the Early Bird
The Early Worm unto:
"I rose betimes, so it occurred
To me to look for you."

"Our meeting, as you will perceive,
Is opportune, I vow;
And as I'm hungry, by your leave
I'll start my breakfast now."

The Early Worm forebore to squirm,
Though inwardly distressed,
And in a voice composed and firm
The Early Bird addressed:

"Most noble sir, I don't deny
Your right without delay
To grab the worm you first descried
Abroad at break of day."

"But I am not the luckless wight
In search of you again;
I stayed out rather late last night—
I'm now just getting home!"

KINEMACOLOR THEATRE

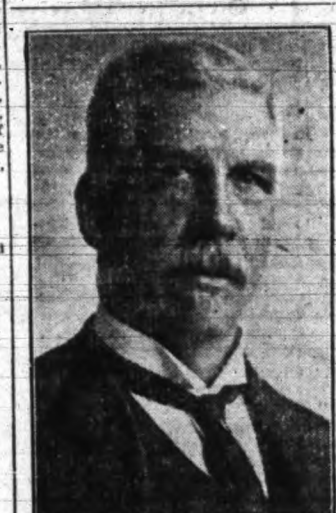

1608 GOVERNMENT STREET.

ADMISSION: MATINEE, 10c; EVENING, 15c

OPEN DAILY 2 P.M. UNTIL 11 P.M.

SIR WILLIAM'S JOKE.

Sir William Whyte, of Winnipeg, is
particularly fond of shooting and
every fall he goes out to his lodge on
the prairies, and spends a few days in
quest of prairie chicken. Last fall he
got a party to go out for the annual
shoot, and W. R. Baker, of the C. P.
R., Montreal, was one of the guests.
The birds were shot in plenty by all

SIR WILLIAM WHYTE.

but Mr. Baker, who was a particularly
poor shot. For a while he seemed to
lose interest, and some of the party
thought they would rouse him a bit.
They got one of the dead birds and
placed it very gracefully on a bush.
Soon one of the guides of the party
called Mr. Baker's attention to the
bird. He took aim five or six times
and the shot always landed on a dead
tree at some distance. Sir William
and his friends had been watching the
proceedings, and joining Mr. Baker.
Sir William remarked: "I think that
is only a waste of time, Mr. Baker, for
that tree looks as if it had been dead
for years."

Smart women in Paris are said to be
taking up shoemaking as a hobby.
This is reverting to a London craze of
over a century ago. On May 4, 1868,
Mrs. Charles Calvert noted in her
diary: "I began a new science to-day—
shoemaking. It is all the fashion. I
had a master with me for about two
hours and I think I shall be able to
make very nice shoes." In the same
month Lady Sarah Spencer wrote to
her brother: "I am to-day in a state
of great vanity. I have, to my eternal
glory, be it spoken, made a pair of
shoes. There it is for you! So if all
other trades fail I shall certainly es-
tablish myself cross-legged at the cor-
ner of an alley and earn a livelihood
in the midst of leather, awls and ham-
mers. In the evening Harriet and I
divide our time between music and
shoemaking, which is now the staple
trade of the family."

THINKS HE WILL LIFT THE CUP THIS TIME

Sir Thomas Lipton Says He
Has a Better Chance Than
Ever Before

An important statement respecting his challenge for the America cup was made recently by Sir Thomas Lipton on board the floating headquarters of the Royal Motor Yacht Club at Cowes.

The club entertained at dinner the competitors in the races for the international motor-boat trophy, and Sir Thomas Lipton, in responding to the toast of his health, dealt with next year's races for the America cup.

"Only to-day," he said, "I received on board the Erin the signed conditions for the races. Yet the negotiations for the challenge started on February 26, and it has taken nearly seven months to arrange this contest. Now it is all over I will confess that more than once I feared there would be no race. Yet while I was personally always willing to race under any conditions with a 90-footer or a 75-footer, just as the New York Yacht Club pleased, I had to be careful not to agree to terms that would impose any undue handicap on the future challengers or on boats from this side of the water. Several times I was advised to withdraw my challenge, but I stuck to it, and now the signed conditions are in my pocket. I am glad I did."

"I am perfectly satisfied with them. It is true that the conditions do not compel the Americans to meet me with a boat the same size as my Shamrock IV, viz. 75ft., but I am convinced that this will be done. The announcement that Cornelius Vanderbilt, J. P. Morgan, and Frederick G. Bourne have formed a syndicate to build a cup defender is sufficient guarantee that the contesting boats will be of equal size. Three better representatives of good clean sport cannot be found in the world. They are also among three of the richest men in America, and it is stated in the papers that they have given Herreshoff a free hand in the matter of expense.

"This is a pretty tall order, but it does not scare me. I believe that in Mr. Charles Nicholson I have the finest yacht designer in the world, and in Mr. Burton a man who knows how to steer her to victory. You will be pleased to know that Mr. Nicholson is getting on well with my fourth Shamrock.

Although it will be the first boat built in this country under the American rules, under which the Americans have now been building for nearly ten years, I am sure that it will be able to hold its own whatever happens. Both the challenger and defender under the conditions which have just been signed will be better types of useful yachts than the freaks which one was formerly compelled to send across the Atlantic, and I can say without any hesitation that I have a better chance of winning the cup than I ever had before.

I would like to add that I have often heard people talk about American sportsmanship, but no one living has had more experience of them than I have had, and I can say honestly that no man could have received fairer and kinder treatment than I have. I never want to meet any better sportsman than my American friends."

A PRINCE WITH THE HOT WATER.
When Professor Vambory, the famous Orientalist whose death is announced, was staying at Sandringham, he rang the bell in his bedroom for some hot water. No one came, so he rang again, and yet again. Then a youth, after knocking at the door, entered the room. "Do you want something, professor?" he inquired.

"Yes," replied Vambory, "I have been ringing for some hot water." "Oh," said the youth, "wait a moment and I will get you some." Two or three minutes later the boy returned with a can of hot water, which he placed on the professor's table. The obliging boy was King Edward's second son, now King George V.

A particularly loud-speaking telephone outfit, by means of which the occupants of a limousine automobile may give directions that will be heard by the chauffeur even though pronounced without raising the voice above the conversational pitch, has been invented. The sound-receiving end of the instrument is a little disk suspended within a pocket of the upholstery of the car, and is connected by wire to a powerful reproducer affixed to a horn-shaped megaphone.

Arrangements have been made whereby a representative of a moving picture concern will accompany the Kansas Short Grass Club on its tour to Denver and will take pictures of the tour.

NA-DRU-CO RUBY ROSE COLD CREAM
will keep your hands and face smooth, soft and white, and prevent roughness, chaps and sore lips.
Apply at bedtime, rubbing it in well. The effect is delightful.
In 25c opal glass jars, at your Druggist's.

MAY VISIT VICTORIA.
Tom Mann, Organizer of Many Strikes, is on Way to This Coast.

One of the most remarkable men in the labor movement of the old world is Tom Mann, who is to reach this province in a few days. He is expected to come through to Victoria. The leader of the syndicalists did not restrict his operations to Great Britain but organized the famous strike in the broken Hill mines in New South Wales, for which he was imprisoned. His activities during the recent period of industrial unrest in Great Britain are far-reaching. In conversation, as in political speeches, he has no hesitation in proposing the reconstruction of society. Unlike Will Crooks and Keir Hardie, he has no sympathy with reorganization by the weapon of political action and is a thoroughgoing republican. While his socialistic views are well known, as a man he is as simple and straightforward as could be desired and has no selfish ambition.

WEATHER BULLETIN.
Daily Report Furnished by the Victoria Meteorological Department.

Victoria, Oct. 6-5 a. m.—A storm area developed on the northern coast and its progress will probably cause fresh to strong winds and gales on the Straits and outside waters. Rain has fallen on the Coast. In the prairie provinces there has been a decided fall in temperature, and snow is falling at most stations.

Forecasts.
For 24 hours ending 5 p. m. Tuesday. Victoria and vicinity—Fresh winds or gales from the south and southwest, settled, with rain. Lower Mainland—Southerly and westerly winds, unsettled, with rain.
Reports.
Victoria—Barometer, 29.94; temperature, 44; minimum, 41; wind, calm; weather, cloudy.
Vancouver—Barometer, 29.94; temperature, 44; minimum, 42; wind, 4 miles E.; weather, cloudy.
Kamloops—Barometer, 29.80; temperature, 34; minimum, 31; wind, 4 miles W.; rain, .02; weather, part cloudy.
San Francisco—Barometer, 30.04; temperature, 64; minimum, 52; wind, 4 miles W.; weather, clear.
Edmonton—Barometer, 29.94; temperature, 28; minimum, 28; wind, 4 miles S. E.; weather, part cloudy.
Winnipeg—Barometer, 30.08; temperature, 29; minimum, 30; wind, 4 miles N. E.; snow, .01; weather, cloudy.

FUR WILL BE SOLD AT ST. LOUIS NOW

Pelts of Seals Killed by Natives
on Pribilof Islands Will Not
Go to London

St. Louis, Mo., Oct. 6.—The United States government through Secretary of Commerce Redfield has just decided to change the sale of all the government catch of seal skins, foxes and other Alaska furs, from London to St. Louis.

This is the first time in history that the American seal catch has been marketed through American channels, and the action of Secretary William C. Redfield is regarded by the commercial organizations and bureaus of commerce with great favor; particularly as being significant of the activity of the Wilson administration in paying close attention to all manufacturing and trade interests.

The United States will dispose of several thousand raw seal skins constituting the 1913 catch. And under the protecting laws favoring the increase of seals, the sale will increase many fold in the coming few years.

The next step will be the removal from London to St. Louis of seal skin tanners and dyers establishing in America a great new manufacturing industry.

Thus, all a trade of great proportions be fostered. It will mean the elimination of the present heavy duty now paid on dressed and dyed skins prepared in Europe; while the skins will be dressed and dyed in America just as well, if not better, according to the statement of the best European dyers themselves.

The economy thus effected by this home industry and by the absence of the former heavy duty will eventually mean a saving of several hundred dollars a garment to midland in the purchase of the aristocrat of all furs.

The government furs, by the decision of Secretary of Commerce Redfield, will be sold at public auction by Funtsten Bros. & Co. of St. Louis.

The first sale is scheduled for some time in December, at which time the representatives of the great furriers of America and Europe will assemble at the Funtsten Fur Exchange where this wonderful collection of seal skins will be sold to the highest bidder. Philip B. Funtsten and A. M. Ahern, of Funtsten's will conduct the sale for the St. Louis firm.

The history of the seal is one of the most absorbing and romantic of all the great American industries. While the U. S. government has produced wonderfully interesting books on the subject, and which can be had free of charge, the whole country will be interested in a few facts bearing on the seal history of North America, especially in the light of the recent action of the department of commerce, which stamps St. Louis as the fur centre of the world.

The price paid to Russia for the whole of Alaska was \$7,000,000. The revenue from the seal is alone—rough, barren, forbidding spots that comprise but an infinitesimal area of the Alaska map, has been \$15,000,000—more than twice the sum paid for the entire territory.

This area comprises the Pribilof Islands discovered in 1786 by the Russian navigator whose name the islands bear. It is the seat of the most important fur seal colony in the world. Next in importance is the Commander herd owned by Russia, while the Kuril herd owned by Japan comes third. During the first year of Uncle Sam's possession, the catch was about two hundred to 300,000 seals, but the herd has diminished so considerably that as a result laws have been enacted by which the herds will be conserved and future catches increased.

This great diminution of the herds has been the result of pelagic sealing—the killing of seals in the open sea. Whole fleets would sometimes lie off the seal islands while their crews killed the female seals which swam out to sea seeking food.

At sea the sexes cannot be distinguished, and the females predominating the pelagic catch is made up largely of this class—the percentage being from 85 to 95 per cent. of females. The death of a female seal was not the only evil. She was out seeking food for her pup which she had left on shore, so that her death meant also the death of the young one.

The United States, Russia, Japan and Great Britain have made a pact which stipulates that no longer shall the fur seal be killed on the high seas.

The seal is a polygamist. The larger and stronger males have harems, ranging from 20 to 40 in number according to the fighting strength of the "King of the Harem." One bull has been known to have 200 cows in his harem.

Naturally there is a large surplus of mateless males whose one object in life is to get a harem of their own, entailing continuous warfare and bloodshed in which often the female is torn to pieces or maimed in the struggle for ownership. To kill off a goodly number of these disturbing bachelors of the herd is therefore necessary—not only for the good of the herd itself but also for the good of the skins, for naturally a mutilated skin or an old one has but very little market value.

Nearly two years ago congress made a law stopping the killing of seals entirely on United States islands, for five years, except seals needed for food by natives on the islands.

It is the skins of these seals killed by the natives that will be sold at St. Louis.

The astronomer royal of Scotland, Professor Sampson, has recently worked out a totally new idea for the construction of large reflecting telescopes. Hitherto it has been possible in these instruments to obtain clear images only over a small area near the axis. If Professor Sampson's scheme works out in practice as it should, this small area of good images will be greatly enlarged.

AMALGAMATION SALE

An Unique Experience for Victoria's Hardware Buyers

As already announced we, the B. C. Hardware Co., Ltd., and Island Hardware Co., have, for economical reasons, decided to combine our interests and to carry on business in the one stand, viz. 717 Fort Street (Jones Bldg.) from November 1, next. Whilst the move will eventually prove beneficial to ourselves, it is obvious that to accomplish our object a phenomenal stock reduction must take place, as naturally to be supposed our joint stores have innumerable duplicate lines which must positively be halved, and to do this we are inaugurating a regular carnival of Household and Builders' hardware bargains. There is probably no need to dwell here upon the high-class quality of our stocks, and anyone acquainted with our methods will well understand the genuineness of the sale.

\$50,000 Worth of Good Hardware to Be Cleared Within Three Weeks

Our space will be limited, our fixtures will only accommodate one stock, the result must be stupendous price-cutting. We've only to November 1 to effect a rapid clearance, the B. C. Hardware Building already having been leased for a hotel, and by this date same must be in the contractors' hands.

Note—Sale in Both Stores, 825 and 717 Fort Street

READ THE FOLLOWING SPECIALS SELECTED AT RANDOM FROM THE B. C. AND ISLAND STOCKS AND PROFIT. We don't anticipate another Hardware Sale of this magnitude in Victoria for years to come. OUR EXTREMELY YOUR OPPORTUNITY.

OUR LOSS—YOUR GAIN

AMALGAMATION CONTEST

Closing Concurrently With Our Sale, October 31, 1913

20 PRIZES IN VALUE TO \$200

See Showing in Island Hardware Co. (West Window)

CONDITIONS OF CONTEST

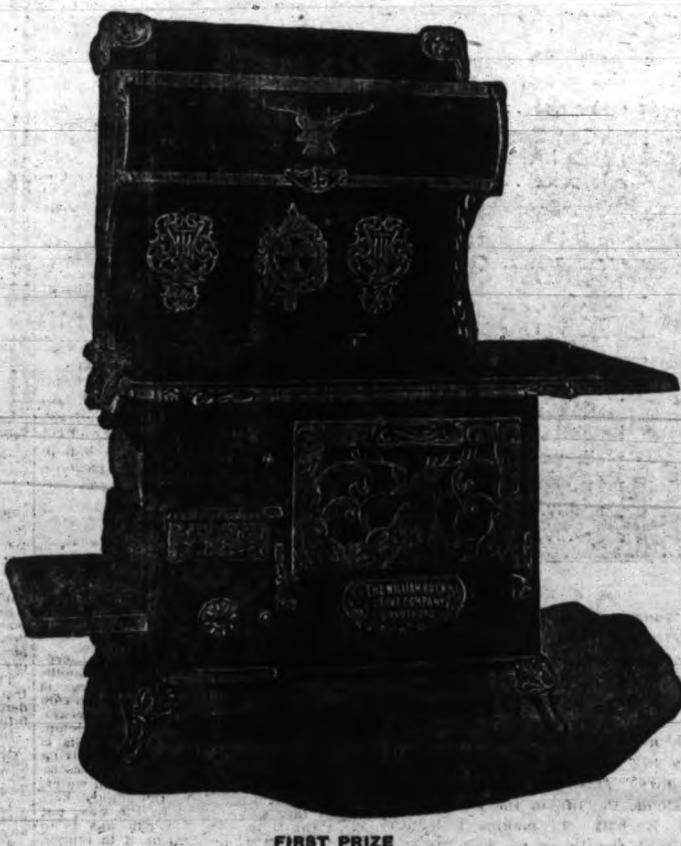

With every \$1 purchase during our sale we give a numbered ticket, entitling the owner to a guess of the total number of nails contained in sealed glass jars displayed in B. C. Hardware and in Island Hardware windows.

NOTE—Each guess must give estimated total number of nails in the two jars in one sum. Jars will be filled and sealed by Messrs. A. C. Lindsay, of The Colonist staff, and W. G. Lemm, of The Times.

The nails will be counted on November 1, in the window of the B. C. Hardware Co., 825 Fort Street, and the above mentioned gentlemen will act as judges, whose decision will be final.

Of course, the correct or nearest guess wins the first prize, and so on until the twenty are distributed. In the event of a tie, the judges will arrange a disposition of the matter in the interest of the parties concerned.

No employees of the Amalgamated Concerns, or anyone interested in same will be allowed to compete. Clip out these conditions for future reference.

Fort Fraser, the Centre

OF B. C.'S GREATEST AGRICULTURAL DISTRICT

A glance at this map will convince you that Fort Fraser's position is in the very centre of British Columbia's greatest agricultural district. The Nechaco Valley, the Stewart, Francois and Ootsa Lake districts, as well as a large share of the Bulkley Valley are all tributary to Fort Fraser and embrace in all about one thousand (1,000) square miles of rich, agricultural lands. This in itself, especially when you combine it with the railway facilities now assured, and the great waterway connection is enough to make Fort Fraser a great city.

But these are not all. Watch the papers for more information, or enquire of

ISSUES NEW RULES

ON MIXED MARRIAGES

Bishop MacDonald Causes Instructions to Be Read to Congregation at Cathedral

Bishop MacDonald has issued a set of new rules bearing on mixed marriages, and these rules affecting his diocese alone, he announces, will be strictly enforced henceforth. They do not deal with marriages already contracted, but are devised to prevent further marriages. In supplying a copy of the rules to the Times this morning his lordship stated that mixed marriages had been multiplying seriously in the diocese and his desire was to have them checked.

The rules were read aloud yesterday morning at mass in the Cathedral and were prefaced by an address by the bishop to his people.

"The evil of mixed marriages," said his lordship, "instead of lessening among us, seems rather to be on the increase. Out of sixteen marriages registered here in the last three months ten, by actual count, are found to be mixed. The situation is a very grave one. You know how the church has always detested these marriages. Nay, it is not the Catholic church alone; God-fearing people in the Protestant denominations see the evil of them and deplore it as well as we. The bond of religion is the most vital of all bonds and where a difference of religion exists there cannot be that union of souls without which marriage too often proves a curse rather than a blessing.

"With a view to stemming this evil of mixed marriages the following rules will hereafter be strictly adhered to:

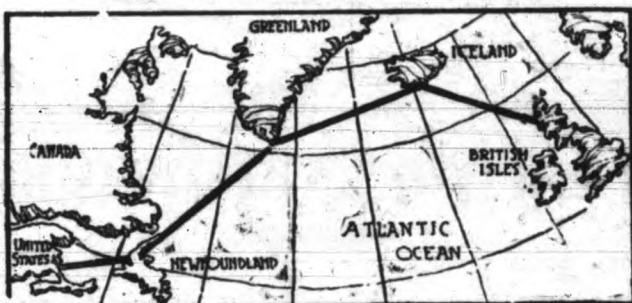

"1. First of all as soon as parents ascertain that a son or daughter is keeping company with a non-Catholic they should at once do all in their power to break off the relationship, failing which they are to inform the pastor or priest, who will then deal with the matter. Parents are bound before God to make every effort to prevent their child from contracting a mixed marriage.

"2. When the priest learns that a Catholic youth or maiden is keeping company with a non-Catholic he shall at once seek an interview and strive by every means to dissuade the Catholic party from continuing that relationship.

"3. The fact that young people want to enter into a mixed marriage does not entitle them to dispensation. There must be a grave reason or reasons.

"4. It is the rule in this diocese that the non-Catholic party shall take at least six instructions in the elements of Christian doctrine before a dispensation can be applied for, in order to disabuse the mind of erroneous notions

ACROSS THE ATLANTIC

Roland G. Garres, who recently flew across the Mediterranean from France to Tunis, a distance of 550 miles, in three hours, is considering a trans-Atlantic flight and has mapped out his course as above.

concerning our holy religion, and as a pledge of good will.

"5. The Catholic party must give notice of his or her intention to apply for a dispensation at least one month before the time fixed for the marriage.

"6. The priest shall present the application in writing, duly setting down the facts of the case, and the reasons why a dispensation is sought."

ENDS BACKACHE AND KIDNEY DISORDERS

Croxone Helps Lifeless Organs Regain Health, Strength and Activity

It is useless, dangerous and unnecessary to be tortured with the digging, twisting pains of backache or suffer disagreeable kidney and bladder disorders when Croxone is guaranteed to promptly and surely relieve all such misery.

Croxone masters these troubles because it quickly reaches the cause of the disease. It soaks right into the stopped up, inactive kidneys, through the membranes and linings; cleans out the little filtering glands; neutralizes and dissolves the poisonous uric acid and makes the kidneys filter and sift from the blood the waste and poisonous matter that clog the system and cause such troubles.

It does not matter whether you have but slight symptoms or a chronic aggravated case, it is practically impossible to take Croxone without results.

An original package of Croxone costs but a trifle, and all druggists are authorized to return the purchase price if you are not entirely satisfied the very first time you use it.

A PERSIAN VISITOR

A. E. KOCHALY

A young Persian who has been a student at McMaster University, Toronto, for the past five years, will lecture this evening at the First Baptist church on the subject of "Persia," his native land. His lecture will deal more particularly with the everyday life and social customs of his country, particularly the marriage customs, the life in the serenas, etc. Mr. Kochaly is making a lecture-tour of the Dominion, and this is probably the only visit which he will pay here for some time, as next year he intends returning to Northern Persia to take up missionary work there. Yesterday he addressed a big congregation at the Douglas Street Baptist church.

68TH VICTORIA FUSILIERS.

Special regimental order by Lieut.-Col. J. A. Hall, commanding.

It is regretted that the names of the undermentioned men were included in regimental order No. 158, October 3. It is notified for general information that the above order is cancelled with reference to the following: C. Co., No. 119, Pte. G. S. Day; No. 122, Pte. G. F. Hayden; No. 123, Pte. A. de Norman.

P. F. Viiters, Capt. and Act. Adj.

SIGNOR FOLI AT THE DENTIST'S.

A. a fashionable dentist, now dead (a correspondent of the Morning Post recalls, was a fine singer, and his practice was largely among professional singers. One day Signor Foli, whom he knew well, called on him. The great bass wanted something done that he might sing at the ballad concert that night. A. assured him that he must not think of singing, his throat was covered with ulcers. "I must sing," said Foli; "I've disappointed them the last two Wednesday's, and if I don't turn up to-night there will be trouble." "If you sing to-night you will certainly damage your reputation," "Oh! that be blown for a tale. You look out your instruments, and by the time you are ready I will have my voice as clear as a bell." A. looked out his instruments, and during the four minutes or so that he was thus engaged Foli cleared his throat by hawking at large, at the top of his voice. By the time A. was ready Foli's voice was in excellent condition; that night he sang at St. James's Hall as well as ever he sang. But when A. inquired for the next patient he learned that the half-dozen or so "spirits in prison" had fled. A. interested in the musical aspect of the case, had entirely overlooked the effect that the loudest shouting to be had in London would have on the patients awaiting their turn in the room immediately below.

Valuable Discovery in Complexion Beautifier

(From The Home Maker.)

Because of its peculiar power of absorption, also because it serves every essential purpose, ordinary mercurized wax is perhaps the most valuable complexion beautifier discovered within recent years. If one uses this she needs no toilet cream. Some use powder afterward, but this is not necessary. This rule for applying mercurized wax has been found very satisfactory: Wash the face with warm water, drying lightly. Before thoroughly dry, anoint face and neck with the wax, but don't rub it in. The favorite way is to use before retiring, allowing it to remain on all night and washing it off in the morning with warm water. All druggists have this wax in original one-ounce packages.

For the removal of a wrinkled or flabby condition there's nothing better than to bathe the face in a solution made by dissolving 1 ounce powdered ascorbic in 1 pint witch hazel. Beneficial results are quickly noticeable.

Victoria Fuel Company, Ltd.

622 TROUNCE AVENUE

NOTICE TO CONTRACTORS.

Tenders will be received at the office of the Board of School Trustees, on or before 4 o'clock p. m. of Tuesday, the twenty-first day of October, 1913, for the erection and completion of an 8-room public school building on the corner of Quadra and Finlayson streets, in the City of Victoria. Each tender must be accompanied by a marked cheque, payable to the Board of School Trustees, for an amount equal to 5 per cent. of the total amount of the tender. The cheque will be returned to the contractor and also to the unsuccessful tenderers when a contract has been entered into and a satisfactory bond provided. In the event of the successful tenderer refusing to enter into a contract when called upon so to do, the deposit cheque will be forfeited to the Board of School Trustees. The Board of School Trustees do not bind themselves to accept the lowest or any tender. A separate tender is required for the heating and ventilating system. Drawings and specifications may be seen at the office of the undersigned.

REV. E. D. McLAUREN, D. D., Superintendent. 1567 Pendrell Street, VANCOUVER, B. C.

Business men who advertise are at least enterprising. They want money to let you know they want your trade. And when business men say they want your trade they will try to satisfy those who trade with them.

FORT FRASER, B. C.

The Garden Spot of Canada is to Be Found in the Interior Along the G. T. P.

(By Leonard Barclay.)

One of the pressing needs of a new country such as British Columbia is to have agricultural development keep pace with the growth of the urban districts. That this feature of development has been somewhat neglected in the past is becoming more apparent every day, for there is a continual protest about the lack of home-grown produce and the consequent importation of the necessities of life from countries abroad and to the south of the line.

This feature in the work of building up a country such as British Columbia has recently attracted attention to the Fort Fraser district, where conditions are perfect for the settlement of a large farming population. Those who have investigated the opportunities available in that favored spot feel convinced that the Fort Fraser district will become one of the largest producers of grain, cattle and vegetables in the northern country.

In the Fort Fraser district, which is now attracting investors, however, the price of land is indeed moderate compared with other districts on the coast, and thus it is to the Fort Fraser district that those who pin their hopes on British Columbia becoming self-supporting in agriculture are turning their attention. The district offers a splendid chance to demonstrate that this province is not exclusively a mining and timbering country, and as Fort Fraser is making good as a centre for the much needed growth of produce, it will encourage people in other parts of the province to look around and follow the lead.

Thus Fort Fraser has an opportunity to lead the way in the new movement, for there is no doubt that public attention is now turning to the land after years of acceptance of the idea that mining, lumbering and fishing were our only means of development.

The years to come will undoubtedly reveal the country to be the hope of the province. Each month brings us revelations as to wonderful valleys, rivers and ranges and the completion of the G. T. P. will serve to make investigation easy. Fort Fraser is a new settlement. Named after that hardy explorer, Simon Fraser, it was originally started as a trading post of the Hudson's Bay Company, and the reason that the Honorable Company of Gentlemen Adventurers settled on Fort Fraser as a post was because it was naturally suited for such a purpose and, indeed, had been so used by the Indians before the coming of the white man. Soon the rush and roar of the transcontinental will wake the echoes where once the silent children of the forest traded with the hardy brigade men of the Hudson's Bay Company. One of the features of western development is the growth of old trading posts into thriving cities and the long lists of "forts" which have become big communities—commencing with old Fort Garry, now Winnipeg—will soon include the name of Fort Fraser. Indeed the tide of northern development has already reached that favored spot swept by the waters of the Nechaco, and a thriving settlement is established.

"If the luxuries of the wild vegetation offers any criterion, then farming in this territory presents incalculably attractive possibilities," writes Mr. T. A. Talbot in his book, *The New Garden of Canada*, a work, by the way, which is recognized as a standard treatise. "The natural grasses," he goes on, "grow to a tropical height and density. Sugar cane grass at seven feet high, red top at six feet, and timothy topping five feet, were quite common."

Speaking of the soil Mr. Talbot says, "The Nechaco Valley proper is in reality an old lake bed. The soil is a thick deposit of silt, in some places running to 40 feet in depth with clayey subsoil. The silt is freely impregnated with thoroughly decomposed vegetable substance. The rainfall is just sufficient to stimulate growth to perfection, the temperature is equable and the climate is about the same as that of Central Europe, which is only natural seeing that the latitude is about the same as that of the south of England."

The work of railroad construction has done much towards the establishing of a substantial little town at Fort Fraser and already there are government land and revenue offices, post office, telegraph and telephone stations, bank, drug store, department store, livery stable, brickyard, sawmill, pool-room and several business houses. The old proverb about the proof of the pudding is one that carries a good deal of weight in Fort Fraser, for here is a district where one sees results. Those who have taken up land in the splendid districts surrounding the town have been delighted with the results of their labor. Farming is not only practicable, but it is easy and the most encouraging demonstrations have been brought about. Thus the success of the district has been established beyond all doubt, and the beauty of it is that there is room for a huge population. The splendid country is large enough to accommodate a large farming community and there is a steady flow of back-to-the-landers into the district.

"JULIUS CAESAR."

In private life Miss Constance Ollier, the distinguished English actress to be seen here with William Faversham in "Julius Caesar" at the Victoria Theatre on Monday evening, October 13, is the wife of Julian L'Estrange, the strikingly handsome English actor who has played in this country under the Frohman management for several seasons. Both she and her husband played the leading roles in the production of "Thais" made in the east two seasons ago.

GAIETY OF HOME RULE CAMPAIGN

Sketches of the leading Unionists identified with Ulster provisional government or Ulster committee organized to oppose Home Rule bill by threatening rebellion. Their opponents refer to their incipient disloyalty as Ulster hysteria.

MORGAN LEFT MORE THAN HUNDRED MILLION

The Estate Pays \$2,500,000 Preliminary Tax on \$65,000,000

The late J. Pierpont Morgan left an estate of more than \$100,000,000. This was disclosed when Carter, Ledyard & Milburn, attorneys for the executors, sent a cheque for \$2,500,000 to the state comptroller at Albany in payment of the preliminary transfer tax.

The payment of \$2,500,000 represents a tax of from 1 to 4 per cent. on property worth about \$65,000,000. It was learned that the Morgan art collections are not included in assets of the estate on which the tax was paid, nor is the value of Mr. Morgan's good-will in J. P. Morgan & Co. included. It represents tangible property exclusively, and consists chiefly of securities, the value of which could be determined without the necessity of making an appraisal of the estate.

Art Worth \$50,000,000. Mr. Morgan's art collections have been valued at \$50,000,000, and they were insured recently for \$25,000,000. The value of the art objects alone will bring the total estate above \$100,000,000, while it is believed that the appraisal of the good-will of J. P. Morgan & Co. will be fixed at several millions, unless, as has been intimated, there is a partnership agreement providing for the continuance of the good-will with the surviving partners. The courts have held that in such a case no value passes to the estate of the deceased partner, and for this reason the good-will cannot be taxed.

Now that the preliminary payment has been made and the estate has won a deduction of \$125,000 from the tax because of the 5 per cent. rebate, it is understood that no application will be made in the Surrogate's Court for the appointment of an appraiser until after J. Pierpont Morgan's return from Europe, and until he has decided as to the disposition of all the works of art left to him by his father.

By the terms of the bill introduced in the legislature, which was passed later and was signed by the governor, the Morgan art collection is exempt from tax if it is left for the benefit of the public.

More Bonds Than Realty.

The \$65,000,000 of assets on which the preliminary tax of \$2,500,000 was paid, includes Mr. Morgan's real estate, but his holdings were not extensive, and it will be found when the appraisal is made public that the value of the securities in the Morgan estate exceeds the stock and bond holdings in the estate of John Jacob Astor and E. B.

Harriman estates, which have set the high mark up to the present time. The bulk of the \$2,500,000 tax is paid on the bequests to J. Pierpont Morgan and his three sisters, Mrs. William P. Hamilton, Mrs. Herbert L. Satterlee and Miss Anne Morgan. The highest rate of tax, 4 per cent., is not effective unless the bequest is more than \$1,200,000. The son and three daughters get \$3,000,000 each, and more than half of this total of \$12,000,000 is taxed at 4 per cent., and the rest at from 1 to 2 per cent. The bulk of the residuary bequest to the son is taxed at 4 per cent., but the remainder of the \$16,565,000, constituting the twenty direct bequests in the will, is taxed at less than 4 per cent.

LUSTROUS HAIR FOR WOMEN

Parisian Sage Starts Hair Growing and Increases Its Abundance.

No Poisonous Sugar of Lead or Sulphur in Delightful, Refreshing Parisian Sage

If you haven't enjoyed the marvelous benefit derived from using refreshing PARISIAN SAGE, the modern, hair grower, beautifier and dandruff remedy, you have missed a real treat.

Every woman should use PARISIAN SAGE not only to banish dandruff and other head troubles, but to prevent falling hair, baldness, grayness, and faded hair. PARISIAN SAGE puts life and lustre into any person's hair. It keeps the scalp and hair immaculately clean, and causes the hair to come in thick and abundant.

PARISIAN SAGE is not a dye. It does not contain a particle of poisonous lead to discolor the hair or any injurious ingredient.

Get a bottle to-day. It only costs half a dollar and is sold at drug stores and toilet counters everywhere. D. E. Campbell guarantees it.

PHILANTHROPIST.

A curious incident happened to me recently at a corner street (says a Glasgow News correspondent). I was approached by a seedy-looking individual, who begged me to "lend" him a farthing to enable him to make up the price of a "dinner Newies." I thought the request rather original, and gave him a penny. He thereupon handed me an envelope, which I discovered contained a P.O. for sixpence. I looked around for the "millionaire," but he had gone. There was no advertisement or writing of any kind on the envelope, so I conclude it must be some philanthropist who is thus testing the liberality of the Glasgow public.

SIDNEY OLCOTT AS HYPNOTIST

Remarkable Characterization Depicted on Kinemacolor Screen by Former Kalem Star

To-day, at the Kinemacolor Theatre, Sidney Olcott, Gene Gauntier and Jack Clark, all former stars of the well-known Kalem Co. and later directors and producers of "From the Manager to the Cross," which is conceded by all a rare masterpiece of art, are seen in an extraordinary photoplay entitled, "In the Power of a Hypnotist," which, although a slight departure, will be certain to prove, at their capable hands, a novel production embracing all the necessary qualities for keen entertainment.

DO YOU BELIEVE IN HYPNOTISM? A Silent, Invisible Force That Moves One Person to Do the Bidding of Another?

In this very exciting story, Gondora, a professional hypnotist, holds captive the mind of his daughter, Majorie, from the time she is a mere child until she has grown to womanhood. Targod, fathered and driven out of town, leaves behind his little child to be adopted into the family of Judge White, he returns after many years to reassert his complete mastery over her inner mind.

Majorie obeys his suggestions without question, and steals from her foster-father, Judge White, who employs Drew, a famous detective, to run down the thief. Drew falls in love with beautiful Majorie, and withdraws from the case when he becomes convinced that she is the thief.

EXCITING SCENES IN NEW YORK THEATRE.

Stronger and stronger grows Gondora's power over Majorie. Theft follows theft, culminating in the robbery of Jewels from a wealthy countess. Majorie and the hypnotist disappear completely, and Drew, at last suspecting the truth, begins a world-wide search for them.

The closing scenes occur in a great New York theatre. Drew and Judge White from their seats, see the curtain rise on Gondora and Majorie in an Egyptian mystic act. In the midst of his incantations the hypnotist expires. Majorie, terror stricken, swoons in the arms of Judge White, who has rushed to her side. Her father's death has broken the spell, and she is again the sweet young girl Drew had learned to love. Miss Gauntier is truly wonderful in her leading role.

The Topical Budget brings the latest news from all parts of the world, and Kinemacolor presents a splendid western comedy in two reels entitled, "The Note in the Shirt."

RURI-DECANAL MEETING.

Rural Dean Presides and Archdeacon Scriven Gives Address on "Intercession." Bishop of Columbia Holds Consultation.

The Ruri-Decanal Chapter of the Southern Deanery of the Diocese of Columbia, comprising all the parishes in Victoria and the district, was held on Wednesday, October 1, at St. Barnabas Church, rectory. The Rural Dean, Rev. W. Haugh Allen, of St. Paul's Church, Esquimalt, presided, and the Venerable the Archdeacon gave the opening office, and an address on "Intercession," which was much appreciated by those present. Owing to the illness of the Rev. W. H. Dawe his paper on "The Visitation of the Sick" was held over, but a very profitable discussion took place on that subject among the members present.

Mrs. E. G. Miller and several of the ladies of the parish entertained the clergy at luncheon, at which time the Lord Bishop joined the company, and after luncheon held a consultation with his clergy on several minor matters. The meeting was adjourned to meet again on Tuesday, October 21, in the Synod office, Cumberland block.

COMING TO CITY.

Sir Lyman M. Jones, Head of Massey-Harris Company, is Touring With Fellow Directors.

The city will welcome one of the great industrial leaders of Ontario in November, when Sir Lyman M. Jones, president of the Massey-Harris Company, with several fellow directors, pays a visit to Victoria on a western tour.

Sir Lyman Jones has been a member of the Senate since 1901, and was knighted in 1911. His business associations have been principally with Brantford, Winnipeg and Toronto. During the time he was in Winnipeg as western manager of Harris, Son & Company, he was an alderman of the city, and mayor in 1887 and 1888 and treasurer in the Greenway administration in 1889.

After returning to Toronto subsequent to the formation of the Massey-Harris Company, Sir Lyman entered into the business life of the community, and holds a number of directorships, including that of the Canadian Bank of Commerce. He was one of the invited guests to the Coronation of King Edward VII.

DON'T KNOW THEY HAVE APPENDICITIS

Many Victoria people who have chronic appendicitis, which is not very painful, have doctored for years for constipation, sour stomach or gas, and Douglas's Compound, which is a simple buckthorn bark, glycerine, etc., as compounded in Adler's-I-Ka, the remedy which became famous by curing appendicitis, they will be surprised at the INSTANT benefit.

Drink Schlitz in Brown Bottles

Read what two eminent scientists have to say about light and its effect on beer in light glass bottles.

"In recent years the observation has been made that the rays of sunlight effect a chemical change in beer. For this reason the use of beer bottles blown from colorless glass is diminishing. Bottles blown from colored glass, being chosen; the amber colored bottles, which, when held towards the light, show the color of light beer, are particularly to be recommended."

Extract from *Die Praxis der Bierbrauerei*, Published by G. E. Habich, 1883—page 786.

"It appears that chemical changes are produced in the beer, which attains an exceedingly unpleasant taste and a disagreeable odor."

Extract from *Lecture on Brewing* (Vol. 5) published by Hants' Brewers' School and Laboratories, Dr. G. Thevenot.

Schlitz, when poured into your glass, is wholesome and pure as a crystal spring.

See that crown or cork is branded "Schlitz."

Anderson's Bay Co., Distributors, Victoria, B. C.

Schlitz
The Beer That Made Milwaukee Famous.

HARMONY vs. Discord

HARMONY is the arrangement of a piano saleroom plays an equally important role in the making of a sale as harmony in the instrument to be sold.

When the prospective customer is protected from discordant, jarring notes, and the general appearance of a show room is suggestive of luxury and refinement, the salesman's work is simplified.

To the average purchaser of a piano, the transaction is one of the utmost importance. Most people consider it an event in their lives. They are sensitive to the slightest incongruity in their surroundings when making the final decision, and many a sale has been lost through the mere presence of an un-

slightly packing case on the floor, which should have been stored elsewhere.

The installation of an Otis-Fensom Freight Elevator enables the piano dealer to keep his selling space free from the intrusion of discordant influences. The upper floors may be used as store rooms and repair shops, while the danger of scratching or otherwise marring instruments is reduced to a minimum.

An Otis-Fensom Freight Elevator makes possible the use of the regular line shaft power, or, if line shaft power is not available, we can supply a single belt type of elevator with an independent motor. This, in view of the prevailing low rates for electric power, makes a most desirable and profitable investment.

Our free booklet, "Freight Elevators and Their Uses," will furnish the desired information relative to the advantages of an elevator in any line of business. Write for it TODAY. Don't get it cold until some other time—simply fill in this coupon and mail NOW, while the thought is fresh in your mind!

EASTERN CANADIAN LETTER

BY B. B. COOKE

Toronto, Oct. 2.—Two Toronto journalists have set out upon the titanic task of taking the Canadian navy out of politics. Their names are John Cooper and Arthur Hawkes. Both have written about the navy, have dabbled more or less in politics and have now arranged to hold meetings at which the question of hoisting the jingoism of Canadian politics into some sort of a non-partisan heaven is to be thrashed out. One meeting has already been held in the town of Newmarket. It is said to have been quite a success. From being indifferent to the project of the so-called "Canadian League," the Cooper-Hawkes team call their organization, people in the East are beginning to display more interest in the project, though not enough to cause the party organizers any uneasiness. It is said that a meeting of the four leading Conservatives in Toronto district was informally called in the York Club the day after the Newmarket meeting, and that already some small overtures have been made the two speakers to ally themselves with one party or the other.

John Cooper is a short, terse, blunt and energetic editor of a Canadian weekly paper which until the last year or so has had a hard up-hill fight to keep alive. Years ago he was an active daily newspaperman. Later he became associated with trade papers. Before getting into weekly journalism he edited the Canadian Magazine. The characteristics of the man are energy and bluntness. The one to some extent reduces the value of the other, rather handicaps the man's work. He is intensely earnest and remarkable for a sort of dogged sincerity. For many years this man's tenacity of purpose has enabled him to sustain enterprises which in those earlier days of Canadian journalism might otherwise have failed. He has been a carrier of heavy weights and has developed staying powers of a strong man. It is only recently that the strain of business has sufficiently relaxed to allow this interesting Canadian to indulge in public speaking. It was inevitable that when the time should come, as it has, his course should have been absolutely independent of either party.

Arthur Hawkes is an Englishman who was formerly right hand man to the late W. T. Stead. Hawkes is probably the most prolific writer in Canada, if indeed he has an equal anywhere in the British Empire. He is known Canada and written of Canadian development in the West for a great many years. He was formerly editor of the Toronto World, then publicity manager for the Canadian Northern Railway, and later undertook to publish a weekly newspaper addressed to the British-born in Canada. He was the man who rendered the Conservative party great aid throughout Ontario in the reciprocity campaign by making speeches in certain constituencies where there were large numbers of Old Country people. These speeches were extremely effective, and it is generally supposed that the government asked Hawkes to make a report on "immigration" as a reward for services rendered. Hawkes's report was no casual affair. It did not respect the agreeable habits into which Canada's immigration department ap-

pears to have fallen, and is said to have offended certain persons in high authority. He had difficulty in getting it published. Since then until the present he has confined himself to getting out his paper and writing articles for English reviews. Like Cooper, Hawkes is of an independent turn of mind, and has great faith in his own judgment. He has been regarded as a Conservative and Cooper as a Liberal until they were brought together recently through correspondence.

Cooper's paper and Hawkes's speeches may bring about changes in the political situation, so far at least as the navy question goes. Both are effective instruments. The only trouble is, according to the views of persons who wish the Canadian League and its leaders well, that they after all are not proposing any real way out of the difficulty, and that no matter how much people may reiterate their wish to see the question taken out of politics, they will fight promptly when it comes to choosing a method. Neither Cooper nor Hawkes has a compelling personality. There is nothing heroic in their make-up, but they are earnest and disinterested men advocating what is desirable however difficult it may be to accomplish.

Lord Northcliffe in Toronto.

Eastern newspapers are not a little ruffled since Lord Northcliffe delivered his address to the Toronto Canadian Club on the subject of "Newspapers." It was really not the address itself that caught their feelings with such an unkind jerk, but it was an aftermath—an interview sent out after Lord Northcliffe had returned to his hotel from the luncheon and had had time to think of an episode which he had experienced in the morning. The address at the luncheon was an altogether impromptu and purely complimentary affair. He called Toronto the "best newspapered city in the Empire," and declared himself abashed in the presence of editors who were "world famous." He said his audience would be the more critical because it consisted of "trained readers" accustomed to the perusal of six splendid daily papers.

This was at the luncheon. After luncheon came the real opinion from the real Lord Northcliffe, no flowing sentences and full periods, but crisp, cut groups of words. He no longer confined himself to Toronto, but condemned all Canadian papers, with a hint of his utter despair of ever seeing any good thing in the American newspapers. He deplored the fact that less than two per cent. of Canadian reporters used shorthand. He lamented Canadian inaccuracy and bemoaned the habit of starting a story on the front page and continuing it on an inside page. Plainly, the biggest publisher in the Empire was aggravated.

The response of the Toronto newspapers, chiefly the Toronto Star, was prompt and pointed. It referred to the adage about dwellers in glass houses. It pointed out Lord Northcliffe's own slips from pure English into slang. It asked what use a shorthand reporter would be in writing up some great dramatic event. It defended the Canadian press vigorously. Meantime the Toronto News, edited by Sir John Wilson, the Canadian correspondent of the Times, rallied to Lord Northcliffe's support, but to little purpose.

It now transpires that what may have caused the great publisher's sudden change of opinion was an experience with two reporters to whom, just before luncheon, he was reading the manuscript of his speech. He is said to have offered the men money if they would see that his speech was correctly reported. Some misunderstanding arose as to just what the big publisher did mean. The reporters refused the money with probably less respect than the big proprietor was accustomed to receive, with the result that he was offended, and although he delivered his speech as it had been written, took occasion to add to it or revise it upon his return from the luncheon. Except for this no other explanation for the sudden reversal of the pleasant things he had said of Canadian papers and writers is offered.

Discussion in the C.M.A.

The President Gourlay, of the Cana-

dian Manufacturers' Association, who dealt with the tariff when he made his stirring address at Halifax, was by no means in good humor when he returned to Toronto to find what some of the manufacturers had been saying to the local newspapers about his speech, and particularly with reference to his comment on the wool and iron-steel sections of the tariff. Mr. Gourlay at once set about righting matters by sending letters to the papers explaining that he had not asked for an increase in tariff in so many words, but had only suggested that "something should be done." His letters have not cleared the air. Those who oppose his point of view insist that "something" meant tariff increase whether he said so or not, and consequently they continue to be offended.

The matter boils down to a dispute between a primary industry and a secondary industry. That is between the woolen manufacturers and the makers of pig-iron and large pieces of steel on the one, and the clothing makers and hardware makers on the other hand. The primary industry deals with what is raw material to the secondary industry. Increased protection for the former would mean increased cost of raw material for the latter. It so happens that, in the case of woolen and clothing anyway, the secondary industry has far outgrown the primary industry. Mr. Gourlay has no longer his office to consider, but he is acutely anxious to avoid appearing to favor one section of the manufacturing interests over the other.

WHAT KEPT YE?

A new fadman, whose hours of duty were supposed to terminate at 7 o'clock (says the Argonaut), had been stationed at a crossing which the limited was timed to pass at 6:58. On this particular night the train was late. At about twelve minutes past the hour the stationmaster heard it in the distance, and planted himself, red lantern in hand, in the middle of the track of the limited. The engineer was trying to make up lost time, and the train was speeding, but he brought it to a standstill at the first wave of the red light. He jumped off his engine and ran ahead to find out why he had been signalled. "What made you signal?" he demanded angrily, seeing no evidence of danger. "What kept ye?" was the angry retort.

IF CHILD IS CROSS, FEVERISH AND SICK

Look, Mother! If tongue is coated give "California" Syrup of Figs.

Children love this "fruit laxative," and nothing else cleanses the tender stomach, liver and bowels so nicely. A child simply will not stop playing to empty the bowels, and the result is, they become tightly clogged with waste, liver gets sluggish, stomach sour, then your little one becomes cross, half-sick, feverish, don't eat, sleep or act naturally, breath is bad, system full of cold, has sore throat, stomach-ache or diarrhoea. Listen, Mother! See if tongue is coated, then give a teaspoonful of "California" Syrup of Figs, and in a few hours all the constipated waste, sour bile and undigested food passes out of the system, and you have a well, playful child again.

Millions of mothers give "California" Syrup of Figs because it is perfectly harmless; children love it, and it never fails to act on the stomach, liver and bowels. Ask your druggist for a 50-cent bottle of "California" Syrup of Figs, which has full directions for babies, children of all ages and for grown-ups plainly printed on the bottle. Beware of counterfeits sold here. Get the genuine, made by "California" Fig Syrup Company. Refuse any other kind with contempt.

"Nap" Root Compositions are fire-proof and add years to the life of an old roof. See Newton & Greer Co., 2326 West Street.

OUR LETTER BOX

NON-MILITANT, BUT FIERY.

To the Editor:—The Colonist refuses to print an account of the proceedings of the Victoria Political Equality League, which is non-militant. Is there no method then of gaining access to its saintly columns other than by hurling brick-bats through plate-glass windows? English suffragettes, after fifty years' peaceful propaganda, can only gain press recognition by breaking things; which, along with its fox and hare hunting, is yet another instance of British fair play?

One would have thought that the Colonist would be glad of material to help fill the vacuity of its columns caused by Mr. Richard McBride being out of the country.

BLACKBERRIES.

COOKE PIPE CONTRACT.

To the Editor:—Up to the present we have refrained from explaining our position in regard to our tender for the fabrication and laying of the steel pipe from Humboldt to Victoria, but there are several points which we believe should be known to the public. Proposals or tenders were called for this work, and we were advised that a proposal to do some of the work on a cost plus a fixed sum basis would be considered. Accordingly our engineer, Mr. Mulhead, after careful calculations submitted a proposal on the following basis, viz.: "To do all the excavation and back-filling and incidental work thereon at a straight contract price, and the fabrication and laying of the pipe on a cost plus fixed sum basis." This proposal was accepted with the others, opened, and accepted for the time being as regular.

Later, however, we were advised by the council that our tender was irregular, and we then claimed the right to add a reasonable contractor's profit to the items dealing with the fabrication and laying of the steel pipe, the result being that we wrote the council to this effect and offering to do the whole work on a straight contract. Even then our figures were lower than the lowest tender, and we would point out that on this revised tender we were associated with Messrs. Gray, Bullen and Evans, Coleman & Evans.

As a strictly local firm we would point out that not only do we purchase all our supplies here, but the salaries of our officials and foremen are spent here, and in this contract, these facts ought to weigh very heavily in deciding who is to do the work. On the other hand if the work goes to an outside firm it is almost a certainty that all officials and foremen will be brought in from outside places, and more than likely supplies, although bought in Victoria will be supplied by outside firms, and in addition the salaries paid to officials and foremen, and the profits accruing from the execution of the contract will all go to the outside and be spent there.

Now, sir, we ask whether this is what the citizens of Victoria expect when the whole of this work can be done here, not only being financed by local capital, but all the business contingent to this work being kept amongst our own citizens and merchants?

JONES & RANT, LTD.

CONTRAVENTION OF THE HEALTH BY-LAW.

To the Editor:—I observe in the local news that Mr. T. Mould has been summoned for slaughtering a beast on his premises at Maywood, in contravention of the sanitary by-law of Saanich. I know of many who purchase cattle and sheep and are in the habit of supplying the local butchers with the meat. Now, I would ask in the name of common sense, why the municipality of Victoria do not build a public market and abattoir where anyone could slaughter animals for consumption. I have on two previous occasions suggested through the medium of the press the advisability of introducing a public market and abattoir in conjunction with same, and am quite certain we should then see the cost of living reduced, as the producer would be able to kill his own stock and place it on the market at about two-thirds of the price we have to pay to-day. One can scarcely realize that

a city like Victoria, with a population of 40,000 people, has no farmers' market or abattoir. It looks very much like there were some big meat interests who do not wish to see the small butcher doing business in Victoria and suburbs, unless they purchase the carcasses first from the wholesale butcher, which would leave the retail man very little profit. I have been informed on good authority that there are local men who would import both cattle and sheep if there were conveniences for putting them on the market, and I think it is the duty of the citizens of Victoria at the next municipal election to put in office men who would see to it that we have both a public market and abattoir. Then we should hear less of the high cost of living.

JOSEPH H. LIST.

THE HUMAN PROCESSION

Among the thousands of subjects of English kings and queens who have been given the right to prefix "Sir" in front of their names, there has been just one native of Milwaukee. Sir Thomas George Shaughnessy, the Canadian Pacific railway magnate, was born in the Wisconsin metropolis sixty years ago to-day, Oct. 6, 1853. His parents were Irish, in itself a novel circumstance, as Irish ancestors have never been very prevalent in Milwaukee. Thomas George had only a common school education, and at fifteen left the schoolroom to become an office boy in the purchasing department of the Chicago, Milwaukee & St. Paul railway. He applied himself industriously to his tasks, and made a close study of the workings of the department in which he was employed, with the result that at twenty-five he was made general storekeeper of the road. He continued in that capacity until 1882, and in the meantime married Elizabeth Bridget Nagle, of Milwaukee.

It was just thirty-one years ago this month that the young Irishman began his connection with the Canadian Pacific railway, an affiliation that was to win for him fame and fortune, the presidency of a great transcontinental railway system, and the honor of knighthood. The Canadian Pacific was then under construction. Hostility and distrust at home and abroad, with a consequent inability to obtain sufficient funds, had from the first hindered the project, and the affairs of the company were in a critical state. Young Shaughnessy was given the position of general purchasing agent, with tremendous responsibilities and very small pay, as measured by the present standards of remuneration. Upon the completion of the road he was made assistant general manager, and in 1888 he was elevated to the post of assistant to the president. His next step was into the vice-presidency, and in 1890 he became president, and ushered in an era of extensions and improvements that spread C.P. rails all over the new west. He became Sir Thomas in 1901 when he was knighted by Queen Victoria, and in 1909 he was made a Knight Commander of the Royal Victorian Order.

George Westinghouse, who has accomplished marvels in making electricity, water, steam and air the servants of humanity, was born sixty-seven years ago to-day at Central Bridge, Schoharie county, N. Y. From his youth he was gifted with a genius for mechanics, and at fifteen, while employed in his father's little machine shop in Schenectady, he invented a rotary engine. After serving in the civil war he turned his attention to inventing an automatic air brake and other safety devices for railroads. His first air brake was a crude affair, and in operation it sometimes resulted in the rear cars buckling into those in front. The principle was correct, however, and Westinghouse soon brought his invention to the point where it was vastly superior to the old-fashioned hand brakes. The inventor wrote to Commodore Vanderbilt, describing his brake and asking for a test, but that magnate returned the letter with a line scribbled across the bottom, reading, "I have no time to waste on fools." J. Cassatt, of the Pennsylvania, was wiser, and not only "wasted" some of his time on the "fool," but advanced money to enable Westinghouse to further improve his brake. Such was the beginning of the career of the inventor whose corporations now have vast plants in the United States, Canada, England, France, Germany, Austria and Italy.

The Hand That Moves The Lever Saves 162-3 Per Cent. of Your Coal Bill

Here is the opportunity for the housewife to deal the high cost of living question a hard jolt without any effort on her part.

The way is to make sure that her new range is controlled by a Gurney Economizer, which will save 1 ton of coal in every 6 burned in an ordinary range.

The Economizer is to the stove what the control lever is to the engine or automobile. Without control neither is efficient.

With the Gurney Economizer it is possible to quickly vary the heat of the oven. Various foods require different temperatures. The Economizer keeps this desired temperature absolutely uniform.

It also means that when cooking is over, you may have a cool kitchen and still have your fire going—while you can have the fiercest heat in a few minutes by a slight pressure on the lever.

If you possess a Gurney-Oxford your advantages are innumerable. The Divided Flue means heat for every hole on the stove. The New Special Grate guards the lowest fire. The Broiler exposes every inch of the coals.

These features are exclusively "Gurney-Oxford."

It will furnish your kitchen handsomely—it will do your work adequately.

CIVIC NOTICE.

Re Municipal Election, 1914.

The attention of persons desiring to qualify as "HOUSEHOLDERS" or "VOTERS OF RESIDENCE" is called to the Municipal Election to be held on the 2nd Thursday of January, 1914, is drawn to Section 5 of the "Municipal Elections Act," which provides that "in the case of the holder of a Trade License, or in the case of a Householder, he, or she, shall, during the month of October, in each year, make and cause to be attested to the Clerk of the Municipality, a Statutory Declaration made and subscribed before a Supreme or County Court Judge, Stipendiary or Police Magistrate, Commissioner for taking affidavits in the Supreme Court, Justice of the Peace, or Notary Public, or Municipal Clerk, in form, and to the effect of Form 1 in the schedule of the said Act in the case of the holder of a trade license, and of Form 2 in said schedule in the case of a householder."

"HOUSEHOLDER" shall extend to and include any person of the full age of 21 years who occupies a dwelling, tenement, hotel or boarding house, who has been a resident in the Municipality from the first day of January of the current year, and who shall, unless exempted by the provisions of the proviso to the said section (127) of Section 53 of the Municipal Act (which exempts certified efficient militiamen and persons over the age of 50 years from paying land tax) have paid directly to the Municipality all rates, taxes or assessments, which are not charged on land, which rates, taxes or assessments so paid shall amount to not less than two dollars, due to the municipality for the current year, other than water rates or taxes, or license fees for dogs."

Section 5 further provides that "no person who is not a British subject shall have his name placed upon any Municipal list of voters, nor shall such persons be allowed to vote at any municipal election in this Province."

Section 4 also states that No Chinese, Japanese, or other Asiatics or Indians, shall be entitled to vote at any Municipal election for the election of Mayor or Alderman."

Form of declaration may be obtained and the necessary declarations made at the office of the City Assessor, second floor, City Hall, Douglas Street.

WILLIAM J. DOWLER.

DOUGLAS LORNE MCGIBBON

Finding Out What's in the Back of a Man's Own Head.

It takes some men a good while to find out what's tucked away behind their own ears. Such men are usually long-headed. D. Lorne McGibbon is that kind of man. At the age of 43 he has found out enough of what's in the back of his head to know that there's considerably more in his mental make-up than he ever dreamed of discovering.

Paying \$250,000 for the Montreal Herald is the latest visible phase of this self-discovery. Two years ago he had no more notion of buying a newspaper than he had of discovering a new element in chemistry. Rather expensive this. Besides, it's a game that other millionaires have played in various parts of the world, sometimes with remarkable success. Now and then a millionaire makes money out of a newspaper. Sometimes, as in the case of Lord Northcliffe, and Sir Hugh Graham, a man makes all his money out of his papers. But when McGibbon bought the Herald he was shrewdly experienced enough to know that he needn't expect to get his money back for a very long while, because running a newspaper costs more according to output and revenue than any other business under the sun.

The precise reason why McGibbon bought the Herald he will not doubt find out as he goes along. Partly political, perhaps, but the Herald was a Liberal paper and McGibbon never was a Liberal. Power? A man who owns and to some extent controls a big newspaper has a power that few mere millionaires possess. And McGibbon was never regarded as a man who would turn down a chance to increase his reasonable leverage over as many people as possible, quite regardless of how much might be in it.

It happens too that a newspaper is the sort of thing that can't easily be consolidated with anything else. McGibbon has spent a good part of his life in consolidation. To the average man that's a dark science. To D. Lorne a good deal like second nature. In a variety of ways I have heard this energetic financier express what he is aiming to get out of life. Not mainly money or financial prestige. As he says,

"It's easy enough to make money." A good many million people are ready to fill out coupons to find out why it is so easy. The trouble is that large numbers of people want to do it without hard work. McGibbon has always been a great worker. He's one of the hardest men in Montreal to corral for a leisurely chat. Somebody is always wanting his time. Sometimes there's no money in it. If it were always a case of making money out of his time McGibbon would be a good deal like some other millionaires, not worth writing about.

Once upon a time money was the main thing to him, as it is to most young men starting into business. Born in Montreal, he knocked about a good bit before he settled down to the game that has put him among the men who do big things a good deal of the time. He was in the insurance business in Montreal and in the coal and wood business in St. Paul, Minn., before he drifted further west and took a job storekeeping for a trader in Medicine Hat. Here he swapped goods for skins to the trappers and the Indians quite a few years before he found out that there was no reason why he should always work on salary for a monopolist. His boss had a monopoly. The general manager went in to break it. He set up a rival concern across the street and cornered the major part of the trade.

Before money-making became a general pastime on the prairies, however, McGibbon went east again to be purchasing agent for the Laurentide Pulp and Paper Company, of which Sir William Van Horne was president, as he still is. He soon became general manager. If there is anything in Lord Northcliffe's psychology about paper and pulp, the young G. M. should have got a hankering to start a newspaper from his experience handling pulp. But he didn't. He just managed pulp and paper as though he had done it all his life, instead of the vigorous

philosophies of Van Horne, and when he thought he had about exhausted the possibilities of working on salary, he packed up and went to Montreal.

It is an axiom with McGibbon that the man who is always content to earn a salary is only a fraction of a man. Since he went to Montreal he has been helping to pay salaries to a large number of other people. He built up the Canadian Rubber Company and made it the basis of a huge consolidation, of which he is now president, on the eighth floor of the Eastern Townships Bank building. He bought up the A. E. MacWhitaker Company and made it the basis of the big departmental store known as Goodwin's Limited—named after the general manager of the store. He is president of that and N. W. McConnell, of the Montreal Street Railway, is vice-president. He knew nothing about departmental stores. But it is another postulate of McGibbon's self-discovery that a man doesn't have to be in a business from the ground up to know how it should be financed into a big thing.

"Study out how to cater first of all to the population closest to the store," was his first advice to the management. "You can take care of the rest when you come to it."

Otherwise he has never interfered. He regards it as one of the main items of business to pick other men. This leads to a practical study of human nature. He believes in other men. Some capitalists don't. McGibbon has taken a fling at the power problem also in the development of the Cedar Rapids Power Company up the St. Lawrence. He has been a member of the Tramways Board in Montreal. He has dealt in real estate. Lately he sold the house in which he lived next to the Montreal Art Gallery and bought the home of the late Charles M. Lays. But he has no intention of living long in that house either. He expects to sell it at a profit, and to do most of his real living in the big stone house up at St. Agatha, where he now spends half the year next door neighbor to Sir Thomas Shaughnessy, and is regarded as a general "custos" of a large casual community. To many people his interest at St. Agatha is pretty well summed up in the consumptive sanatorium which he built in the highlands after he himself had recovered from a severe illness. This winter he will live at the Ritz-Carlton. He has no strong social ambitions, though very fond of entertaining friends in his country house. A member of several clubs, he is not a club man. He prefers solitude to a promiscuous crowd. He is an active political worker for Conservative interests.

And he is a big, breezy, much-alive man. Some day he may quit every other business but running a newspaper. But it will not be soon. He has no intention of leaving the country where he has made his money for the sake of having a good time in Europe. He is too fond of work to keep out of his way. If he were forced to be idle he might become dangerous. And the older he gets the more he comes to the conclusion that the mere activity of making money is only a preparation for bigger things. That's part of the discovery of what is in the back of his own head. McGibbon rather likes to catch himself napping and to try himself on some new enterprise. He will never rust out. With his tremendously energetic physique he will be a long while wearing out. At the age of 43 he has tried out enough things that he never anticipated to make the rest of his life seem very much worth while—if only he can keep doing something this year that he didn't do last without getting behind in the game.

And whenever he is in any doubt as to what to do or not to do in a public way, he may be able to assist himself in the business of finding what's in the back of his own head by consulting his editors. Which is sometimes what newspapers are for.

Switzerland, in proportion to its population, spends more on poor relief than any other country.

SCRAP BOOK.

Bi-Centenary of Diderot, the Great Encyclopaedist.

In the little French city of Langres, between Paris and Lyon, some of the foremost scientists, philosophers and literary men of the republic assembled on Sunday to celebrate the bi-centenary of the birth of Denis Diderot, the first and foremost of those "encyclopaedists" whose works gave so profound an impulse to the movement that resulted in the French revolution and the overthrow of the ancient despotism.

Denis Diderot was born in Langres just two centuries ago, Oct. 5, 1713. He was the son of a cutter, and was educated at the "seminars" of Langres and of the abbey of the famous literary group who later warred so bitterly on Christianity. Almost from his boyhood Diderot was a confirmed atheist, and this was a great blow to his father, who had intended him for the church. Denis was then sent to an attorney's office in Paris, but, while studying science and literature, with enthusiastic diligence, he paid scant attention to law. Cast on his own resources, Diderot made a bare living with his pen, and at one time wrote a series of sermons for a clergyman! A fertile, daring and suggestive thinker, and a bold and eloquent talker, he soon became one of the foremost figures among those Bohemians who gathered weekly around the banquet board of the Baron d'Holbach.

His "Pensées Philosophiques," published in 1746, were so bold in their attacks on the established order as to earn for the author the fear and hatred of church and state. His "Letter on the Blind," in which he first suggested the possibility of teaching the blind to read by the sense of touch, contained such radical philosophical observations as to win for Diderot the friendship of Voltaire—and three months in prison. In 1750 Diderot, in conjunction with D'Alembert, framed the plan for his monumental "Encyclopedie." Nowadays an encyclopedia is a useful but perfunctory collection of information on a wide variety of subjects. Diderot's prospectus announcing his project was a veritable bombshell. Diderot and his colleagues were denounced as an organized band of conspirators against society, bent on spreading pestilential doctrines.

For twenty years of incessant drudgery and ceaseless toil, Diderot worked on his monumental collection of human knowledge. At times he had to carry on his labors clandestinely, in defiance of the authorities. Yet he had the satisfaction of seeing the most eminent liberal thinkers of France ranging themselves under the banner of the "Encyclopedie," and calling themselves "Encyclopaedists." At the last moment, when his work of a score of years was nearing completion, and the final volumes were ready to issue from the press, the crowning humiliation was inflicted upon Diderot. The publisher, he discovered, had edited the work, striking out all passages he considered too radical, or which might be displeasing to church or state.

Diderot's income from the sale of the "Encyclopedie" averaged only about \$600 a year, yet on this he managed to live and to dispense charity to the needy. His study was a gathering place for the poor of Paris, where every one was welcome to good advice or more substantial aid.

In 1765 Diderot, through the influence of Voltaire, was the recipient of a large sum from Catherine II. of Russia, who also granted him a pension of 1,000 francs, and ordered fifty years' income paid at once. Diderot spent several months at the court of his imperial protectress, where he was treated with the greatest respect. His later years were spent in quiet and comfort, and in 1784 he died suddenly of apoplexy.

LOOKING AHEAD.

The minister was staying with a former parishioner whose second nuptials he had recently performed, he also having officiated at the first. He reminded his host of this fact, drawing attention to the bond there was between them. "Yes," said the bridegroom, "you've always married me, and," he added, with emphasis, "you always shall."—Manchester Guardian.

FIRST THINGS

The first attempt to colonize Central America was made by Christopher Columbus, who, while on his fourth and last voyage, landed on the coast of what is now Costa Rica 41 years ago to-day, October 6, 1502. The natives were at first inclined to be friendly with the Spaniards and treated them in a kindly manner. They soon became incensed at the treachery of the palefaces, however, and destroyed the small settlement which Columbus founded. Columbus, after losing a considerable number of his men and one of his ships, abandoned the attempt and sailed away to Spain. Other explorers who followed in his wake were equally unsuccessful. In 1519 the Spaniards established themselves in Panama, and in 1524 Cortes founded several settlements in Nicaragua. In 1527 the city of Guatemala was founded and about the same time Honduras was brought under Spanish rule. The aborigines of Costa Rica held out against the invaders until 1547, when Badajoz partially subdued them and built the city bearing his name Salva-

do's native capital, Chacatan, fell into the hands of the Spaniards in 1525. Scattered over Central America may now be found the ruins of many once prosperous cities built by the Spaniards.

REAL LIFE ENCOUNTER.

Death and the divorce court, those two great dividers, were recently responsible for an encounter in actual life, stranger than many that have taken place on the stage or in a novel (says the Manchester Guardian).

A gentleman, who may be called Mr. L., lost his first wife many years ago and was left with one little girl. By and by he married again, but after some years his second wife instituted divorce proceedings against him and a decree was granted. Mrs. L., who had become attached to her step-child, took charge of her. Mr. L. went abroad, where he got married a third time, and again a little girl was born to him.

The child grew up, and her parents and she paid a visit this year to Mr. L.'s native land. During a walking tour it occurred to him that he was about to pass through the town where his second wife and first-born child

were living, and he wrote to the former, said by whom he was accompanied, and begged permission to call.

This was readily and even graciously granted, and he was received, with Mrs. and Miss L., on the footing of an old friend. A pleasant afternoon, to all appearance, was spent, but strange sensations must have been experienced in a party which included the daughter of a first wife, a second wife, a third wife, her child, the father of both daughters and the husband of both wives.

THE SUPPLIANT.

Inquisitive Fare (who has parted the barely legal fare): "Er—cabman, what's the matter with your horse's front legs?"

"Cabby (hoarsely): "Not a word, sir, not a word!—He's goin' down on his knees ter ask yer fer a tip."—Sydney Bulletin.

Science should not deal in negations; it is strong in affirmations, but nothing based on abstraction ought to presume to deny outside its own region.—Sir Oliver Lodge.

Wanted!

Perfectly healthy men and women who will voluntarily submit to an experiment which may lead to temporary or permanent impairment of health, or possible death.

This experiment to be conducted with the drug, "caffeine," in tea and coffee.

Would You Apply for the Job?

Thousands are trying to experiment every day in spite of the fact that physicians and government experts have proven:

That the average cup of tea or coffee contains from 1½ to 3 grs. of caffeine;

That caffeine is attributed to be one of the principal causes of headache, biliousness, heart disease, indigestion and kidney, liver and bowel trouble;

That caffeine in doses as small as that contained in two or three average cups of tea or coffee has killed rabbits, guinea pigs and other animals in laboratory tests.

To be sure a guinea pig or a rabbit may weigh but a pound or two, while the average human may weigh 100 times as much.

A few cups of tea or coffee or a single cup (according to the resistance of the individual) will not kill, but the poison is there and can be added to day by day.

That's why so many tea and coffee drinkers suffer from headache, dizziness, indigestion and other symptoms referable to the poison effect on heart, liver, nerves, kidney and stomach.

If you know tea and coffee have no bad effect in your particular case and you like them, why, bless your heart, stick to them, but if tea and coffee drinking leaves a tell-tale mark by some symptoms of physical discomfort or peace of mind, it's a good idea to stop and use

POSTUM

This pure food-beverage, made of prime wheat and the juice of sugar-cane, makes a rich, seal-brown blend, turning to golden-brown when cream is added, which has a rich, snappy taste, but is absolutely free from the drug, "caffeine," in tea and coffee.

Postum comes in two forms. One, called Regular Postum, must be boiled full 15 minutes.

The other, Instant Postum, is in powder form and a level teaspoonful in a cup of hot water makes the beverage instantly. Grocers Keep both kinds.

BLACK, GREEN OR MIXED

CROWN DROPS CASE AGAINST O'CONNOR

Motion to Quash Indictment of
Cook and Hearn Based on
No Election

PROSECUTOR NOT READY
TO ARGUE NEW POINTS

Adjournment Gave Rise to
Question of Bail; Defence
Won Victory

If it takes as long to settle the various objections which the defence raises as it did to settle the first one to-day it may be near the end of the week before the taking of evidence begins in the assize court trial of F. C. Cook, J. O. Hearn and R. N. O'Connor on a charge of conspiracy to defraud. H. B. Robertson, crown prosecutor, announced as soon as court opened that he was not going to proceed against O'Connor, but J. C. McIntosh, O'Connor's counsel, asked that he was not prepared to accept what is known as a nolle prosequi, which permits the attorney-general to proceed again at any time.

The stay of proceedings asked by Mr. Robertson was granted, nevertheless, with Mr. McIntosh's objections noted in the order. This point is expected to be taken to the court of appeal, as O'Connor is desirous of suing for false imprisonment and is prevented unless a verdict is given.

George E. Powell, counsel for J. O. Hearn, and a spokesman for the whole defence then made application in behalf of the other two accused, O'Connor having been released, for the indictment to be quashed as the accused had never been taken before the county judge and given opportunity to elect between speedy trial and jury trial. As Mr. Robertson was not prepared to meet this objection the court was adjourned until half-past two this afternoon for him to reply.

After Mr. Justice Gregory had left the bench Mr. Robertson directed that the two accused be kept in custody as their bail was no good. J. A. Aikman, counsel for F. C. Cook, and Mr. Powell, raised strenuous objection to this, claiming that until the men were convicted the bail granted by Judge Lampman was good. The lawyers argued among themselves, but finally were compelled to go down to Mr. Justice Gregory's room and continue the argument before him. His lordship decided that, at any rate, the bail was good until they answered to the charge, which they had not done. Cook and Hearn were permitted to go home to luncheon.

If the defence wins on its motion to quash the indictment, a speedy trial will be selected, but the attorney-general has the power to refuse this afterwards. It is generally understood that the objection was merely tactical, however, to pave the way for appeal in case of conviction.

The court opened with the announcement from the sheriff that one of the jurors, Daniel J. Farmer, had been stricken with paralysis and was now in the hospital. He was excused. The clerk then called the names of the three accused, and Mr. Robertson announced that he was not going to prosecute O'Connor. The grand jury's presentment against the three men was then read, words filling three closely typewritten sheets of foolscap intimating that the three men were indicted on charges of conspiracy together and with several others, the men for whom warrants were issued but never served as the men had successfully escaped to the United States, to defraud the public in connection with the flotation and operation of the Bankers' Trust Corporation, Limited, now in liquidation, during the period from November 1, 1912, to March 19, 1913.

Before the accused entered their plea Mr. Powell stated that Mr. McIntosh had an objection to make and Mr. McIntosh asked that before decision be given on the requested stay of proceedings against O'Connor the question be reserved by his lordship as he had argument to present in favor of getting a verdict discharging the prisoner. He did not wish to argue the point now as he had only received instructions from his client this morning, when O'Connor had asked where he would stand in a suit for damages for false imprisonment. Mr. Aikman and Mr. Powell also addressed the court briefly in support of the motion.

Mr. Robertson opposed the delay, believing, from the eagerness of the other defence counsel, that they would promptly

assize judge and made two applications for adjournment, one last May and one a week ago, since the indictment had been presented. Furthermore, he said that Mr. Higgins had assured him that the defendants would take jury trial. The cases cited by defence counsel, said Mr. Robertson, all happened before the code was amended giving the attorney-general the power to bring the accused before a jury.

His lordship said that it was quite clear the accused were entitled to the privilege of election within 24 hours of commitment, but said his disposition was to adjourn the case for half an hour and let the sheriff take the accused before the county judge right away. Then if they elected for speedy trial the attorney-general could order them back before the assizes, and all would go on as before. He would not take the responsibility of quashing the indictment.

Mr. Powell said that in all the cases cited the indictment had been quashed, the suspension of its operation for a period of time had not been resorted to as proposed by his lordship.

Mr. Robertson said he was not prepared to argue the point fully and his lordship granted an adjournment until 2.30 for the point to be taken up again. Mr. Powell notified the court before adjournment that before pleading he had a number of other objections to raise on irregularities in the indictment itself. These would be raised if the present motion were decided adversely to him.

A somewhat heated argument took place among the three counsel regarding the bail when, under Mr. Robertson's orders, two provincial constables took Cook and Hearn into custody. The accused were taken to the assize court, where they were allowed their freedom until this afternoon, but the question of bail is not settled yet.

EARTHQUAKE AT NAPLES.

Naples, Oct. 6.—A strong earthquake shock occurred here at 7.20 Saturday evening. It lasted thirty seconds and was followed by another shock at 7.30. Both were undulatory and caused considerable panic, though the damage was insignificant.

Shocks occurred also in the nearby provinces, particularly Aveline, where the inhabitants abandoned their homes. In the provinces of Poggia many of the villagers are camping in the fields.

ROOSEVELT SAYS FAREWELL.

New York, Oct. 6.—Col. Roosevelt bade his friends farewell on the eve of his departure on a journey to unexplored regions of South America, at a dinner given in his honor by the Progressive National Service League and the Progressive Society of the State of New York. Addressing some 2,000 men and women who gathered in his honor at the New York Roof Garden, he declared that the progressive party would never recede from its principles.

NOW NAVAL OFFICERS SETTLED AN OLD BET

Made While Serving on H. M. S. Warspite at Esquimaux
Twenty Years Ago

Even Portsmouth, home of the navy, has never before had an opportunity of seeing an admiral and a captain run a hundred yards race, and so there was a good gathering of spectators at the officers' recreation ground when this interesting match took place, says the London Chronicle.

As stated in The Daily Chronicle, Rear-Admiral Sir Robert Arbuthnot and Captain Eric P. C. Back, flag captain to the commander-in-chief at Plymouth, once served together as lieutenants on H. M. S. Warspite on the Pacific station. They then agreed that if both were alive 20 years later, and circumstances permitted, they would run a 100 yards race for stakes of £2 a side.

The 20 years have passed, and after being separated by service in different parts of the world they now find themselves in England. Accordingly the race came off yesterday.

Both were in excellent condition in their early days, and Sir Robert Arbuthnot was known as a smart three-quarters in the naval Rugby team. That they have kept in good training was evident when they went to the starting point, for in the orthodox running shorts and vests they still looked like young athletes, though the admiral is 49 and the captain 43.

Admiral Sir Hedworth Meux, commander-in-chief at Portsmouth, who had been in command of the Warspite when the two officers served in the Pacific, was present to act as judge, and another naval officer, with a formidable looking service revolver, started the men.

A croquet tournament is in progress on the officers' ground this week, but the players deserted mallets and hoops to watch the race. Sir Robert Arbuthnot, who started from the crouching position like a true sprinter, was first away at the crack of the revolver, and led for some distance. About 40 yards from the tape, however, he suffered from some muscle trouble in his leg, and was passed by the younger officer, who won by a good yard in 12.1-4 sec.

A Daily Chronicle representative had a short chat with the two officers as they made their way to the dressing-room after facing a battery of cameras. They laughingly protested that they had not anticipated such public inter-

est in their friendly match. "It was only for £2 a side," said Captain Back. "No, there isn't even a dinner hanging on it. The Chronicle has already printed all there is to be told about the match, so I'm afraid there's no more to be said."

In this connection Victorians will recall that Sir Robert Arbuthnot, then a lieutenant, was one of the first football players on this station and played in the navy team in all their games. It may be taken for granted that Captain Back had to show unusual speed to beat him.

TO-DAY IN CANADIAN HISTORY

The battle of the Thames, fought a century ago, on October 5, 1813, was one of the shortest decisive engagements in history. General Proctor, the English commander, made his stand on the bank of the Thames, near the Moravian town, with his left on the high and precipitous bank of the river, and on his right a marsh, running almost parallel with the stream for about two miles. The space intervening was covered with woods. The 400 white troops formed two lines between a smaller swamp and the river, with their artillery planted in the road near the bank of the stream. The Indians, commanded by the great Tecumseh, assisted by the brave Chippewa chief, Oshawannah, were posted between two swamps. The enemy numbered about 3,000, composed of about 120 regulars, five brigades of Kentucky volunteers, and a regiment of cavalry under Col. Johnson, the whole force commanded by Gen. William Henry Harrison. The Americans attacked furiously, and the battle lasted only fifteen minutes. Tecumseh was slain early in the engagement, after he had offered a desperate resistance, and his followers broke and fled to the shelter of the swamp. The little force of British troops was speedily overwhelmed by the enemy, who outnumbered them nearly eight to one. Nearly all of the British troops were made prisoners, but Gen. Proctor escaped in a carriage, with his personal staff, and a few dragoons. He was shortly pursued for some distance by Johnson's horsemen, but finally eluded them and made his way to the western end of Lake Ontario. He was afterwards captured by the Prince Regent, court-martialed and deprived of his command for six months. Oshawannah, Tecumseh's lieutenant, the hero of fifteen battles, also escaped. He lived to a ripe old age, and in 1853 attended a council at Brantford, Ont., where he appeared with all his testimonials of bravery, including his star and garter, a silver band on his high hat, a silver gorget, many medals, a sash of bead-work, and strings of wampum.

The news of the capture of Detroit in the first weeks of the War of 1812, and of the surrender to General Brock of Hull and his whole army, with all the territory of Michigan, reached London on October 6; and immediately the church bells were set ringing and salutes of artillery were fired at the Tower and in St. James's Park. William Brock, the hero's elder brother, lived near the city, and when the story goes his wife asked him the reason for the joyful noise from steeped and batteries, he answered merrily: "Why, it is for Isaac, of course. You surely have not forgotten that this is his birthday!" On that day General Brock was forty-three, having been born on October 6, 1769, at St. Peter's

Campbell Bros., Suite 7, 1007 Government St., opposite Campbell's Dry Goods Store. Open all Saturday till 3.

SPEAKS IN BEHALF OF PERSIAN MISSIONS

A. E. Kochaly Addressed Meetings; Will Talk on "Persia" To-night

A. E. Kochaly, of McMaster College, Toronto, addressed the Metropolitan Brotherhood yesterday afternoon, the subject of his talk being "Mohammedanism." In his preliminary remarks Mr. Kochaly pointed out that countries to-day were not, since the discovery of the uses of steam and electricity, so sharply defined as a century ago, and the old axiom that "The laws of the Medes and the Persians cannot be altered," was no longer literally true. Persia and the rest of the world were nearer together than in the days when that saying was made. He referred to the practices of the Mohammedans, and pointed to one of the great distinctions between the religion of that country and the Christian faith, viz., the belief that women had no souls. Fast days he said, were followed by nights of feasting and drinking.

With respect to their religion, however, the Mohammedans were more than the professors of Christianity, and a people of such countries as held that faith, would make tremendous pilgrimages to Mecca. At the great International Sunday school convention held recently in Europe there had been 2,000 delegates. The city of Mecca was visited annually by more than 200,000 Mohammedans.

Evening Address. A large congregation attended the Douglas Street Baptist church last evening to hear Mr. Kochaly's address, the speaker commencing his lecture by outlining his purpose in coming to Canada, and some of his experiences and adventures in leaving his own country to come here. He emphasized throughout his remarks that the way was open to-day as it had never been before for missionaries to go into Persia and carry the Gospel, the government having become much more liberal during the last ten years. He told how the missionaries had already accomplished the conversion of many of the people, and of how one convert to Christianity had walked for 22 days to get to the capital of Persia in order to be baptized. This man, who was named Pasha, was the most neglected of all countries, as regarded missionary effort, said Mr. Kochaly. In Canada and all parts of the British Empire the average worker out at one missionary for every 500 people; in Persia there was but one missionary for every 500,000 people. In conclusion an appeal was made to those present to lend their assistance to the missionary movement which he was about to carry out in Persia on his return here next year.

Mr. Kochaly will speak this evening at the First Baptist church (old building), and to-morrow evening will speak at the Tabernacle Baptist church.

LOCAL NEWS

To Hold Dance.—The J. B. Club will hold a dance in the J. B. Club hall, Friday, October 10.

To Hold Festival.—The Rev. James Thompson, vicar of Nicola, will be the preacher at the Harvest Festival to be held at St. Barnabas' church on Thursday next at 8 p. m., when special festival music will be rendered by the choir.

Still Missing.—The police have as yet no clue as to the disappearance of Sarah Margaret Hogan, the 18-year-old daughter of Mr. and Mrs. W. F. Hogan, of Victoria West, who has been missing from her home for some days. No explanation of her absence can be offered by the friends.

Registration Closed.—To-day was the last day for the receipt of applications to put on the list of voters for the province. On account of the whole of the lists having been made up ahead in April there were not so many new names. Courts of revision for the various electoral districts will be sitting at an early date.

Tunnel is Being Driven.—The crosscut tunnel being driven by the Port Arthur Tunnel, Ltd., to intersect the Glacier Creek tunnel, reached at Stewart, Portland canal had reached a distance of 2,145 feet on October 2. For the last 100 feet or so the strata have been dry, highly altered and looked "baked." Through this band a number of little faults, or slips, occur at right angles to the strike and dip the main vein is assumed to have. The last round has opened a rather better looking sort of ground and some moisture in the back.

Connaught Dancing Club.—The first of the Connaught Dancing Club's dances will take place on Friday, October 17, this being the first of a series of six to be given during the winter as follows: October 17, November 24, December 19, January 14, February 27 and March 20. All dances will be held in the Connaught hall, View street, and the club will be under the management of Mrs. George Simpson, Miss Vera Mason and Miss Monteith. The following ladies have kindly consented to act as chaperones: Mrs. N. T. Burdick, Mrs. R. H. Pooley, Mrs.

WRIGLESWORTH.—On the 5th inst., at the Jubilee Hospital, Ida Blanche, widow of Mr. Wm. Wriglesworth, of 1024 Pembroke street, aged 81 years, died at Westview, B.C.

Funeral will take place from the residence as above on Tuesday, Oct. 7, at 2 p. m., and 15 minutes later at the Metropolitan Methodist church, Pandora avenue. Interment in Ross Bay cemetery. Friends please accept this intimation.

FOR SALE—Brown Leghorn pullets, J. West, Haultain, off Richmond, or 2309 Richmond road.

DIED. WRIGLESWORTH.—On the 5th inst., at the Jubilee Hospital, Ida Blanche, widow of Mr. Wm. Wriglesworth, of 1024 Pembroke street, aged 81 years, died at Westview, B.C.

Funeral will take place from the residence as above on Tuesday, Oct. 7, at 2 p. m., and 15 minutes later at the Metropolitan Methodist church, Pandora avenue. Interment in Ross Bay cemetery. Friends please accept this intimation.

George Courtney, Mrs. Beaumont Morgan, Mrs. J. Sturges, Mrs. W. Monteith and Mrs. L. V. York.

En Route to Japan.—Rev. Victor Spencer and Miss Florence Spencer are leaving on the Empress of Russia to take up work in the Anglican Diocese of Mid-Japan. A valedictory service will be held to-morrow evening at Christ Church cathedral followed by a reception in the school room. Bishop Roper, Rev. R. Connell and Mr. Spencer will speak on the work. Mr. and Miss Spencer leave on the following day for the Orient.

NOME DESTROYED BY SEVERE STORM

Five Hundred Houses Demolished and Others Falling; No Lives Lost

Nome, Oct. 6.—Nome has been almost destroyed by a storm. All the south side of Front street is gone. The sand spit is gone. Two miles of territory next to the sea was devastated. No lives are thought to have been lost.

The storm that raged last night, beating in from the Behring Sea, was the worst ever known here. Men and women worked all night in the icy water to save their goods and houses. The electric light system was put out of commission early in the storm. The telephone was also cut off.

The loss is estimated at a million and a half dollars. There will be much suffering, and outside help will be needed. Winter is at hand, and it will be impossible to get in supplies needed. The steamships Victoria and Corwin, which were lying in the roadstead, ran to the open sea and escaped damage.

All the small boats on the beach of the native village were destroyed. Five hundred houses have been demolished, and more are falling. The newspapers have suspended publication, there being no power with which to operate their plants.

TORONTO TO SEE RIOT IF MURDERER HANGS

Remarkable Assertion Made to Cabinet by Member of Deputation Which Urges Clemency

Ottawa, Oct. 6.—In a final effort to have Charles Gibson, of Toronto, escape the gallows, T. Herbert Lennox, K. C., and Rev. Mr. Lang arrived in Ottawa this morning, and will be joined this evening by Sir Henry M. Pallat and Rev. John MacNeill. They will remain here until the case is disposed of.

Messrs. Lennox and Laing had an interview to-day with the premier and Hon. W. T. White, and went over the defence. There will be no decision before this evening. In any event, and quite probably not before to-morrow, as the minister of justice is in Vancouver and will have to be communicated with.

The difficulty which presents itself in the case of Gibson is that it has already been decided that the law should take its course. In view of the largely signed petitions praying for the exercise of clemency, however, the matter will be gone into again. "There will be a riot in Toronto if Gibson is hanged," declared Mr. Lennox. "I have in my possession petitions with exactly 37,158 signatures, and more are on the way."

Gibson murdered a Jewish junk dealer named Rosenthal a year ago and was convicted on strong evidence.

MILLION GALLON TANK OF OIL IS IN FLAMES

San Diego, Cal., Oct. 6.—Burning at the rate of five inches an hour, the 1,000,000-gallon crude oil tank of the Standard Oil Company, which caught fire yesterday at noon, will be burning at noon to-morrow, according to present estimates. Tank after tank of naphtha, stove oil, distillate and the company's buildings, so far have been destroyed, and the loss at noon was said to be \$150,000.

By the time the fire has burned itself out, it is estimated the loss will amount to \$200,000. A tank containing 250,000 gallons of gasoline is threatened as the heat and flames from the crude oil tank are beating directly on it. Two horses have been burned to death.

MISS KENNEY RE-ARRESTED.

London, Oct. 6.—The militant suffragettes were deprived of one of their leaders, Miss Annie Kenney, who was arrested on the platform of a London music hall in the course of a meeting to-day to mark the re-commencement of hostilities. Miss Kenney was released from prison after a "hunger strike" two months ago. She was undergoing a term of eighteen months imprisonment for conspiracy. The arrest brought about a scene of wild excitement in the crowded hall.

SCOTCH FOOTBALL RESULTS.

Glasgow, Oct. 6.—Following are the results of the Scottish League football games played to-day: Dundee 4, Falkirk 1; Raith Rovers 1, Ardronians 1.

S. D. Arnold is among the newly-arrived Vancouver guests at the Strathcona hotel.

Mrs. W. L. Ball, of Sydney, Nova Scotia, has arrived in the city on a visit to her daughter, Mrs. Stuart Campbell, 1414 Clare street.

FISHERY CRUISERS COVER TEN KNOTS

Three Gasoline Boats for Coast Given Trials at Vancouver

Vancouver, Oct. 6.—The three power cruisers built at the Vancouver shipyards for the Dominion government fishery service in British Columbia were given their trial runs on Friday last. The boats are 50-footers designed with sunken pilot-houses, and their clear-out lines, cruiser sterns and their coating of battleship grey paint give them a trim and business-like appearance. They are of staunch construction, being intended for patrol work in all sorts of weather, while at the same time their power equipment and lines will enable them to do some swift cruising.

The cruisers are named the Egret, Heron and Raven. Two of the craft will patrol the west coast of Vancouver Island and the other will make Alert Bay its headquarters. They will be put into commission at an early date. Inspector Halliday of the Dominion fishery service represented the Canadian government at the trials, while Capt. W. Watts, of the Vancouver Shipyard, and E. B. Schock, the designer of the boats, officiated. The boats are equipped with 25-hp Buffalo engines and a speed of nearly ten miles an hour was clipped off on the initial trip.

The trial trip of the 45-foot power cruiser for the provincial game warden, built at the Vancouver Shipyard, was also carried out recently. The boat has been christened the Watia, the Indian name for sweetheart. She will be used for patrolling around the coast of Vancouver Island and up the northern coast. Like the fishery boats she is painted a dull grey, a la warship. The Watia spun off close to ten miles an hour on her trial trip.

BITTER CRITICISM OF PASTOR RUSSELL

Winnipeg, Man., Oct. 6.—Incensed at the idea that Pastor Russell, throughout the country in the printing of his sermons each week, the Winnipeg Ministerial Association, after listening to a scathing denunciation of Pastor Russell by Rev. G. B. Wilson, decided that the press should be notified that Pastor Russell is an unscrupulous fakir. Rev. C. W. Gordon, who presided at the meeting, said: "As a first blush it may seem undignified to pass the motion in the words of Dr. Wilson, but on second thought they are exactly the right words."

SHOT WHILE HUNTING.

Aberdeen, Wash., Oct. 6.—John Leonard, 28 years old, of this city, bartender, accidentally shot and killed himself while hunting in the woods near here yesterday. The accident occurred about five miles north of this city on the Wishkah river. In company with a companion Leonard was following an old trail when he slipped and fell, his gun being discharged.

ENGINE CREW SCALDED.

Port Arthur, Ont., Oct. 6.—As the result of a freight engine on the C. N. R. going through a culvert at Wildgoose Point, six miles east of Port Arthur, Engineer Plouffe was scalded to death by steam and Fireman Dempsey is in the hospital badly scalded. When the engine backed over the culvert the train became badly damaged. The engine snapped in the middle.

BOGUS LORD HELD.

San Francisco, Oct. 6.—Peverill Kerr, an Englishman, who registered at a prominent hotel here Friday as Lord Innes-Kerr, is held at the Angel Island Immigration station today, awaiting deportation to Australia, whence he came on the steamer Wilcocks. When arrested, Kerr had but ten cents in his pocket. His troubles began here when a cheque for \$50 he had given the hotel was declared worthless.

RUMORED REBEL SUCCESS.

Douglas, Ariz., Oct. 6.—Messages dated Hermosillo, capital of Sonora, stated to-day that the city of Sinaloa, which General Turbe attacked with 2,000 constitutionalists two days ago, had fallen. The constitutionalists entered the city yesterday. The dispatch gave no details.

RAILWAY BRIDGE BLOWN UP.

Trinidad, Colo., Oct. 6.—Report of the dynamiting of a Denver and Rio Grande Railroad bridge between Munson and Pryor, in Huerfano county, was received here to-day. The explosion took place about midnight. The bridge took fire, the blaze being extinguished by men from Pryor. The damage was slight. Traffic was not interrupted.

WEAK, TIRED AND NERVOUS MEN

should send for a valuable Pamphlet explaining how all Nervous and Organic Derangements, Varicose and its subsequent grant-to-urinary troubles can be successfully treated without the use of Stomach Medicines or Electricity. The method is easy and pleasant and will effect a perfect and permanent cure. The pamphlet is revised and in progress with the most advanced research on the subject, together with hundreds of Recent Testimonials showing successful Cures. Sent in a plain sealed envelope, post free. B. T. Norton, 19 and 20, Chancery Lane, London, England. Give 4 years continuous success. Advice free.

RE-OPENS TUESDAY, SEPT. 2ND.

Faculty of 100 specialists. Conservatory residence for young lady students. Year Book mailed on application.

EXTRACT FROM "BRITISH MEDICAL JOURNAL" March 21, 1907.

"A Most Valuable Food"

At a time when the preparation of artificial foodstuffs is receiving more attention than ever before, and when new forms of easily assimilable fat to take the place of cod liver oil are being frequently brought to the notice of the medical profession, it is desirable that some of the older forms of administering natural fats should not be lost sight of. Among natural fats, butter, easily takes first place for nutritive value, and when combined with a suitable soluble carbohydrate, a most valuable food is produced.

THE BUTTER SCOTCH which Messrs. Callard & Bowser (Duke's Road, Epsom Road, W. C.) have prepared for fifty years, is such an article, which has the great advantage of being palatable, as palatable, in fact, that children are more likely to take it than any other food. BUTTER SCOTCH is stated to contain 11.7 per cent. of fat and 73 per cent. of sugar, and the result is a candy which we have made recently of a specimen substantially confirm these figures; further chemical examination of the Butter Scotch showed it to be genuine butter fat. This confection can therefore be recommended, not only as a harmless sweetmeat, but also as a very useful addition to the diet in suitable cases. In all the principal candy stores in Victoria.

IN THE SUPREME COURT OF BRITISH COLUMBIA

In the matter of the Trustee Act and of the Supreme Court Act

In the matter of a Share Certificate of the Amalgamated Development Company for 4,000,000 shares in the name of A. F. Gwin, deposited in the Royal Bank of Canada, at Victoria, British Columbia, to the order of James Auld, D. W. Hanbury and G. M. Davis.

NOTICE is hereby given that an Order was made in Chambers on Monday, the 5th day of September, 1913, by the Honorable the Chief Justice in the following terms:

UPON the application of James Auld, David W. Hanbury and George Monarch Davis, by Originating Summons coming on for hearing on the 29th day of May, 1913, UPON hearing Mr. A. D. Craess, of Counsel for the said Applicants, and Mr. E. E. Pooley, of Counsel for the said shareholders interested in the 4,000,000 pool referred to in this application, after hearing what was alleged by Counsel and after said application was adjourned to a day to be fixed to enable all classes of claimants against the said pool to be represented and to enter into an arrangement if possible then UPON hearing Mr. T. S. Brandon, of Counsel for the Poolers or exchange certificates in the Northern Oil Company and the International Oil Company respectively, UPON hearing Mr. E. E. Pooley, of Counsel for the shareholders of shares out of the said pool to the extent of the first million and a half shares therein, UPON hearing Mr. E. E. Elliott, of Counsel as representing the holders of similar contracts of a later date and by consent.

IT IS ORDERED that the Share Certificate of the Amalgamated Development Company issued to A. F. Gwin for 4,000,000 shares may be withdrawn into the Royal Bank of Canada by the persons authorized to deal with the same, AND that the shares therein contained be distributed amongst such persons as shall produce satisfactory evidence of their right to receive certificates for shares in the Amalgamated Development Company out of the said four million shares; and that such distribution shall not take place until after the expiration of a period of advertising as hereinafter provided.

AND IT IS FURTHER ORDERED that notice of this Order be published for four months weekly in a newspaper published in the City of Victoria, and that notice of the Order also be sent by mail to all persons of whose claims the Amalgamated Development Company is aware, and whose addresses are in the possession of the said Company.

AND IT IS FURTHER ORDERED that the said application and of such distribution.

G. HUNTER, C. J.

Approved: T. E. POOLEY, JAS. S. BRANDON, F. C. ELLIOTT.

LOCAL TENDERERS MAY HAVE ANOTHER BID

Resolution for City Council To-night Proposes Rejection of Steel Pipe Tenders

The tender for rivetted steel pipe may yet be awarded to a local firm, if plans now maturing in connection with the material to be used for the water pipe between Humpback reservoir and the fountain are carried out.

Alderman Gleason has posted a motion for consideration at the council meeting this evening, in which he asks for the tenders for rivetted steel pipe to be returned, and the cheques of the tenderers sent back to the firms interested.

He moves this because there is a prospect of a proposal being presented to the council by Jones and Rant, in conjunction with four of the local ironfounders, to carry through the work, leasing the abandoned steel pipe works at Esquimalt harbor which were started by the Westhorne Lumber company at Thetis Cove, all the work to be carried through by local labor. He will submit figures to show that not only can local labor be employed but that the work can be effected at a saving to the city council. At the present time the lowest tender complying with the specifications is that of Macdonald, Godson and Company, of Vancouver. From the standpoint of the tenderers, however, there may be some protest at the long period in which their cheques have been held since the bids were opened on July 31.

Among the other tenders for the concrete pipe, it is understood, an effort will be made to place the contract with the Pacific Lock Joint Company in place of the Graft Construction Company in view of the fact that the lowest tenderers are not, in the opinion of the consulting engineer, specialists in the class of work which has to be done between Sooke lake and Humpback. It is said that Mr. Meredith will not recommend any experimental work to be undertaken under the contract. There is about \$20,000 between the tenders of the two

companies, the Graft Construction Company having bid \$308,000 for the work.
Among other matters to come up at the meeting in connection with the waterworks proposal will be three motions by Alderman Cuthbert, one suggesting a commission to deal with the information on the engineers engaged and the salaries paid, and the other proposing the extension of the pipe line up into the Upper lake at Sooke, using a 48-inch pipe for the extension, and substituting a 48-inch for the 40-inch pipe on the flow line.

WHOLESALE MURDER ALLEGED BY PRISONER

(Continued from page 1.)

was trying to make a sucker out of me," he said. "She told me I was responsible for her condition and how badly she needed \$300. I didn't murder her for the ring. I took it just because it was there."

Ten of Spencer's victims were women. He said he married four times and had killed two of his wives. He always mutilated his victims, he said, with the idea of preventing identification.

The jewelry he got he sold to denizens of the district he frequented, and did not go to pawnshops. Shortly after the murder of Fannie Thompson, he said, he was arrested for robbery and pleaded guilty to one of eighty-two charges.

The last "job" he did was a few nights ago when he robbed the Astor cafe.

After being questioned for fourteen hours he put his hands to his head and said: "I am too tired to remember any more just now. I got to have sleep. Maybe when I am rested I can remember some more. The truth is I killed no many I can't remember all of them."

Chief of Police McWeeny believes Spencer is telling the truth.
All of the murders except two, Spencer declared, had been for the purpose of robbery. Two policemen, Fossell and Devine, shot to death twelve years ago, he said, he killed to escape arrest.

"I intended to kill Mrs. A. J. Scofield, the proprietor of the rooming house where I have been living," he said, "if I had not been arrested at just this time I would have killed her."

Joliet, Ill., Oct. 6.—Henry Spencer was known in the state penitentiary under five different names during the two terms he served. He was received as Henry Skarupa, alias Henry Burke, alias James Burke, alias James Burholder, alias Henry Spencer.

PAYMASTER HELD UP.
Stonington, Conn., Oct. 6.—Carl A. Koeb, cashier of the American Velvet Company, was held up at the point of a gun and robbed of \$14,000 this forenoon, by two masked men, while he was driving from a bank to the mill.

PROSECUTE UNDER VENERABLE STATUTE

Attorney-General's Department Holds That Charles II. Law Governs Sunday

That the attorney-general's department will not regard itself as responsible for prosecutions in Victoria and Vancouver Island of breaches of Sunday closing is the tenor of a communication, which the police commission has received, following correspondence between the department and Chief of Police Langley.

The reason advanced for declining further responsibility under the Lord's Day Act is that the judgment of the chief justice last month in the Laitty case established the old Act of Charles II, 1674, as still in operation on the Island.

The department takes the view that if the city police see fit to initiate prosecutions under the instruction of the commission against those traders whose stores are still open on Sunday, the prosecution must be taken under the act of the Stuart period, and the attorney-general indicates that he regards his department as absolved from responsibility established by the Canadian statute.

It is understood that the chief of police has asked for a direction from the commission in view of the fact that some 15 or 16 cigar stands, and fruit stalls were opened yesterday again, following their closing up on three Sundays since the chief justice gave his decision on the information lodged by Detective Macdonald, upon which a test case was made.

The police yesterday kept track of the owners and the stores which did not close up so they would have a list in case the commissioners decided to enforce the obsolete statute.
Great interest is being taken in this controversy throughout the Island and all the small cities where one or two stores have controlled the Sunday sales are waiting to know what Victoria will do, as the rule enforced here will guide the authorities in the other centres in their attitude to the question.

MADE HIGH SCORES

Favorable Weather Leads to Excellent Work by Marksmen at Rifle Ranges

Ideal weather conditions favored the Civilian Rifle Club shoot on Saturday afternoon and many high scores were returned. R. W. Fox made the magnificent score of 188 out of a possible 190, only missing the bull's-eye twice in 31 shots. He won the gold button in class A. A. N. Ashe was winner of a spoon, making the possible at 600 yards. Sidney Williams also made a splendid score, his card totaling 190; his 60-yard shoot was just one point short of the possible. J. V. Boyd was winner of the button in class B, and A. R. Walsh the winner of the button in class C. The scores in detail are as follows:

Class A.	200	500	600	Tl.
R. W. Fox	33	35	34	102
S. Williams	33	33	34	100
A. E. Ashe	30	34	36	99
G. Grashby	23	34	32	89
W. D. Brayshaw	23	34	30	87
H. J. Wicks	22	32	31	85
C. Coutts	21	34	30	85
J. Wicks	22	31	31	84
H. Burton	20	34	30	84
F. Stevens	20	33	29	82
Capt. E. J. Gollup	21	32	29	82
W. E. Tapley	21	33	28	82
B. E. Hardwick	21	33	28	82

Cadet A. E. Williams	22	31	29	82

FIFTH REGIMENT C. G. A. RIFLES ASSOCIATION.

The members who attend the practices at Clover Point usually find that as the shooting season nears its close the weather conditions seem to improve. On Saturday some excellent shooting was done as the scores indicate. S. Sergt. Carr was top with a century and wins the spoon in "A" class and also the Little & Taylor trophy. Gunner McMartin wins the spoon in "B" class. "Possibilities" spoons were won by Sergt. Harness and Gunner Blomfield. Scores:

"A" Class.	200	500	600	Tl.

Look For the BIG V

On the next sack of flour you buy. It is the trade mark of British Columbia's greatest Milling company and of the finest Flour made—

ROYAL STANDARD FLOUR

Royal Standard is made in a modern factory turning out 500 barrels per day. The factory runs day and night to supply the demand. Before buying grain, we analyze the choicest wheat samples from Alberta and Saskatchewan; grind them into flour, bake actual bread with them. Only wheat that makes perfect loaves is purchased. That accounts for the delicious uniformity of ROYAL STANDARD.
